Preface.....	5
GÖTZ ELLWANGER and AXEL SSYMANK Thesis and Chances for the Adaptation of the Ecological Network “Natura 2000” to Climate Change	7
BRIAN HUNTLEY, YVONNE COLLINGHAM, STEPHEN WILLIS and DAVID HOLE Protected Areas and Climatic Change in Europe: Introduction.....	29
CLIVE A. WALMSLEY Addressing the Threat of Climate Change: Experience from Natura 2000-Sites in Wales.....	49
THOMAS FARTMANN, MARTIN BEHRENS, VERENA MÖLLENBECK and NORBERT HÖLZEL Potential Effects of Climate Change on the Biodiversity in North Rhine-Westphalia ..	63
DOUGLAS EVANS The Habitats of Annex I and Climate Change	73
SONJA OTTO, MIKE HARLEY, JELLE VAN MINNEN, MARIA POOLEY and YVES DE SOYE Vulnerability Assessment of Species and Habitats of the Natura 2000 Network	83
THOMAS K. GOTTSCHALK, TOBIAS REINERS, KLEMENS EKSCHMITT and CHRISTOPH SUDFELDT Bird Species Distribution Changes within German Special Protection Areas.....	95
PAM BERRY Habitat Sensitivity to Climate Change.....	111
PETER WATTENDORF, OTTO EHRMANN, JÖRG NIEDERBERGER and WERNER KONOLD Climate Change Effects on Biotopes in Baden-Wuerttemberg (Germany)	123
GEORG WINKEL, TILL PISTORIUS and JOHANNA GLEISSNER Will Climate Change Redefine the Sustainable Forest Management of Natura 2000 Protected Sites? – Reflections on the Current Debate About Forests, Biodiversity and Climate Change.....	139
KATRIN VOHLAND Climate Change Challenges the Natura 2000 Network – and Shows its Irreplaceability	153
CLAIRE C. VOS, M. VONK and DIRK C.J. VAN DER HOEK Adapting the Landscape to Climate Change – an Adaptation Strategy for Ecological Networks.....	167
MICHAEL REICH Climate Change and the Coherence of the Natura 2000 Network.....	175
MEINRAD KÜTTEL Monitoring Climate Change Impacts on Protected Areas – Potential of the Swiss Biodiversity Baseline Monitoring Programme (BDM-CH)	183

JASMIN MANTILLA-CONTRERAS	
The Salt Grassland “Kooser Wiesen”	193
KARIN ZAUNBERGER	
Biodiversity, Ecosystem Services and Climate Change European Policies – Present and Future.....	201
