<i>List of Contributors</i>	ix
<i>Preface</i>	xi
<i>Dedication</i>	xiii

## **Implementation of the Life-Span View of Human Development: The Sample Case of Attachment**

*Richard M. Lerner and Carol D. Ryff*

I. Introduction	2
II. Description of Developmental Change	3
III. Explanation of Developmental Change	9
IV. Implications of the Life-Span View for Developmental Intervention	14
V. Concept of Attachment	17
VI. Life-Span Analysis of the Development of Attachment	21
VII. Conclusions	38
References	39

## **The Concept of Development from a Systems Perspective**

*Hugh B. Urban*

I. On Behavior and Human Development	46
II. Models and Their Use	49
III. Models in Human Development	51
IV. Evolution of a Systems View	58
V. The Systems Perspective—An Overview	62
VI. Application of the Systems View to the Study of Human Development	73
VII. Some Future Indications	76
VIII. Summary	78
References	79

## **A Life-Span Approach to Perceptual Development**

*Robert H. Pollack and Beverly M. Atkeson*

I.	Introduction	86
II.	Previous Research on Visual Processes in the Aged	86
III.	Stimulus Persistence Model	90
IV.	Pollack's Approach to Perceptual Development: Research and Theory	92
V.	Extension of Pollack's Work to Examine Perceptual Changes in Adulthood	95
VI.	First Study: Changes in the Magnitude of the Simultaneous and Successive Mueller-Lyer Illusion throughout Adulthood	99
VII.	Second Study: Changes in the Magnitude of the Delboeuf Illusion and the Usnadze Effect from Young to Old Age	101
VIII.	Summary and Conclusions	103
	References	105

## **Brain Electrical Activity and Behavior Relationships over the Life Span**

*Diana S. Woodruff*

I.	Introduction	112
II.	Behavioral Relationships with Ongoing Electroencephalographic Activity	113
III.	Age Changes in Event-Related Potentials and Implications for Behavior	137
IV.	Electroencephalogram and Event-Related Potential Asymmetries, Brain Lateralization, and Behavior Development	149
V.	Conclusion	163
	References	166

## **Cognitive Development and Life-Span Developmental Theory: Idealistic versus Contextual Perspectives**

*Gisela Labouvie-Vief and Michael J. Chandler*

I.	Introduction	182
II.	Idealism and Conceptions of Life-Span Cognition	184
III.	Contextual Variations in Adult Cognition	188

IV. From Context to Contextualism	197
V. Conclusion	203
References	204

### **Human Ability Systems**

*John L. Horn*

I. Conceptions of the Concept of Intelligence	212
II. Multiple Ability Theories and Evidence	218
III. Processes Involved in Manifest Abilities	224
IV. Ability Development over the Life Span	232
V. Final Word	251
References	251

### **Development of Females from Childhood through Adulthood: Career and Feminine Role Orientations**

*Aletha Huston-Stein and Ann Higgins-Trenk*

I. Introduction	258
II. Age and Cohort Differences in Role Choices	260
III. Historical Changes in Role Choices	263
IV. Individual Differences in Development among Women	276
V. Summary and Conclusions	288
References	290

### **Possessions: Toward a Theory of Their Meaning and Function throughout the Life Cycle**

*Lita Furby*

I. The Problem	298
II. Review of the Evidence	300
III. Theoretical Overview and Discussion	320
IV. Summary	330
References	332
