Contents

I The Great Prize, the framework 13
I.1 The iteration problem in 1915 13
I.2 The protagonists around 1917–1918 22
I.3 The war 24
I.4 Iteration, a few definitions and notation 44
I.5 Normal families 50
I.6 Relation to functional equations 54

II The Great Prize of Mathematical Sciences 59
II.1 Year 1917 60
II.2 Year 1918 72

III The memoirs 91
III.1 Julia's memoir 94
III.2 The (three) memoir(s) of Fatou 101
III.3 Comments (in the first person) 111
III.4 To summarise 112

IV After Fatou and Julia 115
IV.1 Stop 115
IV.2 Hausdorff distance (1914) and dimension (1919) 117
IV.3 Irregular points, J-points, O-points (1925–1927) 120
IV.4 The centre problem (1927–1942) 123
IV.5 Holomorphic dynamics 126

V On Pierre Fatou 135
V.1 Childhood and youth of Fatou 136
V.2 What do we know of Pierre Fatou? 139
V.3 Continuation of Fatou's career 152
V.4 Fatou's thesis 160
V.5 Fatou as a mathematician 164

Bibliografische Informationen

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

V.6 Fatou as an astronomer 172
V.7 Teaching and candidatures of Fatou 176
V.8 Fatou and other mathematicians 182
V.9 Death of Fatou 186

VI History's scars—a scientific controversy in 1965 193
VI.1 The protagonists, from 1918 to 1965 194
VI.2 Relations between Julia and Montel, in the 1930's 201
VI.3 The third centenary of the Institut de France 214
VI.4 As a conclusion: O for a biography of Gaston Julia 233

Appendix 237
