## Editorial

<b>A. Vogel, H. Miller, R. Greiling</b> . . . . .	1
Facies Development and Paleoecology at the Lower/Middle Devonian Boundary in the Southwestern Ebbe Anticline (Rheinisches Schiefergebirge) and Paleogeographic Interpretation	
<b>H. Avlar</b> . . . . .	3
Late Hercynian Plate and Intraplate Processes within Europe	
<b>V. Lorenz</b> . . . . .	21
Event-Stratigraphy of the Belgian Famennian (Uppermost Devonian, Ardennes Shelf)	
<b>R. J. M. Dreesen</b> . . . . .	22
Heavy Mineral Analysis on Lower Devonian Rocks of the Ebbe-Anticline (Rheinisches Schiefergebirge)	
<b>W. P. Loske, H. Miller</b> . . . . .	37
Meta Alkali Basaltic Volcanics do Occur in the Palaeozoic of the Rhenish Mountains	
<b>H. D. Nesbor, H. Flick</b> . . . . .	51
Heat Flow and Kinematics of the Rhenish Basin	
<b>O. Oncken</b> . . . . .	63
Comparison of Magnetic, Mica and Reduction Spot Fabrics in the Rocroi Massif – Ardennes, France	
<b>J. S. Rathore, H. Hugon</b> . . . . .	79
Joint Tectonics in a Folded Clastic Succession of the Variscan Orogen in the Rheinisches Schiefergebirge	
<b>D. Grzegorzcyk, H. Miller</b> . . . . .	95
Some Remarks on the Position of the Rhenish Massif Between the Variscides and the Caledonides	
<b>G. Hirschmann</b> . . . . .	104

---

Geochemical Detail Prospecting for Base-Metal and Barite Mineralizations in the Left Rhenish Slate Mountains <b>M. Krimmel</b> . . . . .	113
Aims and Status of Establishing a Gravity Fixpoint Field in the Federal Republic of Germany <b>E. Czuczor, P. Lux, R. Strauß</b> . . . . .	132
Variscan Thrust Tectonics in the Bohemian Massif — First Results Revealed by Reflection Seismology <b>Č. Tomek, I. Ibrmajer, C. Cidlinský</b> . . . . .	138
On the Volcanology of the West Eifel Maars <b>V. Lorenz</b> . . . . .	153
Seismicity and Seismotectonics of the Rhenish Massif, Central Europe <b>L. Ahorner</b> . . . . .	155
Geophysics in Structural Research on the Rhenish Massif <b>A. Vogel</b> . . . . .	158
