## **Infant-Mother Attachment: New Directions for Theory and Research**

*Ross A. Thompson and Michael E. Lamb*

I. A Perspective on the Life-Span Perspective	1
II. A Survey of Attachment Theory	5
III. Antecedent Influences	12
IV. Stability and Predictive Utility	20
V. Cross-National Comparisons	28
VI. Summary: A Perspective on Attachment Theory and Research	33
References	36

## **Women's Labor Force Participation over the Life Course: A Model Case of Social Change?**

*Walter Müller*

I. Introduction	43
II. Competing Explanations for Long-Term Changes in Female Labor Force Participation	45
III. The Cohort Life Course Model of Women's Labor Force Participation	48
IV. Data Base	50
V. Labor Force Participation in Women's Life Course	51
VI. The Significance of Early Experience vs. Other Explanatory Factors	55
VII. The Impact of Changing Opportunity Structures	61
VIII. Discussion	65
References	66

## **Robust Estimation for Causal Models: A Comparison of Methods in Some Developmental Datasets**

*G. J. Huba and L. L. Harlow*

I.	Introduction	69
II.	Example 1: Measurement Model for CES-D Indicators with Adolescents	79
III.	Example 2: Structural Equation Model for 10 Personality and Drug Use Variables	84
IV.	Example 3: A Longitudinal Structural Equation Model of Drug Use	93
V.	Example 4: Cannabis Use over 5 Years and Law Abidance	97
VI.	Example 5: The Factorial Validity of Kaplan's Self Derogation Scale	102
VII.	Discussion	103
VIII.	Summary	108
	References	109

## **The Life-Span Approach to Individual Therapy: An Overview with Case Presentation**

*J. Arturo Silva and P. Herbert Leiderman*

I.	Introduction	114
II.	Case History	118
III.	Processes of Therapy	119
IV.	Commentary	125
V.	Epilogue	132
VI.	Summary	132
	References	133

## **Differential Maturation Among Girls and its Relations to Social Adjustment: A Longitudinal Perspective**

*David Magnusson, Håkan Stattin, and Vernon L. Allen*

I.	Introduction	136
II.	Biological Maturation and Normbreaking	142
III.	Older Friends as Social Mediators	144
IV.	Friends as Norm Transmitters	151
V.	Longitudinal Implications of Differential Maturation	152

VI. Summary	163
VII. Consequences for Developmental Research	168
References	170

### **Early Attachment and Personal Relationships Across the Life Course**

*Arlene Skolnick*

I. Introduction	174
II. Attachment Theory	176
III. Alternative Models of Social Development	180
IV. Method	184
V. Results	189
VI. Discussion	193
VII. Summary	200
References	201

### **Biopsychological Research on Adaptivity Across the Life Span of Animals**

*Helmut Coper, Bernhard Jänicke, and Gert Schulze*

I. Introduction	207
II. Adaptivity and Aging	208
III. Conclusion	225
IV. Summary	226
References	227

### **Developmental Task Through the Life Span: A New Approach to an Old Concept**

*Rolf Oerter*

I. Historical Background	233
II. Developmental Task as a General Concept in Developmental Psychology	236
III. A Theoretical Model of Developmental Task	244
IV. An Empirical Example: The Conceptualization of Adulthood	250
V. Taxonomies of Developmental Tasks	254
VI. Summary	264
References	265

**A Life-Span View Of Memory***Marion Perlmutter*

I.	Introduction: Life-Span Developmental Approach to Understanding Memory	272
II.	Research on Memory Across Childhood	279
III.	Research on Memory Across Adulthood	291
IV.	Summary and Conclusions: Life-Span Developmental Contributions to Understanding Memory and Development	306
	References	308
