

# Table of Contents

	page
H. Sablotny, RAG Aktiengesellschaft, GER <b>Stand der Vortriebs-, Anker- und Injektionstechnik bei der Deutschen Steinkohle.....</b>	1
M. Karmis, L. Kirby, M. Valyraakis, Virginia Tech, USA Z. Agioutantis, Technical University Crete, GR <b>A review of subsidence prediction and control methodologies in the USA - Experiences and new developments.....</b>	13
P. Achilles & U. Böge, RAG Aktiengesellschaft, GER <b>Einsatz teilautomatisierter Teilschnittmaschinen bei der RAG.....</b>	25
T. Fröhwirt, TU Bergakademie Freiberg, GER M. Nitschke, K+S Aktiengesellschaft, GER N. Mocka, K+S KALI GmbH, GER <b>Modelling of effects of blasting operation on expansion-shell bolts for roof support in potash mining.....</b>	37
M. Adams & F. Lüttig, RAG Aktiengesellschaft, GER <b>Projektplanung einer Abbaubegleitstrecke in großer Teufe mit Gasausbruchsgefahr .....</b>	39
F. Schnürer & K. Keilwitz, K+S KALI GmbH, GER D. Brückner, A. Lindert & W. Schreiner, IfG Leipzig GmbH, GER <b>Large-scale sylvanite mining in depths of more than 1.200m.....</b>	59
S. Roßbach & A. Arentz, RAG Deutsche Steinkohle, GER <b>Maschineller und konventioneller Streckenvortrieb im Kombinationsausbau unter schwierigen geologischen Bedingungen auf dem Bergwerk Auguste Victoria.....</b>	61
G. Gschwandtner & R. Galler, Montanuniversität Leoben, AT <b>Stability analysis of complex underground structures - from data acquisition to 3D numerical simulation.....</b>	75
T. Lautsch & A. Graef, KSL Kupferschiefer Lausitz GmbH, GER <b>Ground control at the Spremberg Copper Mine.....</b>	89
H. Baumert, K+S KALI GmbH, GER S. Deppe S, K+S Aktiengesellschaft, GER <b>Backfill as secondary measure for securing of insufficient longterm-dimensioned mine excavations.....</b>	99
M. Feinendegen & M. Ziegler, RWTH Aachen University, GER G. Spagnoli, Fugro Consult GmbH, GER <b>Maschineller Tunnelvortrieb in veränderlich festen Gesteinen: Entfestigung und Verklebung...</b>	101
S. Prusek & W. Masny, Główny Instytut Górnictwa, PL H. Witthaus & I. Gollnick, RAG Mining Solutions GmbH, GER <b>Comparison of the state of the art of the gateroads in Polish and German coal mining.....</b>	119
H. Witthaus, RAG Mining Solutions GmbH, GER X. Wang, SDIC Xinji Coal Ltd., CN <b>Optimisation of drivage and support technology at a Chinese mine.....</b>	135

G. Daws, Graham Daws Associates Ltd, UK	
M. Davies, Energybuild Walter Energy, Aberpergwm Colliery, UK	
<b>The introduction of room and pillar mining systems with rockbolting into The South Wales Coalfield.....</b>	<b>145</b>
R.W. Seedsman, Seedsman Geotechnics Pty Ltd, AUS	
<b>The development and application of a logical framework for specifying roof and rib support/reinforcement in Australian underground coal mines.....</b>	<b>153</b>
A.G. Thompson, Curtin University, AUS	
<b>Simulation of the behaviour of rock support mesh restrained by reinforcement systems.....</b>	<b>163</b>
A.J. Hyett, Yieldpoint Inc., CAN	
H. Mitri, RocTek R&D, CAN	
A.J.S. Spearing, University of Southern Illinois, USA	
<b>Validation of two new technologies for monitoring the in situ performance of rock bolts.....</b>	<b>177</b>
J. Chen & R. Walker, DSI Underground Systems Inc., USA	
<b>Performance analysis of resin and mechanical anchorage bolting systems.....</b>	<b>191</b>
N. Smith, Minova CarboTech GmbH, GER	
<b>The use and application of Thin Spray Liners (TSLs) in mining.....</b>	<b>197</b>
A. Campoli & J. Oldsen, Jenmar Corporation, USA	
R. Wu, Barrick Gold Corporation, CAN	
<b>Yielding bolt support for rock burst prone workings.....</b>	<b>205</b>
A. Staniak, Central Mining Institute, PL	
<b>Identification of grouting discontinuity of rock bolts as an efficient way to control safety conditions in mine roadways.....</b>	<b>213</b>
K. Matsui, H. Takamoto, T. Sasaoka & H. Shimada, Kyushu University, JP	
<b>Rockbolting trials in underground coal mines in Japan.....</b>	<b>233</b>
C.N. Ghosh, P.J. Loui, P.K. Mandal & S. Prashant, Central Institute of Mining and Fuel Research, IN	
<b>An innovative technology of simultaneous extraction of two seams – A case study.....</b>	<b>243</b>
J. Bialek & V. Sokoł-Szewiela, The Silesian University of Technology, PL	
<b>Approximation methods of the continuous measurements of the mining ground subsidence within short time period allowing for the changes of longwall front advance.....</b>	<b>253</b>
Z. Mihanpanah, Azad University of Bafgh, IR	
H. Jalalifar, Shahid Bahonar University of Kerman, IR	
M. Fatehi, Yazd University, IR	
<b>Influencing parameters on the behavior of gas storage caverns in salt.....</b>	<b>265</b>
J. Tokarczyk & T. Winkler, KOMAG Institute of Mining Technology, PL	
<b>Numerical simulation of dynamic impact of loads, transported by suspended monorails, on yielding arch supports.....</b>	<b>273</b>
I. Khalymendyk, National Mining University, UA	
V. Chervatuk & S. Eremin, DTEK Pavlogradugol, UA	
<b>Substantiation of rope anchors length in the conditions of mines in the Western Donbas Coal Region.....</b>	<b>285</b>

