
Contents

Preface	vii
Chapter 1 Carotenoids in Crops: Roles, Regulation of the Pathway, Breeding to Improve the Content	1
<i>Marco Fambrini and Claudio Pugliesi</i>	
Chapter 2 β-Carotene Production under Greenhouse Conditions	59
<i>Ramón Gerardo Guevara-González, Ireneo Torres-Pacheco, Enrique Rico-García, Rosalía Virginia Ocampo-Velázquez, Adán Mercado-Luna, Rodrigo Castañeda-Miranda, Luis Octavio Solís- Sánchez, Daniel Alaniz-Lumbreras, Roberto Gómez-Loenzo, Gilberto Herrera-Ruiz and Genaro Martín Soto-Zarazúa</i>	
Chapter 3 Flavonoids with Antimicrobial Properties	93
<i>Rosa Martha Pérez Gutiérrez</i>	
Chapter 4 Water Soluble Supramolecular Complexes of β-Carotene and Other Carotenoids	191
<i>Nikolay E. Polyakov and Lowell D. Kispert</i>	
Chapter 5 In Vitro Antioxidant Activity of Synthetic β-carotene and Natural Carotenoid Extracts against the Oxidative Degradation of Food- Related Oil-in-Water Emulsions	231
<i>Sotirios Kiokias, Charikleia Dimakou and Vassiliki Oreopoulou</i>	
Chapter 6 Evaluating the Effectiveness of Beta-Carotene-Rich Food Interventions for Improving Vitamin A Status	263
<i>Betty J. Burri and Tami Turner</i>	
Chapter 7 Carotene Dispersion in Liquid Media	283
<i>Cao-Hoang Lan and Waché Yves</i>	

Chapter 8	Comparing Local Fruits and Vegetables and β-carotene Supplements as a Vitamin A Source for Honduran Mothers and Infants: <i>Douglas L Taren, Rina G. Kaminsky, Jackeline Alger, Monica Mourra, Rahul Mhaskar and Louise M. Canfield</i>	299
Chapter 9	The Role of Small-Sized Tomatoes in Carotenoid Uptake <i>Fabio Licciardello and Giuseppe Muratore</i>	315
Chapter 10	Seafood: A Natural Source of Carotenoids <i>Ana Rodríguez-Bernaldo de Quirós and Julia López-Hernández</i>	329
Index		335
