Preface ix

1. Use of Common and Scientific Nomenclature to Designate Laboratory Primates

<i>Maryeva W. Terry</i>	1
I. Introduction	1
II. General and Common Names	2
A. Primates	2
B. Simian	3
C. Ape	3
D. Anthropoid	4
E. Orang	4
F. Chimpanzee	4
G. Monkey	5
H. Platyrrhine, Catarrhine, New World, and Old World	5
I. Baboon	5
J. Marmoset	6
K. Lemur	7
L. Common Names for Genera and Species	7
III. Scientific Names	10
A. General Considerations	10
B. Old World Monkeys	13
C. New World Monkeys	21
D. Prosimians	26

- IV. Identification 27
 - A. Published Tools for Primate Identification 28

Acknowledgments 30

References 30

2. Information Processing and Discrimination Learning Set

Douglas L. Medin 33

- I. Introduction 33
- II. Information Processing in Learning to Learn 37
 - A. Reinforcement as Information 38
 - B. Selective Coding 39
 - C. Memory 44
 - D. Transfer to and from Learning Sets 51
- III. Learning Set Theories 54
 - A. Reinforcement Theories 54
 - B. Hypothesis Theories 57
 - C. Attention Theories 60
- IV. Relationship Between Hypothesis Theories and Attention Theories 62

Acknowledgments 63

References 63

3. Interactions Between Sensory Modalities in Nonhuman Primates

George Ettliger 71

- I. Introduction 71
- II. Theoretical Considerations 72
 - A. Classes of Sensory Interaction 72
 - B. The Nature of Cross-modal Equivalence 75
 - C. Acceptable Standards of Evidence for Cross-modal Equivalence 76
- III. Experimental Observations 80
 - A. Bi-modal Studies 80
 - B. Cross-modal Studies 82
 - C. Lesion Studies 96

D.	The Generality of Cross-modal Performance	98
IV.	Overview and Conclusions	98
	Acknowledgments	101
	References	101
4.	Language Behavior of Apes	
	<i>Duane M. Rumbaugh</i>	105
I.	Introduction	105
A.	Behavior and Access to Language Origins	106
B.	Language in Comparative Perspective	107
C.	Primate Intelligence and Learning	108
D.	Cross-modal Perception	109
E.	The Evolution of Human Speech	110
F.	Summary	111
II.	The Language Projects	111
A.	Project Viki	112
B.	Project Washoe	113
C.	Project Sarah	118
D.	The Lana Project	121
E.	Other Ape Language Projects	125
F.	Chimpanzee Language Skills and Intelligence	126
III.	A Comparison of the Language Projects	126
IV.	Discussion	128
A.	Implications for the Definition of Language	128
B.	Implications for Learning Research	128
C.	Language Acquisition and the Formation of Concepts	130
D.	Underlying Processes-Homologous or Analogous?	131
V.	Projections	131
A.	Animal-model Studies and Perspectives of Language	131
B.	Language Research and Psychology	132

Acknowledgments	133
References	133

5. Sociosexual Behaviors of Nonhuman Primates During Development and Maturity: Social and Hormonal Relationships

<i>David A. Goldfoot</i>	139
--------------------------------	------------

I. Introduction	139
II. Developmental Origins of Sociosexual Behavior	141
A. Influence of Conditions of Rearing on Subsequent Sexual Behavior	143
B. Dimorphic Aspects of Mounting and Presenting	150
III. Transition from Juvenile to Adult Displays of Sociosexual Behavior	159
IV. Adult Sexual Behavior	162
A. Problems of Behavioral Analysis	162
B. Hormonal Stimulation of Sociosexual Behavior	166
V. Summary and Conclusions	176

Acknowledgments	177
References	177

Author Index	185
Subject Index	191
