<i>Contributors</i>	page xvii
<i>Preface</i>	xxi

Part I. Nitrogen fixation by free-living bacteria

1	Physiology and ecology of free-living, nitrogen-fixing bacteria <i>E. G. Mulder</i>	3
2	Anaerobic nitrogen-fixing bacteria of different soil types <i>E. N. Mishustin & V. T. Yemtsev</i>	29
3	Nitrogen fixation in the rhizosphere of tropical grasses <i>Johanna Dobereiner & J. M. Day</i>	39
4	Nitrogen fixation in the rhizosphere of rice plants <i>J. Balandreau, G. Rinaudo, Ibitissam Fares-Hamad & Y. Dommergues</i>	57
5	The Broadbalk experiment. An investigation of nitrogen gains from non-symbiotic nitrogen fixation <i>J. Day, D. Harris, P. J. Dart & P. van Berkum</i>	71
6	Nitrogen fixation in the phyllosphere <i>Jacoba Ruinen</i>	85
7	Associative growth of nitrogen-fixing bacteria with other micro-organisms <i>V. Jensen & Esther Holm</i>	101
8	Nitrogen fixation associated with vascular aquatic macrophytes <i>W. S. Silver & A. Jump</i>	121

Part II. Nitrogen fixation by free-living, blue-green algae

9	Nitrogen assimilation and metabolism in blue-green algae <i>W. D. P. Stewart, A. Haystead & M. W. N. Dharmawardene</i>	129
10	The physiology of nitrogen fixation by a <i>Gloeocapsa</i> sp. <i>J. R. Gallon, W. G. W. Kurz & T. A. LaRue</i>	159

Contents

- 11 Nitrogen fixation by blue-green algae in polar and subpolar regions page 175
Vera A. Alexander
- 12 Nitrogen fixation by blue-green algae in temperate soils 189
U. Granhall
- 13 A comparison of nitrogen fixation by algae of temperate and tropical soils 199
Elisabeth Henriksson, L. E. Henriksson & E. J. DaSilva
- 14 The role of blue-green algae in tropical rice cultivation 207
G. S. Venkataraman
- 15 Research on blue-green algae in Egypt, 1958–1972 219
A. S. El-Nawawy & Y. A. Hamdi
- 16 Nitrogen-fixing algae in Morocco 229
J. Renaut, A. Sasson, H. W. Pearson & W. D. P. Stewart
- Part III. The acetylene-reduction technique**
- 17 The acetylene-reduction technique 249
R. H. Burris
- 18 Recent studies using the acetylene-reduction technique as an assay for field nitrogen fixation levels 259
E. A. Paul
- 19 Seasonal and diurnal variations in $N_2(C_2H_2)$ -fixing activity in field soybeans 271
C. Sloger, D. Bezdicek, R. Milberg & N. Boonkerd
- 20 Acetylene-reduction assay at ambient P_{O_2} of field and forest soils: laboratory and field core studies 285
R. Knowles & P. O'Toole
- Part IV. The biochemistry of nitrogen fixation**
- 21 The biochemistry of nitrogen fixation – an introduction 297
F. J. Bergersen
- 22 Some aspects of leghaemoglobin biosynthesis 311
C. A. Godfrey, D. R. Coventry & M. J. Dilworth
- 23 Preparation and properties of nitrogenase proteins 333
R. H. Burris

24	Morphology, reactions and characteristics of nitrogenase proteins	page 351
	<i>R. W. F. Hardy, R. C. Burns, J. T. Stasny & G. W. Parshall</i>	
25	Kinetics and mechanism of nitrogenase action	377
	<i>R. R. Eady, B. E. Smith, R. N. F. Thorneley, M. G. Yates & J. R. Postgate</i>	
26	Reductants for nitrogenase and relationships to cellular electron transport	389
	<i>H. J. Evans & D. A. Phillips</i>	
27	Relationships between nitrogenase systems and ATP-yielding processes	421
	<i>R. O. D. Dixon</i>	
28	<i>Azotobacter</i> nitrogenase: ATP kinetics and inhibition by high ionic strength	437
	<i>R. C. Burns & R. W. F. Hardy</i>	
29	<i>Azotobacter</i> nitrogenase: mechanism and kinetics of allene reduction	447
	<i>R. C. Burns, R. W. F. Hardy & W. D. Phillips</i>	
	<i>Index</i>	453
