<i>Preface</i>	page vii
<i>Abbreviations for frequently-occurring species names</i>	xi
1 General features of saltmarshes and their environment	
Introduction	1
Tides	2
Salinity of saltmarsh soils	13
Effects of flooding	15
The dynamic nature of the saltmarsh environment	20
Zonation	49
Zonation and succession	55
The description of saltmarsh vegetation	57
General features of saltmarsh vegetation	66
Mangroves	69
2 The saltmarsh biota	
Introduction	72
The flora	72
Genecology of saltmarsh plants	107
Saltmarsh fauna	131
3 Variation in saltmarsh vegetation	
Introduction	146
Patterns of variation	146
A global view of saltmarsh vegetation	154
Discussion	180
Geographical variation at the continental scale – temperate	
Europe	181
4 Coping with the environment	
Introduction	207
Plants and salinity	208
Agricultural potential of halophytes	278

Consequences of tidal flooding	282
'Costs' of living in saltmarshes	297
Discussion	299
5 Plant life history studies	
Pollination	309
Vivipary	312
Dispersal	313
The seed bank in saltmarsh soils	314
Germination and seedling establishment	316
Grazing and plant reproduction	323
Clonal growth	325
Case studies	327
6 Saltmarshes as ecosystems	
Primary production	336
Herbivory	339
The breakdown of detritus	344
The linkage between saltmarshes and adjacent waters	348
7 Modification, management and conservation	
Grazing	356
Cessation of grazing	361
Harvesting	362
Manipulation of species abundance	368
Reclamation	371
Pollution	375
Recreational and educational use	378
Conservation	381
Management	386
Marsh creation and rehabilitation	388
Prospect	389
<i>References</i>	391
<i>Index</i>	445
