

Contents

1. Introduction	1
1.1. Problem Description	2
1.2. Solution	3
1.3. Structure of this Thesis	5
1.4. Contributions	8
2. The Problem of Requirements Interdependencies	11
2.1. Requirements Engineering in Theory	11
2.2. Requirements Engineering in Practice	13
2.3. An Empirical Study About Inconsistencies	14
2.4. Conclusion	40
3. Requirements Traceability	43
3.1. Terminology	43
3.2. Traceability and the Software Development Process	57
3.3. Potential of Traceability	59
3.4. Challenges of Traceability	64
3.5. Traceability Research	67

Contents

3.6. A Research Agenda	75
4. Trace Retrieval Based On Information Retrieval	83
4.1. Context	84
4.2. Steps of IR-based Trace Retrieval	89
4.3. Probabilistic Information Retrieval	103
4.4. Experimental Research	105
4.5. Discussion	117
5. Datasets and Basic Experimentation	121
5.1. Datasets	121
5.2. General Experimentation Setup	140
5.3. Basic Experiments	148
5.4. Conclusion	169
6. Trace Retrieval for Evolving Artifacts	171
6.1. The EvoTrace Approach	172
6.2. Calculating the Evolution-Aware Similarity	180
6.3. Example	189
6.4. Related Work	195
6.5. Conclusion	198
7. Evaluation of the EvoTrace approach	199
7.1. Experimentation Setup and Implementation	199
7.2. Questions	201
7.3. Variables	205
7.4. Results	217
7.5. Interpretation	232
7.6. Discussion	238
7.7. Conclusion	241
8. Generalized EvoTrace Approach	243
8.1. Motivation	244
8.2. Problem Formulation	246
8.3. Existing Solutions	249
8.4. The <i>MHDiff</i> Algorithm	251

8.5. The <i>MHDiff</i> -Based Predecessor Function	268
8.6. Adaptation of the EvoTrace Approach	270
9. Evaluation of the Generalized EvoTrace Approach	275
9.1. Experimentation Setup	275
9.2. Questions	278
9.3. Variables	280
9.4. Results	285
9.5. Interpretation	301
9.6. Discussion	304
9.7. Conclusion	307
10. Application of the EvoTrace Approach in Practice	309
10.1. Application Scenarios	310
10.2. Usability Aspects of Traceability Tools	321
11. Conclusion	323
11.1. A Look Back	323
11.2. A Look Onward	327
11.3. Pushing Forward	330
Bibliography	333
Appendices	357
A. Multisets	357
B. List of Stopwords	359
C. Detailed Results of the Basic Experiments	365
C.1. Group 1: LSA with variable rank reduction	366
C.2. Group 2: LSA with different optimization strategies . .	368
C.3. Group 3: Plain Vector Space Information Retrieval . . .	370
D. Detailed Results of the Basic EvoTrace Experiments	373
D.1. Results for All Candidates	375
D.2. Results for Modified Artifacts Only	382

Contents

D.3. Results for Candidates with Positive Feedback	389
D.4. Results for Candidates with Negative Feedback	395
E. Detailed Results of the Generalized EvoTrace Experiments	403
E.1. Optimization of the Cost Model	403
E.2. Comparison of the Predecessor Functions	421
E.3. EvoTrace results for the Matching-Based Predecessor Function	422
F. Publications	437
