

Contents

- Contributors, vii
Foreword, xi
Preface, xiii
- 1 Historical perspective on von Willebrand disease, 1
Erik Berntorp and Margareta Blombäck
- 2 Biosynthesis and organization of von Willebrand factor, 7
Sandra L. Haberichter
- 3 von Willebrand factor structure and function, 30
Robert R. Montgomery and Sandra L. Haberichter
- 4 Modulation of von Willebrand factor by ADAMTS13, 49
Jennifer Barr and David Motto
- 5 Animal models in von Willebrand disease, 63
Cécile V. Denis, Olivier D. Christophe and Peter J. Lenting
- 6 Classification of von Willebrand disease, 74
Javier Batlle, Almudena Pérez-Rodríguez and María Fernanda López-Fernández
- 7 The epidemiology of von Willebrand disease, 86
Giancarlo Castaman and Francesco Rodeghiero
- 8 Clinical aspects of von Willebrand disease: bleeding history, 91
Paula D. James and Alberto Tosetto
- 9 Laboratory diagnosis of von Willebrand disease: the phenotype, 100
Ulrich Budde and Emmanuel J. Favaloro
- 10 Molecular diagnosis of von Willebrand disease: the genotype, 114
Anne C. Goodeve and Reinhard Schneppenheim
- 11 Clinical, laboratory, and molecular markers of type 1 von Willebrand disease, 127
David Lillicrap, Francesco Rodeghiero, and Ian Peake
- 12 Clinical, laboratory, and molecular markers of type 2 von Willebrand disease, 137
Dominique Meyer, Edith Fressinaud, and Claudine Mazurier
- 13 Clinical, laboratory, and molecular markers of type 3 von Willebrand disease, 148
Luciano Baronciani, Augusto B. Federici, and Jeroen C.J. Eikenboom
- 14 Pediatric aspects of von Willebrand disease, 166
Jorge Di Paola and Thomas Abshire

- 15 Women with von Willebrand disease, 174
Christine A. Lee, Rezan A. Kadir, and Peter A. Kouides
 - 16 On the use of desmopressin in von Willebrand disease, 186
Stefan Lethagen, Augusto B. Federici, and Giancarlo Castaman
 - 17 The use of plasma-derived concentrates, 200
Pier Mannuccio Mannucci and Massimo Franchini
 - 18 Prophylaxis in von Willebrand disease, 207
Erik Berntorp
 - 19 Pathophysiology, epidemiology, diagnosis, and treatment of acquired von Willebrand syndrome, 214
Ulrich Budde, Augusto B. Federici and Jacob H. Rand
 - 20 Gene therapy for von Willebrand disease, 231
Marinee K.L. Chuah, Inge Petrus, and Thierry VandenDriessche
- Index, 245
