PART ONE: EXPLANATION BY PURPOSE

I.	PURPOSE AND TELEOLOGY	3
	1. Teleological Explanation	5
	2. An Empirical Question?	6
	3. Assumptions of Atomism	10
	4. The Asymmetry of Explanation	17
II.	ACTION AND DESIRE	26
	1. Actions and Goals	27
	2. Action and Direction	32
	3. Action and Its Explanation	37
	4. Is Mechanism Conceivable?	45
	5. Mechanism and Desire	49
III.	INTENTIONALITY	54
	1. Action and Movement	54
	2. The Consciousness of Animals	63
IV.	THE DATA LANGUAGE	72
	1. Scientific Neutrality	72
	2. Operational Definition	76
	3. Non-Psychological Psychology	82
	4. Empirical Assumptions	87
V.	THE PROBLEM OF VERIFICATION	98
	1. Empirical or Conceptual?	98
	2. Testing a Theory	102
	3. The Scope of the Enquiry	105

PART TWO: THEORY AND FACT

VI.	THE DETERMINANTS OF LEARNING	111
	1. S-R Theory	111
	2. Learning as Conditioning	115
	3. The Problem of 'Set'	120
	4. S-R and Selection	126

CONTENTS

VII.	WHAT IS LEARNED?	<i>page</i> 136
	1. The Limits of Learning	136
	2. Emptiness of the 'Stimulus'	144
	3. Response or Action?	152
VIII.	SPATIAL ORIENTATION	161
	1. Improvisation and Latent Learning	161
	2. The Appeal to 'Stimulus Acts'	169
	3. S-R 'Expectancy' Theory	175
	4. The Machine with 'Insight'	182
IX.	THE DIRECTION OF BEHAVIOUR	196
	1. The Open Environment	196
	2. The Response as Achievement	201
	3. Releasers and Directors	206
	4. Response as Action	214
X.	THE ENDS OF BEHAVIOUR	219
	1. Theories of Motivation	219
	2. Mechanism: The Hydraulic Model	228
	3. Mechanism: Drives Without Direction	234
	4. The Multiplication of 'Drives'	243
	5. The Case of Aversion	250
	6. The Hedonist Option	259
XI.	CONCLUSION	268
	INDEX	275
