

<b>Guided tour of the book</b>	<b>xiv</b>
<b>Guided tour of MyAccountingLab</b>	<b>xvii</b>
<b>Preface</b>	<b>xix</b>
<b>Acknowledgements</b>	<b>xx</b>
<b>1 Managerial accounting and organisations</b>	<b>1</b>
<i>Starbucks</i>	1
Accounting and decision making	3
Cost–benefit and behavioural considerations	6
The management process and accounting	6
Planning and control for product life cycles and the value chain	9
Accounting’s position in the organisation	11
Adaptation to change	12
Ethical conduct for professional accountants	16
Highlights to remember	19
Accounting vocabulary	20
Fundamental assignment material	20
Additional assignment material	23
Case study	26
<b>2 Introduction to cost behaviour and cost–volume relationships</b>	<b>30</b>
<i>Boeing Company</i>	30
Identifying resources, activities, costs and cost drivers	31
Variable- and fixed-cost behaviour	33
Cost–volume–profit analysis	39
Additional uses of cost–volume analysis	50
Nonprofit application	53
Highlights to remember	54
Appendix 2A: Sales-mix analysis	55
Appendix 2B: Impact of income taxes	56
Accounting vocabulary	58
Fundamental assignment material	58
Additional assignment material	61
Case study	73

<b>3 Measurement of cost behaviour</b>	<b>77</b>
<i>Air Arabia</i>	77
Cost drivers and cost behaviour	78
Management influence on cost behaviour	81
Cost functions	83
Methods of measuring cost functions	87
Highlights to remember	95
Appendix 3: Use and interpretation of least-squares regression	96
Accounting vocabulary	100
Fundamental assignment material	100
Additional assignment material	102
Case study	110
<b>4 Cost management systems and activity-based costing</b>	<b>114</b>
<i>Dell</i>	114
Cost management systems	115
Cost accounting systems	116
Cost terms used for strategic decision making and operational control purposes	117
Cost terms used for external reporting purposes	124
Traditional and activity-based cost accounting systems	128
Activity-based management: a cost management system tool	136
Highlights to remember	139
Appendix 4: Detailed illustration of traditional and activity-based cost accounting systems	140
Accounting vocabulary	149
Fundamental assignment material	150
Additional assignment material	157
Case study	168
HBS case study: <i>Siemens Electric Motor Works</i>	170
<b>5 Relevant information for decision making with a focus on pricing decisions</b>	<b>176</b>
<i>Mercadona</i>	176
The concept of relevance	177
Pricing special sales orders	183
Basic principles for pricing decisions	189
General influences on pricing in practice	192
Cost-plus pricing	193
Target costing	199
Highlights to remember	203

Accounting vocabulary	204
Fundamental assignment material	204
Additional assignment material	208
HBS case study: <i>La Grande Alliance: Restaurant Français</i>	221
<b>6 Relevant information for decision making with a focus on operational decisions</b>	<b>232</b>
<i>Maersk Line</i>	232
Analysing relevant information: focusing on the future and differential attributes	233
Make-or-buy decisions	236
Deletion or addition of products, services or departments	242
Optimal use of limited resources: product-mix decisions	244
Joint product costs: sell or process further decisions	246
Keeping or replacing equipment	248
Identify irrelevant or misspecified costs	251
Conflicts between decision making and performance evaluation	253
Highlights to remember	254
Accounting vocabulary	255
Fundamental assignment material	255
Additional assignment material	260
Case study	275
<b>7 Introduction to budgets and preparing the master budget</b>	<b>278</b>
<i>Ritz-Carlton</i>	278
Budgets and the organisation	279
Types of budgets	286
Preparing the master budget	288
Budgets as financial planning models	301
Highlights to remember	302
Appendix 7: Use of spreadsheet models for sensitivity analysis	303
Accounting vocabulary	306
Fundamental assignment material	306
Additional assignment material	308
Case study	323
<b>8 Flexible budgets and variance analysis</b>	<b>329</b>
<i>McDonald's</i>	329
Using budgets and variances to evaluate results	330
Isolating the causes of variances	336

