

CONTENTS

Preface xv

PART ONE Study of Animal Behavior

CHAPTER ONE

Introduction 3

Why We Study Animal Behavior 3

How We Study Animal Behavior: Four Vital Processes 3

 Physiological Processes 4

 Social Processes 6

 Behavior-Ecological Processes 6

 Evolutionary Processes 6

Evolutionary Perspective 7

Comparative Studies 8

CHAPTER TWO

History of Animal Behavior 9

Interest in Animal Behavior 9

 Early Humans 9

 Classical World 10

Foundations of Animal Behavior Studies 12

 Theory of Evolution 12

 Comparative Method 14

 Theories of Genetics and Inheritance 15

Four Experimental Approaches 15

 Studies of Mechanisms 15

 Studies of Function and Evolution 18

 Behavioral Ecology 21

 Sociobiology 22

Summary 22

| | |
|------------------|---|
| CHAPTER THREE | Approaches and Methods 26 Approaches 27 Ethology 27 Comparative Psychology 30 Design Features in Animal Behavior Studies 32 Definitions and Records 33 Design of the Experiment 35 Field Methods 39 Methodological Pitfalls 40 Summary 42 Discussion Questions 43 References 44 Suggested Readings 45 |
| CHAPTER FOUR | Genetics and Evolutionary Processes 46 Genetics 46 Species and Gene Pools 46 Basic Principles 47 Evolutionary Processes 50 Fitness 50 Survival 50 Darwin and Biological Evolution 51 Population Genetics 53 Mutation and Recombination 53 Causes of Evolution 54 Selection, Adaptation, and Speciation 57 Selection 57 Adaptation 58 Speciation 62 Genetic Variation, Kinship, and Units of Selection 64 Polymorphism 64 Measurement of Relationship 65 Group Selection 65 Kin Selection 66 Evolutionary Stable Strategies 67 Problems with Evolutionary Explanations 68 Summary 69 Discussion Questions 70 References 70 Suggested Readings 71 |
| | PART TWO Control of Behavior |
| CHAPTER FIVE | Behavior Genetics 75 Questions in Behavior Genetics 75 |

| | |
|--|----|
| Methods of Assessing Genetic Determination | 76 |
| Inbreeding | 77 |
| Strain Differences | 78 |
| Selective Breeding | 79 |
| Cross-Fostering | 83 |
| Mutations | 84 |
| Modes of Inheritance | 85 |
| Genes and Behavior | 86 |
| Genetics and Evolution | 87 |
| Gene Frequency | 87 |
| Adaptations | 87 |
| Summary | 89 |
| Discussion Questions | 90 |
| References | 91 |
| Suggested Readings | 91 |

CHAPTER
SIX

| | |
|---|-----|
| The Nervous System and Behavior | 93 |
| The Nervous System | 93 |
| Basic Units | 93 |
| Communication of Impulses | 93 |
| Properties of Nerve Cells | 95 |
| Sensation and Perception | 96 |
| Sensory Equipment | 96 |
| Perception Systems | 98 |
| Sensory Filters | 100 |
| Evolution of the Nervous System | 102 |
| Primitive Systems | 102 |
| Radially Symmetrical Nervous System | 103 |
| Bilaterally Symmetrical Nervous System | 104 |
| Generalized Vertebrate Nervous System | 106 |
| Methods of Investigating the Nervous System | 108 |
| Electrodes | 108 |
| Transection | 111 |
| Electrode Stimulation | 112 |
| Lesions | 115 |
| Psychopharmacology | 116 |
| Cannulation | 117 |
| Potential Problems | 117 |
| Summary | 118 |
| Discussion Questions | 119 |
| References | 120 |
| Suggested Readings | 122 |

CHAPTER
SEVEN

| | |
|---|-----|
| Hormones and Behavior | 124 |
| Comparison of the Endocrine and Nervous Systems | 126 |

| | |
|----------------------|-----|
| Preparedness | 225 |
| Memory | 227 |
| Theories of Memory | 227 |
| Storage Mechanisms | 227 |
| Motivation | 229 |
| Lorenz's Model | 230 |
| Deutsch's Model | 230 |
| Summary | 232 |
| Discussion Questions | 233 |
| References | 233 |
| Suggested Readings | 236 |