B. Pflüger, DMT GmbH & Co. KG, GER F. Lüttig & T. Niklaus, RAG Deutsche Steinkohle, GER <b>Injektionsmittelprüfungen mit Bergbau Verfahrenstechnik.....</b>	293
C. Li, The Norwegian University of Science and Technology, NO <b>Static and dynamic performance of an energy-absorbing rock bolt.....</b>	307
C. R. Windsor, CRCMining, Curtin University, AUS <b>The influences of excavation surface curvature and roughness on reinforcement and support practice.....</b>	319
A. Crosky, B. Smith, E. Elias, H. Chen, P. Craig, P. Hagan, D. Vandermaat, S. Saydam & B. Hebblewhite, University of New South Wales, AUS <b>Stress corrosion cracking failure of rockbolts in underground mines in Australia.....</b>	335
A. Groten, Bilfinger Berger Ingenieurbau GmbH, SE <b>Construction of Vasatunnel and Station Odenplan as part of Stockholm's Cityline.....</b>	349
I. Gollnick & K. Thyrock, RAG Mining Solutions GmbH, GER V. Dovgal, Sadovaya Group, UA <b>Planning an inclined shaft at the Sadovaya mine for the purposes of opening up a new mining field.....</b>	363
H. Takamoto & J. Oya, MMI Coal Tech Co. Ltd., JP T. Sasaoka, H. Shimada & K. Matsui, Kyushu University, JP <b>Surface subsidence induced by underground coal mining in Indonesia.....</b>	373
T. Sasaoka, H. Shimada, H. Takamoto, A. Hamanaka & K. Matsui, Kyushu University, JP J. Oya, MMI Coal Tech, Co. Ltd., JP <b>Applicability of rock bolting system and ground control management under weak strata in Indonesia.....</b>	385
D. Dahmen & C. Karcher, RWE Power AG, GER <b>Monitoring of opencast mine rim slopes using vertical inclinometers.....</b>	399
N. Benecke & K. Zimmermann, DMT GmbH & Co. KG, GER A. Mütterthies, K. Pakzad & S. Stephan, EFTAS GmbH, GER J. Kateloe & A. Preuß, RWTH Aachen University, GER E. Pebesma & T. Prinz, Münster University, GER <b>GMES4Mining - Innovative geoservices for exploration and monitoring of mining areas.....</b>	409
K. Nienhaus, C. I. Klein, F. D. Boos & R. Baltes, RWTH Aachen University, GER <b>Acoustic emission and pick forces in rock cutting.....</b>	419
G. Daws, Graham Daws Associates Ltd, UK A. Oxley, Minova Weldgrip UK Ltd, UK N. Woodward, Rockbolting Technology Ltd, UK <b>The introduction of UK rock bolting technology into coal mines around the world.....</b>	431
U. Paschedag, Caterpillar Global Mining, GER <b>Caterpillar Room &amp; Pillar Solutions.....</b>	441
P. A. O'Neill & J. Hansson, Atlas Copco Rock Drills AB, SE <b>How we can utilise the Atlas Copco intelligent computerised system to improve the quality of rock bolting in mines and tunnels.....</b>	449

H. Witthaus, RAG Mining Solutions GmbH, GER V. Tselik, SUEK – Siberian Coal Energy Company, RUS <b>Training of roofbolting engineers for SUEK mines in Russia.....</b>	<b>457</b>
--	------------
