<b>Chapter 1 Introduction</b>	1
The Trade Union Movement	3
The Women's Movement	6
Collectivism and Individualism	9
Approaches to Collective Action	11
Olson's logic of collective action	11
Resource mobilization theory	13
Recent micro-sociological approaches	14
Methodology and the Study of Collective Action	16
<b>Chapter 2 Social Psychological Approaches to Collective Action</b>	19
Individual Characteristics	20
Locus of control	20
Political efficacy	21
Individualist–collectivist orientation	23
Individual Decision-making	25
The theories of reasoned action and planned behaviour	26
Klandermans' expectancy-value model	30
Group Processes	34
Group membership and self-stereotyping	34
Deindividuation and crowd behaviour	36
Relative deprivation theory	38
Social identity and low status	40
The five-stage model of intergroup relations	42
Combining approaches: The moderating role of group identification	48
Applying the social identity framework to gender	51
Concluding Comments	53

<i>Chapter 3</i>	<b>Social Beliefs and Participation: Exploring Associations</b>	55
	Study One: Participation in a Trade Union Context	56
	The setting and respondents	56
	The questionnaire	57
	Factor analysis of participation items	58
	Predicting participation	59
	The moderating role of group identification I	60
	Conclusions to study one	62
	Study Two: Participation in a Gender Context	62
	Groups and respondents	62
	Measuring prospective and potential participation	64
	Using social beliefs to predict participation	67
	The moderating role of group identification II	70
	The impact of identification as an activist	72
	Intentions, behaviour and perceived control	72
	The moderating role of group identification III	76
	Identity and its behavioural expression	78
	Conclusions to study two	78
	Comparing the Two Contexts of Action	79
<i>Chapter 4</i>	<b>Explaining Initial Involvement: Why Join Women's Groups?</b>	82
	Personal Background and Personal Characteristics	86
	Gender relations in the family	86
	Mothers and daughters	90
	Developing an activist identity	94
	Life Events, Discrimination and Social Support	95
	Experiencing discrimination	95
	Isolation and a sense of 'difference'	102
	Meeting and helping others	104
	Social Beliefs	104
	Collective relative deprivation	105
	Development of a feminist consciousness	105
	Belief in collective action	106
	Group Services	106
	The Role of Chance	107
	Concluding Comments	108
<i>Chapter 5</i>	<b>Outcomes of Participation</b>	110
	Group Socialization	111
	Consciousness Raising	113
	Perceived Outcomes of Participation in Women's Groups	118

	Social outcomes	119
	Political outcomes	121
	Personal development outcomes	122
	Professional development outcomes	123
	The Personal and the Political	124
	Exploring Perceived Personal and Political Changes	124
	Comparing New Recruits and Longstanding Members	131
	Comparing Participation and Social Beliefs Over Time	133
	Concluding Comments	134
<i>Chapter 6</i>	<b>Explaining Non-activism</b>	136
	Culture, Individualism and Group Membership	136
	Perceptions of Political Minorities and Activists	141
	Non-activism in a Trade Union Context	145
	Non-activism in a Gender Context	151
	Cultural context	155
	Beliefs about women's groups and feminism	157
	Individual-level explanations	164
	Other ways of promoting social change	167
	Concluding Comments	168
<i>Chapter 7</i>	<b>Conclusions</b>	171
	Main Themes	171
	Social Identity and Social Movements	176
	<i>Appendixes</i>	181
	<i>References</i>	196
	<i>Index</i>	219

## List of Figures and Tables

---

### Figures

<i>Figure 2.1</i>	The theory of planned behaviour	26
<i>Figure 2.2</i>	Klandermans' expectancy-value model of participation	31
<i>Figure 2.3</i>	Taylor and McKirnan's five-stage model of intergroup relations	43
<i>Figure 3.1</i>	Readiness to participate in different types of action in a gender context: Mean ratings	66
<i>Figure 3.2</i>	Explanations for protest behaviour: Percentage of responses	67
<i>Figure 3.3</i>	Social beliefs: Mean scores	68
<i>Figure 3.4</i>	Intentions and behaviours: Mean scores	73
<i>Figure 4.1</i>	Explanations for initial involvement in women's groups	84
<i>Figure 5.1</i>	Perceived outcomes of participation in women's groups	118
<i>Figure 5.2</i>	Participation in a gender context: A comparison according to length of involvement	132
<i>Figure 6.1</i>	Explanations for non-involvement in women's groups: Overview	154
<i>Figure 6.2</i>	Explanations for non-involvement in women's groups: Focus on group level	158

### Tables

<i>Table 1.1</i>	Percentages who have and would protest/demonstrate against an unjust bill	10
<i>Table 3.1</i>	Union participation and social beliefs: Mean scores, standard deviations and alpha reliability coefficients	59
<i>Table 3.2</i>	Union participation and social beliefs: Standardized regression coefficients	60

<i>Table 3.3</i>	Union participation and expectancy-value calculations: Standardized regression coefficients	60
<i>Table 3.4</i>	Social beliefs and participation in a gender context: Standardized regression coefficients	69
<i>Table 3.5</i>	Group identification, social beliefs and participation in a gender context: Standardized regression coefficients	71
<i>Table 3.6</i>	The impact of identification as an activist: Standardized regression coefficients	72
<i>Table 3.7</i>	Prediction of intention (whole sample): Standardized regression coefficients	75
<i>Table 3.8</i>	Prediction of behaviour (whole sample): Standardized regression coefficients	75
<i>Table 3.9</i>	Prediction of intention for weak and strong identifiers: Standardized regression coefficients	76
<i>Table 3.10</i>	Prediction of behaviour for weak and strong identifiers: Standardized regression coefficients	77
<i>Table 4.1</i>	Interviewees' explanations for initial involvement: Frequencies	85
<i>Table 4.2</i>	Types of discrimination experienced by women	96
<i>Table 5.1</i>	Perceived outcomes of participation: Frequencies	119
<i>Table 5.2</i>	Items concerning self-reported change	126
<i>Table 5.3</i>	Intercorrelations between self-reported change items	126
<i>Table 5.4</i>	Reported changes in beliefs by less and more active groups: Mean scores, standard deviations and F statistics	127
<i>Table 5.5</i>	Perceived changes: Percentage of total responses from qualitative data	127
<i>Table 6.1</i>	Explaining non-involvement in trade unions	148
<i>Table 6.2</i>	Explaining non-involvement in women's groups: Percentage of total explanations	154
<i>Table 6.3</i>	Beliefs about women's groups: Percentage of total explanations	157
<i>Table 6.4</i>	Ways of promoting women's issues: Responses from activists and non-activists	168