CHAPTER ELEVEN

| | |
|--|-----|
| Sexual Behavior and Reproduction | 237 |
| Ultimate Factors in Reproductive Behavior | 237 |
| Costs and Benefits of Sex | 237 |
| Diversity of Reproduction | 238 |
| Sex Ratios | 239 |
| Sexual Selection | 240 |
| Epigamic Selection and Assortative and Disassortative Mating | 240 |
| Intrasexual Selection | 242 |
| Mating Systems | 243 |
| Monogamy | 244 |
| Polygyny | 244 |
| Polyandry | 246 |
| Ecology of Blackbird Social Systems | 247 |
| Parents and Offspring | 248 |
| Parental Investment | 248 |
| Parental Care and Reproductive Effort | 252 |
| Parent-Offspring Conflict | 253 |
| Proximate Factors in Reproductive Behavior | 254 |
| Climatic-Hormonal Interaction | 254 |
| Social-Hormonal Interaction | 255 |
| Reproduction in a Primate—the Rhesus Monkey | 262 |
| Mating Behavior | 262 |
| Birth and Infancy | 266 |
| Behavior Development | 267 |
| Summary | 268 |
| Discussion Questions | 269 |
| References | 270 |
| Suggested Readings | 273 |

CHAPTER TWELVE

| | |
|------------------------|-----|
| Aggression | 274 |
| Agonistic Behavior | 274 |
| Types of Competition | 275 |
| Maladaptive Aggression | 275 |

| | |
|---|-----|
| Social Use of Space | 277 |
| Definitions of the Use of Space | 277 |
| Size and Boundaries of Territory | 280 |
| Dominance | 282 |
| Dominance Hierarchies | 283 |
| Dominance Hierarchy in the Rhesus Monkey | 285 |
| Advantages of Dominance | 287 |
| Internal Factors in Aggression | 288 |
| Limbic System | 288 |
| Hormones | 288 |
| Genetic Control | 290 |
| External Factors in Aggression | 290 |
| Learning and Experience | 290 |
| Pain and Frustration | 291 |
| Xenophobia, Crowding, Breeding, Feeding | 291 |
| Restraint of Aggression | 292 |
| Displays | 292 |
| Evolutionary Model | 292 |
| Relevance for Humans | 294 |
| Social Control and Social Disorganization | 295 |
| Summary | 296 |
| Discussion Questions | 297 |
| References | 298 |
| Suggested Readings | 300 |

**CHAPTER
THIRTEEN**

| | |
|--------------------------------|-----|
| Communication | 301 |
| How Signals Convey Information | 302 |
| Discrete and Graded Signals | 302 |
| Distance and Duration | 302 |
| Composite Signals | 302 |
| Metacommunication | 303 |
| Measurement of Communication | 304 |
| Observation | 304 |
| Quantification | 305 |
| Functions of Communication | 307 |
| Group Spacing and Coordination | 308 |
| Recognition | 308 |
| Reproduction | 310 |
| Agonism and Social Status | 310 |
| Alarm | 310 |
| Hunting for Food | 312 |
| Giving and Soliciting Care | 313 |
| Soliciting Play | 313 |
| Synchronization of Hatching | 313 |
| Channels of Communication | 314 |
| Odor | 314 |

| | | |
|-----------------------------|--|------------|
| | Sound 315 | |
| | Touch 318 | |
| | Surface Vibration 319 | |
| | Electric Field 319 | |
| | Vision 319 | |
| | Language 321 | |
| | Food Location in Honeybees 321 | |
| | Language in Chimpanzees 324 | |
| | Origins of Displays 327 | |
| | Honesty in Communication 329 | |
| | Summary 330 | |
| | Discussion Questions 331 | |
| | References 332 | |
| | Suggested Readings 334 | |
| CHAPTER FOURTEEN | Migration, Orientation, and Navigation | 336 |
| | Migration 336 | |
| | Birds 336 | |
| | Mammals 342 | |
| | Invertebrates 344 | |
| | Others 345 | |
| | Orientation and Navigation 345 | |
| | Early Work 345 | |
| | Birds 346 | |
| | Mammals 352 | |
| | Insects 354 | |
| | Fish 355 | |
| | Amphibians and Reptiles 356 | |
| | Summary 359 | |
| | Discussion Questions 360 | |
| | References 360 | |
| | Suggested Readings 364 | |
| | PART FOUR Behavioral Ecology and Animal Populations | |
| CHAPTER FIFTEEN | Feeding Relationships | 367 |
| | Ecosystems and Trophic Levels 367 | |
| | Foraging Strategies 369 | |
| | Factors Affecting Food Choice 371 | |
| | Search Image 373 | |
| | Feeding Techniques 373 | |
| | Feeding at Low Trophic Levels 373 | |
| | Resource Partitioning 374 | |
| | Modifying Food Supply 375 | |
| | Trapping and Detecting 376 | |

