Contents

1 Invariants of CR-Hypersurfaces 1
1.1 Introduction to CR-Manifolds 1
1.2 Chern's Construction 8
1.3 Chern's Invariants on Section of Bundle $\mathscr{P}^2 \to M$ 24
1.4 Umbilicity 31

2 Rigid Hypersurfaces 35
2.1 Zero CR-Curvature Equations for Rigid Hypersurfaces 35
2.2 Application 39

3 Tube Hypersurfaces 41
3.1 Zero CR-Curvature Equations for Tube Hypersurfaces 41
3.2 Analyticity of Spherical Tube Hypersurfaces 50

4 General Methods for Solving Defining Systems 55
4.1 Classification of Defining Systems 55
4.2 Defining Systems of Type I 62
4.3 Defining Systems of Type II 65
4.4 Defining Systems of Type III 68
4.5 Globalization of Spherical Tube Hypersurfaces 77

5 Strongly Pseudoconvex Spherical Tube Hypersurfaces 83
5.1 Defining Systems of Type I 83
5.2 Defining Systems of Type III 93
5.3 Classification 93

6 $(n-1,1)$-Spherical Tube Hypersurfaces 97
6.1 Real Canonical Forms of Pair of Matrices Q, X, where Q is Symmetric and X is Q-Symmetric 97
6.2 Defining Systems of Type II 103
6.3 Defining Systems of Type III 103

6.4 Defining Systems of Type I 115
6.5 Classification 117

7 $(n-2,2)$-Spherical Tube Hypersurfaces 123
7.1 Classification 123
7.2 Defining Systems of Type II 133
7.3 Defining Systems of Type III 136
7.4 Defining Systems of Type I 183

8 Number of Affine Equivalence Classes of $(k,n-k)$-Spherical Tube Hypersurfaces for $k \leq n-2$ 185
8.1 Statement of Results 185
8.2 Proof of Theorem 8.1 187
8.3 Proof of Theorem 8.2 192

9 Further Results 195
9.1 Tube Hypersurfaces with Degenerate Levi Form 195
9.1.1 Complex Foliations on CR-Manifolds 195
9.1.2 Levi Foliation on Tube Manifold 197
9.2 Approach of G. Fels and W. Kaup 199
