<i>Foreword by</i> DR S. BIESHEUVEL	xi
<i>Preface</i>	xiii
<i>Introduction: History and method in the cross-cultural study of cognition</i>	i
<b>PART I QUALITY AND VARIATION OF COGNITIVE PROCESSES</b>	
<b>Introduction</b>	23
<b>1 T. GLADWIN (1964) <i>University of Hawaii</i></b> Culture and logical process	27
<b>2 W. C. STURTEVANT (1964) <i>Smithsonian Institution</i></b> Studies in ethnoscience	39
<b>3 J. A. FISHMAN (1960) <i>Yeshiva University</i></b> A systematization of the Whorfian hypothesis	61
<b>4 H. MACLAY (1958) <i>University of Illinois</i></b> An experimental study of language and nonlinguistic behaviour	87
<b>5 H. A. WITKIN (1967) <i>Educational Testing Service, Princeton</i></b> Cognitive styles across cultures	99
<b>6 M. WOBER (1966) <i>Makerere University</i></b> Sensotypes	119
<b>7 J. W. BERRY (1971) <i>Queen's University at Kingston</i></b> Ecological and cultural factors in spatial perceptual development	129
<b>8 G. JAHODA (1970) <i>University of Strathclyde</i></b> Supernatural beliefs and changing cognitive structures among Ghanaian university students	141

- 9 M. COLE, J. GAY and J. GLICK (1968) *The Rockefeller University* 159  
Some experimental studies of Kpelle quantitative behaviour
- 10 L. W. DOOB (1964) *Council on African Studies, New Haven* 197  
Eidetic images among the Ibo
- 11 B. M. ROSS and C. MILLSOM (1970) *Catholic University of America* 205  
Repeated memory of oral prose in Ghana and New York

## PART 2 COGNITIVE LEVEL AND ATTAINMENT

- Introduction 219
- 12 S. BIESHEUVEL (1959) *University of Witwatersrand* 221  
The nature of intelligence: some practical implications of its measurement
- 13 J. W. BERRY *Queen's University at Kingston* 225  
Radical cultural relativism and the concept of intelligence
- 14 M. COLE and J. S. BRUNER (1971) *The Rockefeller University* 231  
Cultural differences and inferences about psychological processes
- 15 S. H. IRVINE (1969) *Brock University* 247  
Contributions of ability and attainment testing in Africa to a general theory of intellect
- 16 M. WOBER *Makerere University* 261  
Towards an understanding of the Kiganda concept of intelligence
- 17 O. M. OKONJI (1971) *University of Zambia* 281  
The effects of familiarity on classification

## PART 3 COGNITIVE DEVELOPMENT: PIAGETIAN APPROACHES

- Introduction 295
- 18 J. PIAGET (1966) *University of Geneva* 299  
Need and significance of cross-cultural studies in genetic psychology

19	M. C. BOVET <i>University of Geneva</i>	311
	Cognitive processes among illiterate children and adults	
20	A. HERON and M. SIMONSSON (1969) <i>University of Melbourne</i>	335
	Weight conservation in Zambian children: a nonverbal approach	
21	D. PRICE-WILLIAMS, W. GORDON and M. RAMIREZ III (1969) <i>University of California</i>	351
	Skill and conservation: a study of pottery-making children	
22	P. R. DE LACEY (1970) <i>Wollongong University College</i>	353
	A cross-cultural study of classificatory ability in Australia	
23	M. M. DE LEMOS <i>Australian Council for Educational Research</i>	367
	The development of spatial concepts in Zulu children	
24	P. R. DASEN <i>University of Geneva</i>	381
	The influence of ecology, culture and European contact on cognitive development in Australian Aborigines	
25	P. R. DASEN (1972) <i>University of Geneva</i>	409
	Cross-cultural Piagetian research: a summary	
	<i>Epilogue</i>	425
	<i>References</i>	429
	<i>Name Index</i>	467
	<i>Subject Index</i>	475
