List of Tables and Figures	ix
Foreword by <i>Frank Schmidt</i>	xi
Preface	xiii

Part I. The Vision for a New Organizational Theory

1. Creating Organizational Theory From Methodological Principles	3
Methodological Principles as Foundations for Organizational Theory	4
The Theoretical Structure of Statistico-Organizational Theory	10
Managerial Errors	15
Overview of Statistico-Organizational Theory	19
2. The Deep Structure of Data	30
Cognitive Positivism	30
The Methodological Philosophy Underlying Meta-Analysis	33
Hierarchy in Inquiry	40
Continuities of New Theory With Prior Organizational Theory Research	42

Part II. The Sources of Error

3. Managerial Errors From Small Numbers	49
The Law of Small Numbers	50
Inference and the Nature of What Is Counted	56
Errors Caused by Small Organizational Size	56
Weak Inference and Organizational Mortality	60
International Comparative Advantage in Inference	61
Relationships With Some Previous Organizational Theories	63
Conclusions	65

4. Data Disaggregation and Managerial Errors	66
The Fallacy of Disaggregation	66
Cycles of Dysfunctional Control	69
Inference and the Management of Human Resources	72
The Problem of Aggregating Previous Inferences	74
The Fallacy of Immediacy	78
Organizational Structure for Inference	79
Conclusions	82
5. Measurement Error of Profit	83
The Problem of Measurement Error	84
Measurement Error of Profit	86
Measurement Error of Profitability Ratios	94
Measurement Error Caused by Time Rates	97
Measurement Error Caused by Control Variables	98
Measurement Error Caused by Comparison With Standard	100
Measurement Error in Contingency Misfit Analyses	103
Low Reliability Not Readily Increased	104
Conclusions	106
6. Quantifying the Measurement Error of Profit	107
Formal Analysis of Measurement Error of Profit	107
Sensitivity of Profit Reliability	114
Causal Model of the Determinants of Profit Reliability	117
Measurement Error of Growth of Sales	119
Conclusions	119
7. Measurement and Sampling Errors in the M-Form and Strategic Niches	121
Errors in M-Form Divisional Profitability	121
Errors in Niche Strategy Analysis	134
Conclusions	137
8. Errors From Range Restriction and Extension	138
Errors From Range Restriction in Organizational Management	139
Errors From Range Restriction in Organizational Misfit and Fit	143
Errors From Range Extension	145
Conclusions	145
9. Confounding by the Performance Variable	147
Severe Confounding Produced by Weak Spurious Correlations	148
Confounding by Definitional Connections	149

Confounding by Reciprocal Causality: Performance-Driven Organizational Change	158
Confounds and Other Sources of Error	163
Conclusions	164
10. Controlling for Confounding by Using Organizational Experiments	165
Confounding as a Source of Error	166
Experiments With Control Groups	167
Experiments in Organizations	170
Bias in Organizational Experiments	173
Conclusions	176
11. Controlling for Confounding by Data Aggregation	177
Summary	177
Controlling Confounds by Averaging	178
Confounding by Multiple Causes	180
Confounding in Multiple Causes of Organizational Performance	183
Confounds Readily Eliminated	190
Controlling Confounds Through Averaging in Organizational Management	193
Conclusions	196
Part III. Integration	
12. Errors Not Self-Correcting	201
Repeated Operation of Errors	201
Overall Error From Multiple Error Sources	203
Conclusions	211
13. Equations of Statistico-Organizational Theory	213
True Correlation	214
Measurement Error	217
Range Restriction and Range Extension	221
Combination of Measurement Error and Range Restriction or Extension	223
Confounding	225
Overall Error Without Sampling Error	230
Sampling Error	231
Overall Error With Sampling Error	232
Conclusions	235

14. How Managers Can Reduce Errors	237
Reducing Sampling Error	237
Reducing Measurement Error	238
Reducing Errors From Range Artifacts	241
Reducing Errors From Confounding	242
15. Conclusions	245
Situations That Lead to Errors	246
Reflections and Limitations	251
Appendix	253
References	255
Name Index	261
Subject Index	265
About the Author	271
