Acknowledgments	vii
Acronyms and Abbreviations	viii
A Summary Note for Policy Makers	ix
1. Introduction	1
Water Scarcity and Climate Change	1
Objectives of the Study	1
Methodology	2
2. Status of Water Resources in East Asia	3
Topography and Climate	3
Observed Rainfall Trends	4
Impacts of Climate Change	4
Key Water Resources Management Issues in East Asia	6
3. Defining the Green Water Defense Approach	8
Working Definition	8
Managing Water Scarcity through GWD	9
A Menu of GWD Measures for Adaptive Water Management	15
4. Selected Country Case Studies	19
Australia: The Cases of Victoria and Sydney	19
Israel: National Level	35
Spain: River Basin Level	39
Northern China: River Basin, Local Government and Irrigation System Levels	43
5. General Conclusions and Recommendations	52
General Conclusions	52
Recommendations for GWD Applications in Water Scarcity Management	52
6. Building on Best Practices: Towards a Roadmap for East Asia	54
Essential Elements of Adaptive Water Scarcity Management	54
Key Lessons of Best Practices	55
General Process Recommended for GWD Applications in East Asia	58
Practical Applications of GWD Approach in East Asia	58
Appendix A. Background to Case Study: Victoria, Australia	65
