Preface	v	
Chapter 1	Methodological Issues, Explanation, and Theory in Experimental Aging Research	1
	Methodological Issues with Developmental-Research Designs: The Cross-Sectional Design	2
	Methodological Issues with Developmental-Research Designs: The Longitudinal Design	11
	Methodological Issues with Developmental-Research Designs: Sequential Designs	20
	Other Methodological Issues	27
	Identifying Age-Sensitive and Age-Insensitive Processes	42
	Alternatives to Traditional Interaction Research	50
	Theory and Its Interface with Experimental Aging Research	53
	Summary	65
Chapter 2	Sensory Psychology and Perception	71
	Sensory Sensitivity and Psychophysical Research	73
	Sensitivity Versus Decision-Making Processes	81
	Adult Age Differences in Other Sensory Phenomena	90
	Adult Age Differences in Basic Perceptual Phenomena	95
	Adult Age Differences in Perception Attributable to Changes in Stimulus Persistence	102
	Adult Age Differences in Pattern Recognition	111
	Methodological Comment	130
	Summary	131
Chapter 3	Attention	134
	Vigilance	135
	Selective Attention	142
	Divided Attention	170
	Summary	186
Chapter 4	Learning: Conditioning, Instrumental, Motor Skill, Procedural	189
	Learning or Memory?	191
	Adult Age Differences in Conditioning	192
	Adult Age Differences in Instrumental Learning	203

	Adult Age Differences in Motor Skill Learning	208
	Adult Age Differences in Procedural Learning	226
	Abnormal Aging and Learning	232
	Summary	235
Chapter 5	Learning: Verbal Learning, Mnemonics, Transfer	239
	Adult Age Differences in Verbal Learning:	
	Paired-Associate Learning	239
	Analysis of Age-Sensitive Processes	247
	Adult Age Differences in Verbal Learning: Serial Learning	266
	Abnormal Aging and Verbal Learning	271
	Mnemonics	272
	Adult Age Differences in Transfer	277
	Comments	288
	Summary	289
Chapter 6	Memory: Models of Episodic Memory and Related Research Issues	292
	Overview of the Human Memory System	295
	Adult Age Differences in Sensory Memory	296
	Adult Age Differences in Episodic Memory:	
	Dual-Store Model	308
	Adult Age Differences in Episodic Memory:	
	Levels-of-Processing Model	332
	Adult Age Differences in Episodic Memory:	
	Resource Models	349
	Summary	361
Chapter 7	Episodic Memory: Effortful Phenomena	365
	Adult Age Differences in Organizational Processes	365
	Adult Age Differences in the Generation Effect	375
	Adult Age Differences in Effortful Episodic Memory:	
	Encoding Variability and the Lag Effect	376
	Adult Age Differences in Recognition Memory	379
	Adult Age Differences in Picture/Face Memory	385
	Adult Age Differences in Retrieval	389
	Adult Age Differences in Prospective Memory	397
	Adult Age Differences in Memory for Discourse	399
	Abnormal Aging and Effortful Episodic Memory	423
	Summary	427
Chapter 8	Rehearsal-Independent Episodic Memory: Long-Term Forgetting	431
	Adult Age Differences in Memory for Noncontent Attributes of Episodic Events	431
	Adult Age Differences in Memory for Activities and Actions	447
	Adult Age Differences in Other Forms of Rehearsal- Independent Memory	459

Abnormal Aging and Rehearsal-Independent Memory	460
Adult Age Differences in Long-Term Forgetting	463
Abnormal Aging and Long-Term Forgetting	484
Summary	486
Chapter 9 Generic Memory: Internal Lexicon, Implicit Memory, Metamemory	490
Internal Lexicon	491
Adult Age Differences in the Use of Syntax	514
Abnormal Aging and the Internal Lexicon	514
Implicit Memory	523
Abnormal Aging and Implicit Memory	532
Metamemory	534
Summary	549
Chapter 10 Thinking: Concept Formation and Identification	552
Classical-Concept Formation and Identification	553
New Directions in Research on Concept Acquisition	586
Summary	593
Chapter 11 Thinking: Problem Solving and Reasoning	596
Problem Solving	596
Verbal and Numerical Reasoning	626
Spatial/Imaginal Reasoning	639
Stage Theory of Cognitive Development and Age Changes in Thinking	650
Summary	656
Chapter 12 Intelligence	660
General Issues in Research on Aging and Intelligence	660
Psychometric Studies of Adult Age Differences in Intelligence: Global Assessments	667
Psychometric Studies of Adult Age Differences in Intelligence: Special Abilities	674
Relationship Between Special Abilities: The Differentiation/De-differentiation Hypothesis	681
Crystallized and Fluid Intelligence	684
Abnormal Aging and Intelligence	690
Terminal-Drop Phenomenon	692
The Performance/Competence Issue	693
Plasticity, Activity, and Intervention	699
Intelligence in the Laboratory: Relationships Between Information Processing and Intelligence	707
Summary	722
References	727
Author Index	821
Subject Index	845
