Chapter 1. THE CLIMATES OF CONTINENTAL SOUTHEAST ASIA

by S. NIEUWOLT

Introduction	1
The northeast monsoon season	1
November–December	4
February–March	5
The inter-monsoon period of April and May	6
May	8
The southwest monsoon season	8
September	12
The inter-monsoon period of October	13
Climatic variations	15
The effects of latitude	16
Continentality	19
The influence of relief	21
Temperature	21
Winds	24
Precipitation	24
Moisture conditions	27
Relative humidity	27
Evaporation	29
Climatic regions	29
Equatorial climates	29
Tropical climates	31
Acknowledgements	33
References for the illustrations	33
Statistical information	34
Sources for Malaysia and Singapore	34
Sources for Burma	34
Sources for Thailand	34
Sources for Vietnam, Laos and Kampuchea	34
Sources for the whole region	35
References	36
Appendix—Climatic tables	38

Chapter 2. THE CLIMATE OF THE INDIAN SUBCONTINENT

by Y. P. RAO

Introduction	67
Physiography	67
Seasons	70
Sea-level pressure	70
January	71
April	72
July	73
October	73
Surface winds	73
January	73
April	74
July	75
October	76
Surface temperature	76
Mean daily temperature	77
January	77
April	77
July	77
October	78
Annual	79
Mean daily maximum temperature	79
January	79
April	79
July	79
October	81
Mean daily minimum temperature	81
January	81
April	81
July	81
October	81
Diurnal range of temperature	81
January	82
April	82
July	83
October	83
Extremes of temperature	83
Highest temperatures	83
Lowest temperatures	83
Other significant features	84
Humidity	85
January	85
April	85
July	86

October	86
Rainfall	86
Annual rainfall	86
Number of rainy days	88
Seasonal rainfall	89
Highest rainfall in 24 h	94
Variability of rainfall	94
Weather phenomena	95
Thunderstorms	95
Duststorms	96
Fog	98
Hailstorms	99
Climate of the Himalayas	100
Influence of the Himalayas on the climate of India	100
General climate	101
Rainfall and orography	102
Variation of precipitation with elevation	104
Snowfall in the northern mountains	105
Onset and withdrawal of the monsoon	105
Synoptic systems	106
Cyclonic storms	106
Low-pressure areas of the post-monsoon period	109
Western disturbances	109
Monsoon depressions	111
Troughs off the west coast of the peninsula and mid-tropospheric cyclones	111
Radiation	112
Evapotranspiration	115
Climatic classification	116
Acknowledgements	117
References	117
Appendix—Climatic tables	119

Chapter 3. THE CLIMATE OF THE NEAR EAST

by M. F. TAHA, S. A. HARB, M. K. NAGIB and A. H. TANTAWY

Introduction	183
Location and topography	184
Climatic classification of southwest Asia	184
The warm temperate rainy climate with dry and hot summers (CSa)	184
The warm temperate rainy climate with no definite dry season and warm summer (Cfb)	184
The warm temperate rainy climate with dry and warm summers (CSb)	184
The warm temperate rainy climate with dry winters (CW)	185
Low-latitude arid climate with dry winters (BWhw)	185
Low-latitude semi-arid climate (BSh)	185

Low-latitude steppe climate with dry summer (BSHs)	185
Middle-latitude steppe climate with dry summer (BSKS)	185
Air masses	186
Polar continental air (cP)	186
Tropical maritime air (mT)	186
Polar maritime air (mP)	186
Tropical continental air (cT)	187
General circulation and its influence over southwest Asia	187
Winter circulation (January)	187
Anticyclonic ridge over the region, 187—The Mediterranean low pressure system, 188—Upper air structure, 188	
Summer circulation (July)	189
Western arm of the Indian monsoon trough, 190—Quasi stationary surfaces, 190—Upper distribution, 190	
Transitional seasons	191
Spring, 192—Autumn, 192	
Tropical cyclones	192
Climate of Turkey	193
Location and topography	193
General climate	193
The northern coast (Black Sea) district, 193—The interior (plateau) district, 193—The south coast (Cilicia) district, 194—The west coast district, 194	
Temperature	194
Humidity	195
Precipitation	195
Rainfall, 195—Snow, 196	
Surface wind	196
Weather phenomena	197
Fog, 197—Thunderstorms, 197	
Climate of Cyprus	197
Location and topography	197
General climate	197
Temperature	197
Humidity	198
Precipitation	198
Rainfall, 198—Snow, 199	
Frost	199
Surface wind	199
Weather phenomena	199
Fog, 199—Thunderstorms, 200	
Climate of Syria	200
Location and topography	200
General climate	200
Coastal district, 200—The western inland district, 201—Northeastern district, 201—Eastern district, 201—Desert district, 201	
Temperature	201

