ABOUT HEI	v
ABOUT THIS REPORT	vii
PREFACE: HEI's Accountability Research Program	ix
HEI STATEMENT	i
INVESTIGATORS' REPORT <i>by Peters et al.</i>	5
ABSTRACT	5
INTRODUCTION AND SPECIFIC AIMS	6
METHODS	7
Study Design and Study Period	7
Study Area	8
Mortality Data	9
Other Health-Related Data	10
Exposure	10
Poisson Regression Analysis	13
RESULTS	23
Mortality Data	23
Exposure and Emission Data	26
Regression Results for Pollutants and All-Cause and Cause-Specific Mortality	36
Time-Varying Models	41
Interactions between Pollutants and Other Variables	52
DISCUSSION	56
Exposure and Source Emission Data	56
Health Effects	61
Do Changes in the Sources of Air Pollution Explain the Variation in Mortality Risks?	64
Do Changes in Socioeconomic Factors or Overall Health Explain the Variation in Mortality Risks?	64
Strengths and Limitations	65
Conclusions	68
ACKNOWLEDGMENTS	69
REFERENCES	69
APPENDIX A. HEI Quality Assurance Report	74
APPENDICES AVAILABLE ON THE WEB	75
ABOUT THE AUTHORS	75
OTHER PUBLICATIONS RESULTING FROM THIS RESEARCH	76
ABBREVIATIONS AND OTHER TERMS	76

Research Report 137

COMMENTARY <i>by the Health Review Committee</i>	79
INTRODUCTION	79
SCIENTIFIC BACKGROUND	79
Time-Series Studies	79
Time-Varying Coefficient Models	80
Previous Accountability Studies	80
Studies in the Literature	81
SPECIFIC AIMS AND METHODS	82
Specific Aims	82
Methods	82
RESULTS	83
DISCUSSION	86
Pollutant Concentration Data	86
Confounder Control	86
Choice of Lag Day for Pollution Variables	87
Time-Varying Coefficient Analysis	87
Results	88
ACKNOWLEDGMENTS	90
REFERENCES	90
RELATED HEI PUBLICATIONS	91
HEI BOARD, COMMITTEES, AND STAFF	93
