
CONTENTS

PREFACE ix

1

INTRODUCTION 1

- 1.1 The Scope of This Book 1
- 1.2 Growth of the Human Population 2
- 1.3 The Ecological Effects of Stress 4

2

AIR POLLUTION 9

- 2.1 Introduction 9
- 2.2 Emission, Transformation, and Toxicity of Air Pollutants 10
- 2.3 Air Pollution and Human Health 23
- 2.4 Case Studies of the Ecological Effects of Toxic Gases 24
- 2.5 Carbon Dioxide, Climate Change, and Plant Growth 43

3

TOXIC ELEMENTS 53

- 3.1 Introduction 53
- 3.2 Background Concentration in the Environment 54
- 3.3 Toxicity 56
- 3.4 Naturally Occurring Contamination and Its Ecological Effects 56
- 3.5 Anthropogenic Sources of Toxic Elements 63

4

ACIDIFICATION 81

- 4.1 Introduction 81

- 4.2 Deposition of Acidifying Substances from the Atmosphere 82
- 4.3 Chemical Changes within the Watershed 90
- 4.4 Biological Effects of Acidification 108
- 4.5 Reclamation of Acidified Water Bodies 121

5

FOREST DECLINE 124

- 5.1 Introduction 124
- 5.2 The Nature of Forest Decline 124
- 5.3 Case Studies of Forest Decline 125

6

OIL POLLUTION 135

- 6.1 Introduction 135
- 6.2 Characteristics of Petroleum and Its Refined Products 135
- 6.3 Oil Pollution 138
- 6.4 Biological Effects of Hydrocarbons 142
- 6.5 Ecological Effects of Oil Pollution 143

7

EUTROPHICATION OF FRESH WATER 159

- 7.1 Introduction 159
- 7.2 Causes of Eutrophication 159
- 7.3 Case Studies of Eutrophication 166

8

PESTICIDES 180

- 8.1 Introduction 180
- 8.2 Classification of Pesticides by Their Use and Chemical Characteristics 181
- 8.3 Environmental Impacts of Pesticide Use 189

9

HARVESTING OF FORESTS 225

- 9.1 Introduction 225
- 9.2 Consequences of Forest Harvesting for Site Fertility 227
- 9.3 Leaching of Nutrients from Disturbed Forest Watersheds 239
- 9.4 Soil Erosion Resulting from Disturbance 242
- 9.5 Hydrologic Effects of the Disturbance of Watersheds 243
- 9.6 Forest Harvesting and Wildlife 246

10

LOSS OF SPECIES RICHNESS 264

- 10.1 Introduction 264
- 10.2 Species Richness of the Biosphere 265
- 10.3 Rationalization for the Preservation of Species 267
- 10.4 Extinction as a Natural Process 268

- 10.5 Anthropogenic Losses of Species Richness 271

- 10.6 Back from the Brink—A Few Conservation Success Stories 292

11

ECOLOGICAL EFFECTS OF WARFARE 297

- 11.1 Introduction 297
- 11.2 Destruction by Conventional Warfare 298
- 11.3 Chemical Weapons in Warfare 303
- 11.4 Effects of Nuclear Warfare 307

12

EFFECTS OF STRESS ON ECOSYSTEM STRUCTURE AND FUNCTION 318

- 12.1 Introduction 318
- 12.2 Ecological Effects of Long-Term Chronic Stress 318
- 12.3 Ecological Effects of the Advent of Stress 320
- 12.4 The Alleviation of Stress 322

GLOSSARY 325

BIBLIOGRAPHY 351

BIOLOGICAL INDEX 401

CHEMICAL INDEX 411

GEOGRAPHICAL INDEX 415

SUBJECT INDEX 418
