

1	Surgery for Cancer of the Esophagus “The Continuing Evolution”	1
	Introduction and History	1
	Preoperative Evaluation	2
	Complications in Surgery for Cancer of the Esophagus	4
	Summary of Fundamental Facts for Esophageal Cancer Surgery	5
	The Future	6
	References	14
2	Minimally Invasive Surgery in Esophageal Cancer: World Literature	15
	Introduction	15
	Goals and Approaches	15
	MIS	15
	Selected Readings	17
3	Staplers in Gastro-Esophageal Cancer Surgery	19
	Introduction	19
	History	19
	Advantages of Stapling	19
	Various Types of Staplers	20
	Staple Configuration	20
	Internal Staplers	20
	Linear Staplers	21
	Intraluminal staplers	24
	Linear Stapler-Cutter for Laparoscopic Use	29
4	Thoracoscopic and Laparoscopic Esophagectomy with Two-Field Nodal Clearance	33
	Introduction	33
	Patient Selection	33
	Indications of Thoracoscopic and Laparoscopic Esophagectomy	33
	Contraindications	34
	Investigations	34
	Preoperative Preparation	34
	Anesthesia	34
	Surgical Technique	34
	Instrumentation	35
	Stage 1: Thoracoscopic Mobilization of the Esophagus	35
	Stomach Mobilization and Nodal Dissection	40
