	List of Drawings at Chapter Openings	xi
	Acknowledgments	xiii
<b>1</b>	<b>Parental Care and Competition for Mates</b>	
	1.1 Parental Care and Sexual Selection	3
	1.2 Parental Care and Competition for Mates	5
	1.3 The Evolution of Parental Care	7
	1.4 Definitions of Parental Care and Parental Investment	8
<b>2</b>	<b>Forms of Parental Care</b>	
	2.1 Introduction	13
	2.2 Preparation of Nests, Burrows, or Territories	13
	2.3 Production of Gametes	14
	2.4 Care of Eggs	15
	2.5 Care of Young without Provisioning from Sources outside the Egg	19
	2.6 Provisioning Young before Hatching or Birth	20
	2.7 Provisioning Young after Hatching or Birth	22
	2.8 Care of Offspring after Nutritional Independence	25
	2.9 Social Assistance to Mature Offspring	27
	2.10 Summary	27
<b>3</b>	<b>The Costs of Breeding</b>	
	3.1 Introduction	31
	3.2 Parental Expenditure	32
	3.3 Correlations between Components of Fitness	34
	3.4 The Limitations of Phenotypic Correlations	39
	3.5 Experimental Manipulation of Parental Expenditure	41
	3.6 Negative Genetic Correlations between Fitness Components	43
	3.7 Summary	46

<b>4</b>	<b>Propagule Size</b>	
4.1	Introduction	49
4.2	How Large Should Propagules Be?	49
4.3	How Much Time Should Be Spent in the Egg?	54
4.4	Constraints on Propagule Size	57
4.5	Variation in Propagule Size	61
4.6	Egg Size and Parental Care	65
4.7	Is There a Single Optimal Propagule Size or an Optimal Range of Variation?	66
4.8	Summary	68
<b>5</b>	<b>Viviparity</b>	
5.1	Introduction	71
5.2	Viviparity among Invertebrates	73
5.3	Viviparity in Fish	74
5.4	Viviparity in Amphibia	77
5.5	Viviparity in Reptiles	78
5.6	On the Absence of Viviparity in Birds	79
5.7	Viviparity in Mammals	80
5.8	Summary	82
<b>6</b>	<b>Incubation, Gestation, and Lactation</b>	
6.1	Introduction	85
6.2	Body Size and the Duration of Development Periods	88
6.3	Incubation	89
6.4	Gestation and Age at Weaning	90
6.5	Lactation	92
6.6	Milk Composition	94
6.7	Summary	99
<b>7</b>	<b>Parental Care in Ectotherms</b>	
7.1	Introduction	101
7.2	The Evolution of Parental Care by Males and Females	102
7.3	The Maintenance of Parental Care by Males and Females	104
7.4	Parental Care in Invertebrates	107
7.5	Parental Care in Fish	111
7.6	Parental Care in Amphibia	123
7.7	Parental Care in Reptiles	125
7.8	Summary	126

<b>8</b>	<b>Parental Care in Birds and Mammals</b>	
	8.1 Parental Care and Breeding Systems in Birds and Mammals	131
	8.2 Models of Parental Care	140
	8.3 Why Do Males Help in Biparental Species?	140
	8.4 Why Don't Males Always Assist with Parental Care?	145
	8.5 Why Do Males Agree to Being the Only Care-giver in Some Monogamous Species?	146
	8.6 Why Do Males Agree to Polyandry?	147
	8.7 Why Are Males Responsible for All Care in Some Polygynous Birds?	150
	8.8 Summary	151
<b>9</b>	<b>Parental Tactics 1: Variation in Care in Relation to Benefits</b>	
	9.1 Introduction	155
	9.2 Parental Care and Parent-Offspring Relatedness	157
	9.3 Parental Care and Brood Size	158
	9.4 Parental Care and Offspring Age	161
	9.5 Parental Care and Offspring Quality	164
	9.6 Brood Reduction	165
	9.7 Brood Desertion	170
	9.8 Summary	172
<b>10</b>	<b>Parental Tactics 2: Variation in Care in Relation to Costs</b>	
	10.1 Introduction	175
	10.2 Parental Investment and Resource Availability	175
	10.3 Reduced Reproductive Success in Young Breeders: Restraint or Constraint?	176
	10.4 Reproductive Value and Terminal Investment	178
	10.5 Parental Investment by Males and Access to Mating Partners	182
	10.6 Parental Investment and Conflicts of Interest between Care-givers	183
	10.7 Parental Decision Rules	188
	10.8 Summary	190
<b>11</b>	<b>Parent-Offspring Conflict</b>	
	11.1 Introduction	193

	11.2 Parent-Offspring Conflict in Theory	193
	11.3 Parent-Offspring Conflict in Practice: Predictions	201
	11.4 Summary	206
<b>12</b>	<b>Parental Investment in Sons and Daughters</b>	
	12.1 Introduction	209
	12.2 Does Parental Expenditure Have a Greater Effect on Fitness in Males or Females?	209
	12.3 Parental Expenditure and Sex Differences in Early Growth	213
	12.4 Energy Expenditure on Sons and Daughters	215
	12.5 Reproductive Costs of Sons and Daughters	218
	12.6 Sex Allocation or Differential Extraction?	221
	12.7 Sex Differences in Parental Investment and the Population Sex Ratio	223
	12.8 Summary	226
<b>13</b>	<b>Sex Ratios and Differential Juvenile Mortality</b>	
	13.1 Introduction	229
	13.2 Sex Ratio Variation at Hatching or Birth	232
	13.3 Sex Differences in Juvenile Mortality	242
	13.4 Summary	252
<b>14</b>	<b>Conclusions</b>	
	14.1 Introduction	255
	14.2 What Are the Benefits and Costs of Parental Care?	255
	14.3 Why Does the Extent of Parental Care Vary so Widely among Species?	257
	14.4 Why Do Only Females Care for Eggs and Young in Some Species, Only Males in Others, and Both Parents in a Few?	258
	14.5 To What Extent Is Parental Care Adjusted to Variation in Its Benefits to Offspring and Its Costs to Parents?	261
	14.6 How Do Parents Divide Their Investment between Sons and Daughters?	262
	14.7 Prospects	263
	References	267
	Indexes	333
