

<i>Preface</i>	1
<i>A. A. Auer</i> A Critical Evaluation of the Dynamical Thresholding Algorithm in Coupled Cluster Calculations	3
<i>A. Dreuw, J. Plötner, M. Wormit, M. Head-Gordon, A. D. Dutoi</i> An Additive Long-range Potential to Correct for the Charge-transfer Failure of Time-dependent Density Functional Theory	21
<i>A. Görling, A. Ipatov, A. W. Götz, A. Heßelmann</i> Density-Functional Theory with Orbital-Dependent Functionals: Exact-exchange Kohn-Sham and Density-Functional Response Methods	35
<i>A. Lüchow, R. Petz, A. Schwarz</i> Electron Structure Quantum Monte Carlo	53
<i>A. Schindlmayr, C. Friedrich, E. Şaşıoğlu, S. Blügel</i> First-Principles Calculation of Electronic Excitations in Solids with SPEX	67
<i>E. Voloshina, B. Paulus</i> Development of a Wavefunction-based <i>Ab Initio</i> Method for Metals Applying the Method of Increments	79
<i>J. Yang, C. Hättig</i> Recent Advances in Explicitly Correlated Coupled-Cluster Response Theory for Excited States and Optical Properties	93
<i>B. Doser, J. Zienau, L. Clin, D. S. Lambrecht, C. Ochsenfeld</i> A Linear-Scaling MP2 Method for Large Molecules by Rigorous Integral-Screening Criteria	107
<i>C. van Wüllen</i> A Quasirelativistic Two-component Density Functional and Hartree-Fock Program	123
<i>D. Ködderitzsch, H. Ebert, E. Engel, H. Akai</i> Self-interaction Free Relativistic Spin-density Functional Theory	137
<i>D. Usvyat, L. Maschio, C. Pisani, M. Schütz</i> Second Order Local Møller-Plesset Perturbation Theory for Periodic Systems: the CRYSCOR Code	151
<i>H. Jiang, E. Engel</i> Orbital-dependent Representation of Correlation Energy Functional	165
<i>N. N. Lathiotakis, S. Sharma, N. Helbig, J. K. Dewhurst, M. A. L. Marques, F. Eich, T. Baldsiefen, A. Zacarias, E. K. U. Gross</i> Discontinuities of the Chemical Potential in Reduced Density Matrix Functional Theory	177
<i>E. Goll, H.-J. Werner, H. Stoll</i> Coupling of Short-range Density-functional with Long-range Post-Hartree-Fock Methods	191

<i>H.-J. Werner, G. Knizia, T. B. Adler, O. Marchetti</i> Benchmark Studies for Explicitly Correlated Perturbation- and Coupled Cluster Theories	203
<i>J. Friedrich, M. Hanrath, M. Dolg</i> Fully Automated Implementation of the Incremental Scheme for Correlation Energies	223
<i>M. Griebel, J. Hamaekers</i> Tensor Product Multiscale Many-Particle Spaces with Finite-Order Weights for the Electronic Schrödinger Equation	237
<i>M. Kaupp, A. Arbuznikov, H. Bahmann</i> On Occupied-orbital Dependent Exchange-correlation Functionals: From Local Hybrids to Becke's B05 Model	255
<i>M. Nest, T. Klamroth, P. Saalfrank</i> Ab initio Electron Dynamics with the Multi-Configuration Time-Dependent Hartree-Fock Method	279
<i>K. H. Marti, M. Reiher</i> The Density Matrix Renormalization Group Algorithm in Quantum Chemistry	293
<i>D. Kats, M. Schütz</i> Local Time-Dependent Coupled Cluster Response for Properties of Excited States in Large Molecules	311
<i>M. Springborg, V. Tevekeliyska, B. Kirtman, B. Champagne, Y. Dong</i> Extended Systems in Electrostatic Fields	327
<i>M. Taut, H. Eschrig</i> Exact Solutions for a Two-electron Quantum Dot Model in a Magnetic Field and Application to More Complex Systems	341
<i>H.-J. Flad, T. Rohwedder, R. Schneider</i> Adaptive Methods in Quantum Chemistry	361
<i>L. K. Sørensen, T. Fleig, J. Olsen</i> A Relativistic Four- and Two-component Generalized-active-space Coupled Cluster Method	381
<i>S. R. Chinnamsetty, M. Espig, H.-J. Flad, W. Hackbusch</i> Canonical Tensor Products as a Generalization of Gaussian-type Orbitals	391
<i>S. Höfener, C. Hättig, W. Klopper</i> Analytic Calculation of First-order Molecular Properties at the Explicitly-correlated Second-order Møller-Plesset Level	405
Author Index	419
