

Part I Introduction		
1 Anthropogenic Geomorphology: Subject and System		3
József Szabó		
Part II Anthropogenic Geomorphology and Related Disciplines		
2 Human Impact in a Systems Approach		13
Attila Kerényi		
3 Anthropogenic Geomorphology in Environmental Management		25
Dénes Lóczy		
4 Anthropogenic Geomorphology and Landscape Ecology		39
Péter Csorba		
Part III Impacts of Various Human Activities on the Landscape		
5 Agriculture: Crop Cultivation and Horticulture		55
József Lóki		
6 Agriculture: Grazing Lands and Other Grasslands		69
Csaba Tóth		
7 Agriculture: Cultivation on Slopes		83
Péter Csorba		
8 Agriculture: Deforestation		95
Zoltán Karancsi		
9 Quarrying and Other Minerals		113
Lóránt Dávid		
10 Mining: Extraction of Fossil Fuels		131
László Sütő		
11 Water Management		155
József Szabó		

12	Urban Development and Anthropogenic Geomorphology	179
	Péter Csima	
13	Transportation and Industry	189
	Lóránt Dávid, Zoltán Ilyés, and Zoltán Baros	
14	Military Activities: Warfare and Defence	217
	Zoltán Ilyés	
15	The Impact of Tourism and Sports Activities	233
	Lóránt Dávid, Zsuzsanna Lontai-Szilágyi, and Zoltán Baros	
16	Impacts in Extreme Environments	255
	Balázs Nagy	
 Part IV An Anthropogenic Geomorphological Synthesis		
17	Nature and Extent of Human Geomorphological Impact – A Review	273
	Péter Rózsa
