1 Introduction: The comeback of the gravity model 1
P. A. G. VAN BERGEIJK AND S. BRAKMAN

Part I Methodology

2 A general equilibrium theory for estimating gravity equations of bilateral FDI, final goods trade, and intermediate trade flows 29
J. H. BERGSTRAND AND P. EGGER

3 The incidence of gravity 71
J. E. ANDERSON

4 Approximating general equilibrium impacts of trade liberalizations using the gravity equation: applications to NAFTA and the European Economic Area 88
S. L. BAIER AND J. H. BERGSTRAND

5 An extended gravity model with substitution applied to international trade 135
J. A. BIKKER

Part II Distance in the gravity model

6 Illusory border effects: distance mismeasurement inflates estimates of home bias in trade 165
K. HEAD AND T. MAYER

7 Trade costs, market access, and economic geography: Why the empirical specification of trade costs matters 193
E. M. BOSKER AND H. GARRETSEN

8 Intangible barriers to international trade: a sectoral approach 224
L. J. MÖHLMANN, S. EDERVEEN, H. L. F. DE GROOT, AND G. J. M. LINDERS

Part III Specific applications

9 International environmental arrangements and international commerce 255
A. K. ROSE AND M. M. SPIEGEL

10 Diplomatic relations and trade reorientation in transition countries 278
E. R. AFMAN AND M. MAUREL

11 Economic and financial integration and the rise of cross-border M&As 296
S. BRAKMAN, G. GARITA, H. GARRETSEN, AND C. VAN MARREWIJK

12 The impact of economic geography on GDP per capita in OECD countries 323
H. BOULHOL AND A. DE SERRES
