

## CONTENTS

|                           |             |
|---------------------------|-------------|
| <b>Foreword .....</b>     | <b>xi</b>   |
| <b>Preface .....</b>      | <b>xiii</b> |
| <b>Contributors .....</b> | <b>xv</b>   |

### PART I

#### Aneurysms and Subarachnoid Hemorrhage

|   |    |
|---|----|
| CASE 1 Embolization of a Ruptured Basilar Tip Aneurysm .....  | 1  |
| CASE 2 Embolization of a Ruptured Anterior Communicating Artery Aneurysm.....                               | 8  |
| CASE 3 Multiple Aneurysms in a Patient with Subarachnoid Hemorrhage .....                                   | 13 |
| CASE 4 Management of an Unruptured Internal Carotid Artery Aneurysm .....                                   | 19 |
| CASE 5 Balloon-Assisted Embolization of a Ruptured Wide-Necked Anterior Communicating Artery Aneurysm ..... | 25 |
| CASE 6 Stent-Assisted Embolization of a Wide-Necked Recurrent Posterior Communicating Artery Aneurysm ..... | 31 |
| CASE 7 Management of Complications during Aneurysm Coiling: Proximal Mechanically Induced Vasospasm .....   | 37 |
| CASE 8 Management of Complications during Aneurysm Coiling: Periprocedural Aneurysm Rupture .....           | 42 |
| CASE 9 Management of Complications during Aneurysm Coiling: Periprocedural Thrombus Formation .....         | 48 |
| CASE 10 Management of Subarachnoid Hemorrhage-Induced Vasospasm .....                                       | 55 |
| CASE 11 Management of Giant “Partially Thrombosed” Aneurysms .....  | 62 |
| CASE 12 Embolization of a Dissecting Vertebral Artery Aneurysm .....  | 70 |
| CASE 13 Embolization of a Dissecting Distal Anterior Inferior Cerebellar Artery Aneurysm .....              | 77 |
| CASE 14 Embolization of an Infectious Distal Middle Cerebral Artery Aneurysm .....                          | 83 |

### PART II

#### Brain Arteriovenous Malformations

|   |     |
|---|-----|
| CASE 15 Arterial Embolization of an Unruptured Pial Arteriovenous Malformation .....                  | 89  |
| CASE 16 Partial Targeted Embolization of an Unruptured Pial Arteriovenous Malformation .....          | 95  |
| CASE 17 Pre-radiosurgical Embolization of an Unruptured Pial Arteriovenous Malformation ....          | 101 |
| CASE 18 Embolization of an Acutely Ruptured Arteriovenous Malformation with Intranidal Aneurysm ..... | 109 |
| CASE 19 Management of Hydrocephalus in an Unruptured Pial Arteriovenous Malformation ...              | 116 |
| CASE 20 Embolization of a Pial Fistulous Arteriovenous Malformation .....                             | 121 |
| CASE 21 Partial Embolization of a Choroidal Fistulous Arteriovenous Malformation .....                | 125 |
| CASE 22 Embolization of a Microshunt into a Developmental Venous Anomaly .....                        | 131 |

**PART III****Cranial Dural Arteriovenous Shunts**

|         |  |     |
|---------|--|-----|
| CASE 23 | Arterial Embolization of a Lateral Epidural Type of Dural Arteriovenous Fistula .....  | 137 |
| CASE 24 | Arterial Embolization of an Ethmoidal Dural Arteriovenous Fistula .....  | 143 |
| CASE 25 | Transarterial Embolization of a Transverse Sinus Dural Arteriovenous Fistula .....   | 148 |
| CASE 26 | Transvenous Embolization of a Transverse Sinus Dural Arteriovenous Fistula .....   | 154 |
| CASE 27 | Transvenous Embolization through Thrombosed Dural Sinus of an Aggressive<br>Transverse Sinus Dural Arteriovenous Fistula at the Level of an Isolated Dural Sinus ... | 160 |
| CASE 28 | Transvenous Embolization of a Condylar Confluence Dural Arteriovenous Fistula .....  | 166 |
| CASE 29 | Transvenous Embolization of a Cavernous Sinus Dural Arteriovenous Fistula .....  | 172 |
| CASE 30 | Multiple Dural Arteriovenous Fistulae .....  | 178 |

**PART IV****Head and Neck Vascular Lesions**

|         |  |     |
|---------|--|-----|
| CASE 31 | Transarterial Embolization of a Mandibular Arteriovenous Fistula .....                                 | 183 |
| CASE 32 | Combined Direct Puncture and Transarterial Embolization of a Scalp Arteriovenous<br>Malformation ..... | 187 |
| CASE 33 | Percutaneous Puncture of a Facial Venous Vascular Malformation with<br>Injection of Bleomycin .....    | 192 |
| CASE 34 | Percutaneous Puncture of a Facial Venous Malformation with Injection of Alcohol ....                   | 196 |
| CASE 35 | Transarterial Particle Embolization of a Facial Hemangioma .....                                       | 201 |

