Introduction	xi
<i>Tanya Beder and Cara M. Marshall</i>	
PART I Overview	1
1 The History of Financial Engineering from Inception to Today	3
<i>Tanya Beder</i>	
2 Careers in Financial Engineering	29
<i>Spencer Jones</i>	
3 A Profile of Programs and Curricula with a Financial Engineering Component	51
<i>John Cornish</i>	
PART II Financial Engineering and the Evolution of Major Markets	71
4 The Fixed Income Market	73
<i>Peruvemba Satish</i>	
5 The U.S. Mortgage Market	111
<i>Bruce McNevin</i>	
6 The Equity Market	131
<i>Gary L. Gastineau and John F. Marshall</i>	
7 The Foreign Exchange Market	159
<i>Laurent L. Jacque</i>	
8 The Commodity Market	191
<i>Helen Lu and Cara M. Marshall</i>	

9	The Credit Market	215
	<i>Frank Iacono</i>	
PART III Key Applications of Financial Engineering		241
10	Securitized Products	243
	<i>Konstantin Braun</i>	
11	Structured Products	259
	<i>Timothy A. Day</i>	
12	Thoughts on Retooling Risk Management	273
	<i>Tanya Beder and Spencer Jones</i>	
13	Financial Engineering and Macroeconomic Innovation	289
	<i>Cara Marshall and John O'Connell</i>	
14	Independent Valuation for Financially-Engineered Products	305
	<i>Cindy W. Ma and Andrew MacNamara</i>	
15	Quantitative Trading in Equities	323
	<i>Kun Gao</i>	
16	Systematic Trading in Foreign Exchange	337
	<i>Chris Attfield and Mel Mayne</i>	
PART IV Case Studies in Financial Engineering: The Good, the Bad, and the Ugly		367
17	Case Studies Introduction	369
	<i>Penny Cagan</i>	
18	Mortgage Case Studies: Countrywide and Northern Rock	373
	<i>Algorithmics Software LLC</i>	
19	Derivatives Case Studies: SocGen, Barings, and Allied Irish/Allfirst	385
	<i>Algorithmics Software LLC</i>	
20	Fixed Income Case Study, Swap Market: The Allstate Corporation	405
	<i>Algorithmics Software LLC</i>	

21	Lessons from Funds: LTCM, Florida, and Orange County	409
	<i>Algorithmics Software LLC</i>	
22	Credit Derivatives Case Studies: AIG and Merrill Lynch	421
	<i>Algorithmics Software LLC</i>	
PART V Special Topics in Financial Engineering		431
23	Performance Fees	433
	<i>Mark P. Kritzman</i>	
24	Musings About Hedging	445
	<i>Ira Kawaller</i>	
25	Operational Risk	455
	<i>Monique Miller</i>	
26	Legal Risk	465
	<i>Jordana Krohley</i>	
27	Portable Alpha	487
	<i>Tanya Beder and Giovanni Beliossi</i>	
28	The No-Arbitrage Condition in Financial Engineering: Its Use and Misuse	497
	<i>Andrew Aziz</i>	
29	Influencing Financial Innovation: The Management of Systemic Risks and the Role of the Public Sector	521
	<i>Todd Groome, John Kiff, and Paul Mills</i>	
PART VI Appendices		547
A	IT Tools for Financial Asset Management and Engineering	549
B	About the Companion Website	569
	About the Editors	575
	Index	577