Flexible-budget variances in detail	343
Overhead variances	349
Highlights to remember	353
Accounting vocabulary	354
Fundamental assignment material	354
Additional assignment material	356
Case study	372

## **9 Management control systems and responsibility accounting** **375**

<i>Diesel</i>	375
Management control systems	376
Management control systems and organisational goals	376
Designing management control systems	378
Controllability and measurement of financial performance	383
Measurement of nonfinancial performance	390
The balanced scorecard	396
Management control systems in service, government, and nonprofit organisations	398
Future of management control systems	399
Highlights to remember	401
Accounting vocabulary	401
Fundamental assignment material	402
Additional assignment material	405
Cases	412

## **10 Management control in decentralised organisations** **416**

<i>Nike</i>	416
Centralisation versus decentralisation	418
Performance metrics and management control	420
Measures of profitability	423
Economic profit or economic value added (EVA)	425
ROI or economic profit?	427
A closer look at invested capital	429
Transfer pricing	431
Keys to successful management control systems	441
Highlights to remember	443
Accounting vocabulary	445
Fundamental assignment material	445
Additional assignment material	449
HBS case study: <i>Empire Glass Company</i>	459

<b>11 Capital budgeting</b>	<b>477</b>
<i>Toyota Motor Corporation</i>	477
Capital budgeting for programmes or projects	478
Discounted-cash-flow models	478
Sensitivity analysis and risk assessment in DCF models	483
The NPV comparison of two projects	484
Income taxes and capital budgeting	489
Confusion about depreciation	494
Other models for analysing long-range decisions	494
Performance evaluation	497
Highlights to remember	499
Appendix 11: capital budgeting and inflation	500
Accounting vocabulary	502
Fundamental assignment material	503
Additional assignment material	506
Cases	515
<b>12 Cost allocation</b>	<b>518</b>
<i>Haier</i>	518
A general framework for cost allocation	519
Allocation of service department costs	522
Allocation of costs to product or service cost objects	530
An ABC approach	535
Allocation of costs to customer cost objects to determine customer profitability	538
Allocation of central corporate support costs	547
Allocation of joint costs and by-product costs	548
Highlights to remember	550
Appendix 12: Multistage ABC (MSABC) systems	551
Accounting vocabulary	558
Fundamental assignment material	558
Additional assignment material	561
Cases	573
<b>13 Accounting for overhead costs</b>	<b>580</b>
<i>Dell</i>	580
Accounting for factory overhead	581
Illustration of overhead application	582
Problems of overhead application	585
Variable versus absorption costing	589

Fixed overhead and absorption costs of product	594
Effect of other variances	599
Highlights to remember	602
Appendix 13: Comparisons of production-volume variance with other variances	603
Accounting vocabulary	605
Fundamental assignment material	605
Additional assignment material	609
Case study	627
<b>14 Job-order costing and process-costing systems</b>	<b>630</b>
<i>Haribo</i>	630
Distinction between job-order costing and process costing	631
Illustration of job costing	631
Activity-based costing/management in a job-costing environment	637
Job costing in service and nonprofit organisations	640
Process costing basics	642
Application of process costing	646
Physical units and equivalent units (steps 1 and 2)	647
Calculation of product costs (steps 3 to 5)	648
Effects of beginning inventories	651
Process costing in a JIT system: backflush costing	655
Highlights to remember	657
Accounting vocabulary	658
Fundamental assignment material	658
Additional assignment material	661
<b>Appendix A Recommended reading</b>	<b>672</b>
<b>Appendix B Fundamentals of compound interest and the use of present-value tables</b>	<b>676</b>
<b>Glossary</b>	<b>682</b>
<b>Index</b>	<b>690</b>
<b>Company name index</b>	<b>699</b>
