Danksagung .....	7
Introduction.....	9
<b>1 Review of the literature and theoretical background.....</b>	<b>13</b>
1.1 Job mobility .....	13
1.2 Regional mobility .....	16
1.3 A theoretical model of regional mobility .....	26
1.3.1 Assumptions of the model.....	27
1.3.2 Location decision in the second period .....	28
1.3.3 Location decision in the first period.....	29
1.3.4 Probability of changing the region .....	30
1.3.5 Wage effects of regional mobility.....	31
References.....	33
<b>2 Group-Specific Effects of Interregional Mobility on Earnings – A Microdata Analysis for Germany .....</b>	<b>39</b>
2.1 Introduction.....	39
2.2 Data and basic definitions.....	42
2.2.1 Data.....	42
2.2.2 Basic definition.....	43
2.3 Basic facts about movers and stayers.....	45
2.3.1 The mover/stayer-wage differential .....	45
2.3.2 Differences in the characteristics of movers and stayers.....	46
2.4 Econometric estimates based on earnings functions .....	48
2.4.1 Outline of estimation approach.....	48
2.4.2 Estimation results .....	49
2.5 Decomposition of the mover/stayer wage differential.....	51
2.5.1 Decomposition method .....	51

2.5.2	Analysis of the mover/stayer wage differential.....	52
2.5.3	Comparing decomposition results at different levels of aggregation.....	56
2.6	Robustness checks.....	57
2.6.1	Unobserved heterogeneity.....	57
2.6.2	Propensity score matching.....	58
2.7	Conclusions.....	61
	References.....	62
	Appendix.....	66
<b>3</b>	<b>Gender-Specific Migration Wage Differentials .....</b>	<b>69</b>
3.1	Introduction.....	69
3.2	Data and basic definitions.....	71
3.2.1	Data.....	71
3.2.2	Basic definition.....	72
3.3	Evidence on the composition of movers and stayers.....	73
3.3.1	The gender-specific mover/stayer-wage differential.....	73
3.3.2	Differences in the characteristics of male and female movers and stayers.....	75
3.4	Econometric estimates using a wage equation approach.....	80
3.4.1	Outline of the estimation framework.....	80
3.4.2	Estimation results.....	81
3.5	Decomposition of the mover/stayer wage differential.....	84
3.5.1	Decomposition technique.....	84
3.5.2	Analysis of the gender-specific mover/stayer wage differential by firm size, skills and experience.....	84
3.5.3	Analysis of the gender-specific mover/stayer wage differential by region type, skills and experience.....	88
3.5.4	Comparing decomposition results at different levels of aggregation...	92
3.6	Conclusions.....	93
	References.....	95
	Appendix.....	98

<b>4</b>	<b>The Additional Wage Growth Effect of Regional Mobility Compared to Local Job-to-Job Changes</b> .....	101
4.1	Introduction .....	101
4.2	The theoretical model and the implied empirical approach .....	103
4.3	Data, basic definitions and some descriptive evidence .....	107
4.3.1	Data .....	107
4.3.2	Basic definitions .....	108
4.3.3	Some basic facts on the determinants of mobility .....	109
4.4	Econometric estimates .....	112
4.4.1	Mobility effects by control group .....	114
4.4.2	Mobility effects by experience group .....	115
4.4.3	Mobility effects by region type .....	116
4.4.4	The relevance of district and establishment control dummies and the decomposition of mobility returns into search gains and a human capital component .....	119
4.5	Summary and conclusions .....	122
	References .....	123
	Appendix .....	128
<b>5</b>	<b>The Additional Wage Growth Effect of Regional Mobility: Sector-Specific Differences</b> .....	135
5.1	Introduction .....	135
5.2	Data, basic definitions and some descriptive evidence .....	136
5.2.1	Data .....	136
5.2.2	Basic definitions .....	137
5.2.3	Basic information on the samples of regional movers, establishment movers and stayers .....	138
5.3	Econometric estimates .....	145
5.3.1	Outline of the estimation approach .....	145
5.3.2	Estimation results .....	147
5.4	Summary of findings .....	161
	References .....	162
	Appendix .....	164

<b>6</b>	<b>Interrelations between the Urban Wage Premium and Firm-Size Wage Differentials – A Microdata Cohort Analysis for Germany.....</b>	<b>169</b>
6.1	Introduction.....	169
6.2	Data, basic definitions and some descriptive evidence.....	172
6.2.1	Data.....	172
6.2.2	Basic definitions and methods.....	173
6.2.3	Firm size and region types: Some descriptive evidence.....	175
6.3	Econometric estimates: the urban wage premium and the firm size earnings differential .....	177
6.3.1	Outline of the estimation approach.....	177
6.3.2	Estimation results .....	179
6.3.3	Wage level versus wage growth effect.....	181
6.4	Conclusions.....	187
	References.....	189
	Appendix.....	192
<b>7</b>	<b>Summary and Conclusions.....</b>	<b>193</b>
	List of Tables.....	199
	List of Figures .....	203
	Kurzfassung.....	205
	Summary.....	207
