2.1.1.	An Overview of Trends	80
2.1.2.	Strategy of the Analysis	81
2.1.3.	Regression Model	84

2.1.4. Trends in Adjusted Female-Male Earnings Ratios	89
2.1.5. Decomposition of Trends in the Male-Female Differential	92
2.1.6. Conclusion	97
2.2. 1980s and 1990s	99
2.2.1. Trends in the Gender Pay Gap: Overall Patterns	101
2.2.2. Decomposing the Changes in the Gender Wage Gap	103
2.2.3. Factors Contributing to a Slowing Convergence in the Unexplained Gender Pay Gap in the 1990s	112
2.2.4. Conclusion	126

### III International Differences in the Gender Wage Gap and Wage Inequality: The Role of Wage Setting Institutions

Introduction	128
--------------	-----

3. Wage Structure and Gender Earnings Differentials: An International Comparison	136
3.1. An Overview of Data Sources and Gender Earnings Ratios	139
3.2. The Institutional Setting	145
3.3. Gender Differences in Worker Characteristics	148
3.4. Analysis of International Differences in the Pay Gap: The Effects of Skills, Treatment of Women, and Overall Inequality	152
3.4.1. A Method of Decomposing the International Differences in the Pay Gap	152
3.4.2. Implementing the Decomposition	156
3.4.3. Empirical Results: A Ten-Country Comparison	159
3.4.4. Empirical Results: A Detailed Comparison of the United States and Sweden (1984)	166
3.4.5. Some General Evidence on the Effects of Institutions	170
3.5. Conclusions	173
Appendix	174

4. Understanding International Differences in the Gender Pay Gap	177
4.1. Introduction	177
4.2. The Institutional Setting	181

4.3.	Description of the Data	185
4.4.	Estimation Strategy	187
4.5.	Results	195
4.6.	Conclusions	210
	Appendix	211
5.	International Differences in Male Wage Inequality: Institutions versus Market Forces	213
5.1.	Introduction	213
5.2.	Determinants of Wage Inequality: Skills and Institutions	218
5.3.	Overview of International Differences in Labor Market Institutions	221
5.4.	Results	223
5.4.1.	Data Sources and the Definition of Hours-Corrected Earnings	223
5.4.2.	The Role of Prices and Measured Characteristics	227
5.4.3.	The Effect of Institutions: Collective Bargaining and Contract Extension	235
5.4.4.	An Alternative Explanation: Supply and Demand Effects	237
5.4.5.	The Effects of Institutions: Toward a General Test	245
5.4.6.	Implications: Employment Responses	248
5.5.	Conclusions	251
	Appendix	253
IV	Other Dimensions of Gender Inequality and Policy Responses	
	Introduction	256
6.	Changes in the Labor Supply Behavior of Married Women: 1980-2000	264
6.1.	Introduction	264
6.2.	Recent Research on Female Labor Supply and Research Questions of the Study	267
6.3.	Econometric Issues in Estimating Labor Supply Models	270
6.4.	Data and Descriptive Patterns	273

6.5.	Empirical Procedures and Regression Results	276
6.5.1.	Basic Regression Results	276
6.5.2.	Pervasiveness of the Reduction in Female Labor Supply Elasticities	283
6.5.3.	Accounting for Changes in Women's Labor Supply: 1980–2000	288
6.5.4.	Alternative Specifications and Estimation Methods	292
6.6.	Conclusions	302
	Appendix	303
7.	Trends in the Well-Being of American Women: 1970–1995	308
7.1.	Introduction	308
7.2.	Labor Force Participation: Trends and Explanations	313
7.2.1.	Trends in Labor Force Participation: Gender Differences	314
7.2.2.	Trends in Labor Force Participation: Differences by Education within Gender Groups	317
7.2.3.	Explaining the Trends	322
7.3.	Labor Market Outcomes: Wages and Occupational Distributions	326
7.3.1	Issues in Measuring Wages	327
7.3.2.	Trends in the Gender Wage Gap	329
7.3.3.	Trends in Real Wages and Differences in Wage Gains Within Gender Groups	330
7.3.4.	Trends in Gender Differences in Occupations and Self-Employment	333
7.3.5.	Explaining the Trends in Wages: The Overall Gender Gap	334
7.3.6.	Explaining the Trends in Wages: Differences by Skill Group	340
7.4.	Standard of Living: Differences Across and Within Families	341
7.4.1.	Trends in Marital Status and Family Formation	343
7.4.2.	Explaining the Trends in Family Formation	348
7.4.3.	Implications of Changes in Family Formation, Labor Force Participation, and Wage Trends for Income Differences Across Families	351
7.4.4.	Trends in Intra-family Allocation: Wage Ratios of Husbands and Wives	352

7.4.5. Trends in Intra-family Allocation: Allocation of Housework	355
7.4.6. Trends in Intra-family Allocation: Domestic Violence	359
7.5. "Having It All": Combining Work and Family	364
7.6. Conclusion	366
Appendix	368
8. Can Mentoring Help Female Assistant Professors? Interim Results from a Randomized Trial	370
8.1. Background	371
8.2. The CeMENT Intervention	372
8.3. Interim Results	373
8.4. Conclusions	378
V Inequality by Race and Immigrant Status	
Introduction	379
9. Black-White Earnings over the 1970s and 1980s: Gender differences in Trends	389
9.1. Introduction	389
9.2. Regression Model and Empirical Procedures	391
9.3. Overview of Trends	394
9.4. Adjustment for Selectivity Bias	396
9.5. Decomposition of the Earnings Trends	397
9.6. Conclusion	403
10. Black-White Differences in Wealth and Asset Composition	405
10.1. Introduction	405
10.2. Data and Methodology	406
10.3. Empirical Results	410
10.4. Conclusion	419
11. The Use of Transfer Payments by Immigrants	421
11.1. Conceptual Framework	426
11.2. The Data	432
11.3. Control Variables	434
11.4. Direct and Indirect Effects of Foreign Birth	436
11.5. Total Effects of Foreign Birth	440

11.6. Immigrant-Native Differences in Characteristics	442
11.7. Conclusion	443
12. Gender, Source Country Characteristics, and Labor Market Assimilation among Immigrants	446
12.1. Introduction	446
12.2. Data and Descriptive Patterns	451
12.3. Empirical Procedures	456
12.4. Results	460
12.4.1. Source Country Characteristics and Assimilation Profiles for Labor Supply: All Married Couples	460
12.4.2. Source Country Characteristics and Assimilation Profiles for Labor Supply: Separately by Family Type	467
12.4.3. Alternative Specifications	470
12.5. Conclusions	471
Appendix A: Individual Variables	473
Appendix B: Source Country Variables	474
VI Concluding Thoughts	477