| | |
|-----------------------------|-----|
| Aggressive Mimicry | 378 |
| Using Tools | 378 |
| Feeding and Social Behavior | 380 |
| Defending a Territory | 380 |
| Group Feeding | 380 |
| Social Carnivores | 382 |
| Defense against Predators | 389 |
| Individual Strategies | 389 |
| Social Strategies | 393 |
| Summary | 396 |
| Discussion Questions | 397 |
| References | 398 |
| Suggested Readings | 400 |

CHAPTER
SIXTEEN

| | |
|------------------------------------|-----|
| Habitat Selection | 401 |
| Factors Restricting Habitat Use | 402 |
| Dispersal | 403 |
| Conation | 405 |
| Other Species | 405 |
| Physical and Chemical Factors | 407 |
| Behaviors Restricting Habitat Use | 407 |
| Cues | 408 |
| Determinants of Habitat Preference | 410 |
| Heredity | 410 |
| Early Experience | 411 |
| Tradition | 414 |
| Summary | 415 |
| Discussion Questions | 416 |
| References | 416 |
| Suggested Readings | 417 |

CHAPTER
SEVENTEEN

| | |
|---|-----|
| Behavior and Population Regulation | 419 |
| Limiting Factors | 419 |
| Food Supply | 420 |
| Density-Independent and Density-Dependent Factors | 421 |
| Intraspecific Competition | 421 |
| Self-Regulation | 421 |
| Behavioral Mechanisms | 423 |
| Behavioral-Physiological Mechanisms | 430 |
| Behavioral-Genetic Mechanisms | 432 |
| Evolution of Self-Regulation | 433 |
| Summary | 436 |
| Discussion Questions | 437 |
| References | 438 |
| Suggested Readings | 440 |

PART FIVE Behavior and Evolution**CHAPTER
EIGHTEEN**

| | |
|---|-----|
| Evolution of Behavior Patterns | 443 |
| Microevolution and Progression | 443 |
| Evidence for the Evolution of Behavior | 446 |
| Fossils | 446 |
| Adaptive Radiation | 447 |
| Domestication | 448 |
| Comparative Series | 449 |
| Evolution of Communicative Behaviors | 452 |
| Biogenic Law | 453 |
| Study of Adaptation | 453 |
| Observing Evolution in the Field | 454 |
| Behavioral Isolating Mechanisms in Speciation | 454 |
| Tradition and Culture | 457 |
| Summary | 458 |
| Discussion Questions | 459 |
| References | 460 |
| Suggested Readings | 461 |

**CHAPTER
NINETEEN**

| | |
|--|-----|
| Evolution of Social Behavior | 462 |
| Complex Social Systems | 462 |
| Colonial Invertebrates | 462 |
| Social Insects | 464 |
| Vertebrates | 465 |
| Evolutionary Advantages and Disadvantages of Social Behavior | 471 |
| Cooperation among Animals | 472 |
| Natural Selection and Sociality: Cooperation through Selfishness | 474 |
| The Selfish Herd | 475 |
| Kin Selection | 476 |
| Kin Selection and Evolution of Eusociality | 478 |
| Reciprocal Altruism | 479 |
| Parental Manipulation of Offspring | 481 |
| Implications for Understanding Human Social Behavior | 482 |
| Summary | 484 |
| Discussion Questions | 485 |
| References | 486 |
| Suggested Readings | 488 |
| Author Index | 489 |
| Subject Index | 494 |
