<b>1 Echocardiography in the Critically Ill: An Overview</b> . . . . .	1
Philippe Vignon and Paul Mayo	
<b>Part I Principles of Ultrasounds and Principal Views</b>	
<b>2 Transthoracic Echocardiography: Normal Two-Dimensional and Doppler Imaging</b> . . . . .	13
Susanna Price	
<b>3 Transesophageal Echocardiography: Principal Views</b> . . . . .	31
Jan Poelaert	
<b>Part II Hemodynamic Assessment</b>	
<b>4 Heart–Lung Interactions in Mechanical Ventilation</b> . . . . .	43
Antoine Vieillard-Baron	
<b>5 Measurement of Stroke Volume and Cardiac Output Using Echocardiography and Doppler</b> . . . . .	51
Bernard P. Cholley	
<b>6 Assessment of Fluid Requirements: Fluid Responsiveness</b> . . . . .	61
Michel Slama and Julien Maizel	
<b>7 Assessment of Fluid Requirements: The Fluid Challenge</b> . . . . .	71
Daniel De Backer	
<b>8 Evaluation of Left Ventricular Systolic Function</b> . . . . .	79
Daniel De Backer	
<b>9 Hemodynamic Evaluation in the Patient with Arrhythmias</b> . . . . .	89
Julien Maizel and Michel Slama	
<b>Part III Diagnosis and Management of Circulatory Failure</b>	
<b>10 Diagnosing the Mechanisms of Circulatory Failure</b> . . . . .	99
Philippe Vignon and Michel Slama	

<b>11</b>	<b>Septic Shock</b> . . . . .	109
	Daniel De Backer and Antoine Vieillard-Baron	
<b>12</b>	<b>Cardiogenic Shock Associated with Acute Left-Heart Failure</b> . . . . .	117
	Jina Sohn and Steven M. Hollenberg	
<b>13</b>	<b>Echocardiographic Evaluation and Monitoring of Right Ventricular Function and Pulmonary Artery Pressures</b> . . . . .	133
	Adolfo Kaplan, Antony Mc Lean, and Antoine Vieillard-Baron	
<b>14</b>	<b>Pericardial Effusion and Cardiac Tamponade</b> . . . . .	151
	Paul H. Mayo	
<b>15</b>	<b>Echocardiography and Extracorporeal Life Support in Intensive Care Unit</b> . . . . .	163
	Joaquim Calderon and Gérard Janvier	
<b>Part IV Diagnosis and Management of Acute Respiratory Failure</b>		
<b>16</b>	<b>Pulmonary Edema: Which Role for Echocardiography in the Diagnostic Workup?</b> . . . . .	177
	Philippe Vignon, Frances Colreavy, and Michel Slama	
<b>17</b>	<b>Why and How to Use Echocardiography in Acute Respiratory Distress Syndrome</b> . . . . .	195
	Antoine Vieillard-Baron and François Jardin	
<b>Part V Specific Situations</b>		
<b>18</b>	<b>Thoracic Trauma</b> . . . . .	205
	Fabio Chirillo	
<b>19</b>	<b>Hemodynamic Instability in Cardiac Surgical Patients</b> . . . . .	235
	Bernard P. Cholley, Mireille Cherqui, Alain Berrebi, and Jan Poelaert	
<b>20</b>	<b>Acute Aortic Syndrome: Acute Aortic Diseases in Hemodynamically Unstable Patients</b> . . . . .	247
	Isidre Vilacosta, Victoria Cañadas, J. Alberto San Román, and Philippe Vignon	
<b>Part VI Outlook</b>		
<b>21</b>	<b>Learning and Competence in Critical Care Echocardiography</b> . . . . .	275
	Philippe Vignon, Bernard P. Cholley, Daniel De Backer, Michel Slama, and Antoine Vieillard-Baron
