
Contents

Preface	ix
1. Introduction	1
2. Biological Elements	13
3. Immobilisation of Biological Component	31
4. Transducers I—Electrochemistry	51
5. Transducers II—Optical Methods	87
6. Transducers III—Other Transducers	121
7. Performance Factors	133
8. Important Applications	146
9. Experimental Examples	173
10. Commercial Applications	185
Index	201
