

# 2011 Volume 242 Immunological Reviews

## Allergic Responses

### Contents

#### Introduction

William W. Busse The role of allergy in disease 5

#### Review Articles

Carole Ober, Tsung-Chieh Yao The genetics of asthma and allergic disease: a 21st century perspective 10

Peter J. Barnes Pathophysiology of allergic inflammation 31

Thomas A. E. Platts-Mills, Judith A. Woodfolk Allergens and their role in the allergic immune response 51

Monica L. Gavala, Paul J. Bertics, James E. Gern Rhinoviruses, allergic inflammation, and asthma 69

David B. Peden The role of oxidative stress and innate immunity in O<sub>3</sub> and endotoxin-induced human allergic airway disease 91

Michael Minnicozzi, Richard T. Sawyer, Matthew J. Fenton Innate immunity in allergic disease 106

Oliver T. Burton, Hans C. Oettgen Beyond immediate hypersensitivity: evolving roles for IgE antibodies in immune homeostasis and allergic diseases 128

John T. Schroeder Basophils: emerging roles in the pathogenesis of allergic disease 144

Hirohito Kita Eosinophils: multifaceted biological properties and roles in health and disease 161

Cynthia J. Koziol-White, Reynold A. Panettieri Jr. Airway smooth muscle and immunomodulation in acute exacerbations of airway disease 178

David Proud, Richard Leigh Epithelial cells and airway diseases 186

Stephen T. Holgate The sentinel role of the airway epithelium in asthma pathogenesis 205

Nirav R. Bhakta, Prescott G. Woodruff	Human asthma phenotypes: from the clinic, to cytokines, and back again	220
Mark Boguniewicz, Donald Y. M. Leung	Atopic dermatitis: a disease of altered skin barrier and immune dysregulation	233
Stephen R. Boden, A. Wesley Burks	Anaphylaxis: a history with emphasis on food allergy	247
Tran-Hoai T. Nguyen, Thomas B. Casale	Immune modulation for treatment of allergic disease	258
