Contents

Acknowledgments vii

Chapter 1. Introduction 1

1.1 Discovery 1
1.2 General Introduction 2
1.3 Just for Fun—An Isotope Biography of Mr. Polychaete 16

Chapter 2. Isotope Notation and Measurement 21

Overview 21
2.1 The Necessary Minimum for Ecologists 22
2.2 Why Use the δ Notation? 31
2.3 Why Is δ a Good Substitute for % Heavy Isotope? 34
2.4 δ and the Ratio-of-Ratios 35
2.5 Chapter Summary 37

Chapter 3. Using Stable Isotope Tracers 40

Overview 40
3.1 Isotope Circulation in the Biosphere 41
3.2 Landscape Ecology and Isotope Maps 50
3.3 Community Ecology and Invasive Species in Food Webs 54
3.4 Life History Ecology and Animal Migrations 59
3.5 Plants, Microbes, and Scaling Up 62
3.6 Chapter Summary 66

Chapter 4. Isotope Chi ("I Chi") 76

Overview 76
4.1 Chocolate Isotopes 77
4.2 Oxygen in the Sea 81
4.3 Equations for Isotope Chi ("I Chi") 87

G. Chapter 7
Color Figures and Cartoons
Problems
I Chi Spreadsheets
Technical Supplement 7A: A Chemist's View of Isotope Effects
Technical Supplement 7B: Derivations of Closed System Isotope Equations

H. Chapter 8
Color Figures and Cartoons
Problems

I. All Problems for Chapters 1–8

J. All Answers to Problems for Chapters 1–8

K. All Figures and Cartoons

L. All I Chi Spreadsheets

M. A Reading List