Humidity	202
Precipitation	202
Rainfall, 202—Snow, 203	
Surface wind	203
Weather phenomena.	203
Fog, 203—Thunderstorms, 204	
Climate of Lebanon	204
Location and topography	204
General climate	204
Coastal district, 204—The hilly district, 204—The inland district, 205	
Temperature	205
Humidity	205
Precipitation	206
Rainfall, 206—Snow, 206	
Surface wind	206
Weather phenomena.	207
Fog, 207—Thunderstorms, 207	
Climate of Jordan	207
Location and topography	207
General climate	208
The hilly district, 208—The Ghor district (area below mean sea level), 208—The desert district, 208	
Temperature	208
Humidity	209
Precipitation	209
Rainfall, 209—Snowfall, 209—Ground frost, 210	
Surface wind	210
Weather phenomena.	210
Fog and mist, 210—Thunderstorms, 120—Dust-rising and dust-storms, 210	
Climate of Israel	211
Location and topography	211
General climate	211
The coastal district, 211—The hilly district, 211—The Great Rift (eastern) district, 211	
Temperature	212
Humidity	212
Precipitation	213
Rainfall, 213—Snow, 213	
Surface wind	213
Weather phenomena.	215
Dew, 215—Fog, 215—Thunderstorms, 215	
Climate of the Arabian Peninsula: Saudi Arabia, The Yemen Arab Republic (North Yemen), The People's Democratic Republic of Yemen (South Yemen), Oman.	215
Location and topography	215
General climate	216
Temperature	217

Precipitation	218
Surface wind	219
Thunderstorms	219
Climate of Iraq	220
Location and topography	220
General climate	220
Climatic types	220
Temperature	220
Humidity	221
Precipitation	221
Rainfall, 221—Snow, 221	
Surface wind	222
Sandstorms	222
Thunderstorms and hail	222
Fog	222
Climate of Kuwait	223
Location and topography	223
General climate	223
Climatic types	223
Temperature	223
Humidity	223
Precipitation	223
Surface wind	224
Sandstorms	224
Thunderstorms	224
Fog	224
Climate of Iran	224
Location and topography	224
General climate	225
Climatic types	225
Temperature	225
Humidity	225
Precipitation	226
Rainfall, 226—Snow, 226	
Surface wind	226
Thunderstorms	227
Frost	227
Acknowledgements	227
References	227
Appendix—Climatic data in tables and charts.	229

Chapter 4. TROPICAL CYCLONES OF THE INDIAN SEAS

by K. N. RAO

Introduction	257
Definitions	258

Bay of Bengal	258
Averages	261
Frequency and variability	262
Monthly, 262—Seasonal, 262—Annual, 262	
Storms	262
Arabian Sea	263
Areas of formation	264
Bay of Bengal	264
Arabian Sea	266
Frequency of Bay depressions and storms crossing the coasts of India, Burma, Bangladesh and Sri Lanka	267
Burma	268
Bangladesh	269
Sri Lanka	269
Tracks	269
Bay of Bengal	269
Arabian Sea	279
Dissipation	280
Acknowledgements	280
References	280
Appendix—Climatic tables	281
REFERENCE INDEX	325
GEOGRAPHICAL INDEX	327
SUBJECT INDEX	333
