INTRODUCTION	
From structure to chaos: Twenty years of modeling bilingualism <i>Diane Larsen-Freeman, Monika S. Schmid and Wander Lowie</i>	1
Part I. Multilingualism	
Psycholinguistic perspectives on language processing in bilinguals <i>Judith Kroll and Daan Hermans</i>	15
Triggered code-switching: Evidence from picture naming experiments <i>Mirjam Broersma</i>	37
Working memory capacity, inhibitory control, and proficiency in a second language <i>Susan Gass and Junkyu Lee</i>	59
Explanations of associations between L1 and L2 literacy skills <i>Jan H. Hulstijn</i>	85
Part II. Language attrition	
The acquisition, attrition, and relearning of mission vocabulary <i>Lynne Hansen</i>	115
Second language attrition: Theory, research and challenges <i>Lelia Murtagh</i>	135
Contact x time: External factors and variability in L1 attrition <i>Monika S. Schmid</i>	155
The shifting structure of emotion semantics across immigrant generations: Effects of the second culture on the first language <i>Robert W. Schrauf and Julia Sanchez</i>	177

Part III. Language and aging

- Bilingualism, code-switching and aging:
A myth of attrition and a tale of collaboration 201
Michael Clyne
- Language reversion versus general cognitive decline: Towards a new
taxonomy of language change in elderly bilingual immigrants 221
Merel Keijzer

Part IV. DST

- A dynamic model of expert-novice co-adaptation during language
learning and acquisition 235
Paul van Geert, Henderien Steenbeek and Marijn van Dijk
- The dynamics of multilingualism: Levelt's speaking model revisited 267
Wander Lowie and Marjolijn Verspoor

EPILOGUE

- Twenty years of modeling bilingualism: From chaos to structure –
and back again 289
Bert Weltens