**PART V****Tumors**

|         |   |     |
|---------|---|-----|
| CASE 36 | Preoperative Transarterial Particle Embolization of a Meningioma .....            | 207 |
| CASE 37 | Preoperative Transarterial Particle Embolization of a Juvenile Angiofibroma ..... | 213 |
| CASE 38 | Preoperative Embolization of a Carotid Body Tumor .....                           | 218 |
| CASE 39 | Preoperative Embolization of a Recurrent Temporal Paraganglioma .....             | 225 |
| CASE 40 | Preoperative Transarterial Embolization of a Spinal Hemangioblastoma .....        | 231 |
| CASE 41 | Preoperative Embolization of a Hypervascular Vertebral Body Metastasis .....      | 237 |

**PART VI****Trauma**

|         |   |     |
|---------|---|-----|
| CASE 42 | Balloon Embolization of a Traumatic Carotid-Cavernous Fistula .....   | 243 |
| CASE 43 | Coil Embolization of a Traumatic Carotid-Cavernous Fistula .....  | 249 |
| CASE 44 | Carotid Artery Blowout .....  | 254 |
| CASE 45 | Balloon Occlusion Test of a Traumatic Internal Carotid Artery Aneurysm Treated by<br>Internal Carotid Artery Sacrifice with Detachable Balloons ..... | 259 |
| CASE 46 | Transarterial Particle Embolization for Epistaxis .....   | 265 |

**PART VII****Stroke**

|         |  |     |
|---------|--|-----|
| CASE 47 | Intra-arterial rtPA Thrombolysis in Acute Ischemic Stroke .....                                    | 271 |
| CASE 48 | Mechanical Thrombolysis in Acute Stroke with an Aspiration Device .....                            | 278 |
| CASE 49 | Mechanical Thrombectomy in Acute Stroke with a Retrievable Stent .....                             | 285 |
| CASE 50 | Stent-Assisted Angioplasty of a Symptomatic Extracranial Internal Carotid<br>Artery Stenosis ..... | 291 |
| CASE 51 | Stenting of a Symptomatic Post-surgical Internal Carotid Artery Stenosis .....                     | 297 |
| CASE 52 | Intracranial Revascularization with a Self-Expandable Stent .....                                  | 305 |
| CASE 53 | Balloon-Mounted Intracranial Stenting of a High-Grade Vertebral Artery Stenosis .....              | 312 |

|   |   |            |
|---|---|------------|
| CASE 54                                 | Subclavian Steal Syndrome .....   | 320        |
| CASE 55                                 | Direct Thrombolysis of Cerebral Venous Sinus Thrombosis .....   | 325        |
| <b>PART VIII</b>                        |   |            |
| <b>Pediatric Vascular Interventions</b> |   |            |
| CASE 56                                 | Transarterial Embolization of a Vein of Galen Aneurysmal Malformation .....                                     | 331        |
| CASE 57                                 | Embolization of a Pial Arteriovenous Fistula in a Patient with Hereditary Hemorrhagic Telangiectasia .....      | 338        |
| CASE 58                                 | Management of Pediatric Cerebral Aneurysm .....   | 344        |
| CASE 59                                 | Transarterial Embolization of a Dural Sinus Malformation .....  | 349        |
| <b>PART IX</b>                          |   |            |
| <b>Spine Vascular Interventions</b>     |   |            |
| CASE 60                                 | Spinal Dural Arteriovenous Fistulae: Successful Arterial Embolization .....                                     | 357        |
| CASE 61                                 | Spinal Dural Arteriovenous Fistulae: Unsuccessful Arterial Embolization .....                                   | 364        |
| CASE 62                                 | Spinal Arteriovenous Malformation of the Fistulous Type: Treatment with Liquid Embolic Material .....           | 369        |
| CASE 63                                 | Spinal Arteriovenous Malformation of the Fistulous Type: Treatment with Coils .....                             | 375        |
| CASE 64                                 | Spinal Arteriovenous Malformation of the Glomerular or Nidus Type: Treatment with Liquid Embolic Material ..... | 381        |
| CASE 65                                 | Balloon Embolization of a Vertebrovertebral Fistula .....   | 388        |
| <b>PART X</b>                           |   |            |
| <b>Spine Percutaneous Interventions</b> |   |            |
| CASE 66                                 | Fluoroscopy-Guided Percutaneous Vertebral Biopsy .....  | 393        |
| CASE 67                                 | Percutaneous Vertebroplasty in Osteoporotic Vertebral Compression Fracture .....                                | 398        |
| CASE 68                                 | Balloon-Assisted Kyphoplasty in Osteoporotic Vertebral Compression Fracture .....                               | 406        |
| CASE 69                                 | Multilevel Kyphoplasty in Multiple Myeloma .....  | 414        |
| CASE 70                                 | Radiofrequency Kyphoplasty in an Osteoporotic Vertebral Compression Fracture .....                              | 420        |
| CASE 71                                 | Radiofrequency Kyphoplasty in Multiple Myeloma .....  | 426        |
| CASE 72                                 | Intra-articular Facet Joint Block .....   | 431        |
| <b>Index .....</b>                      |   | <b>435</b> |
