The Banking Panic of 1933	324
2. Factors Accounting for Changes in the Stock of Money	332
The Stock Market Crash, October 1929	334
Onset of First Banking Crisis, October 1930	342
Onset of Second Banking Crisis, March 1931	343
Britain's Departure from Gold, September 1931	345
Beginning of Large-Scale Open Market Purchases, April 1932	347
The Banking Panic of 1933	349
3. Bank Failures	351
Role of Bank Failures	351
Origin of Bank Failures	353
Federal Reserve System's Attitude	357
4. International Character of the Contraction	359
5. Development of Monetary Policy	362
The Stock Market Crash, October 1929	363
From the Stock Market Crash to Britain's Departure from Gold, 1929-31	367
Britain's Departure from Gold, September 1931	380
Open Market Purchase Program of 1932	384
The Banking Panic of 1933	389
6. Alternative Policies	391
January 1930 to End of October 1930	392
January 1931 to End of August 1931	393
September 1931 to End of January 1932	395
The Problem of Free Gold	399
7. Why Was Monetary Policy So Inept?	407
8. NEW DEAL CHANGES IN THE BANKING STRUCTURE AND MONETARY STANDARD	420
1. Changes in the Banking Structure	420
Emergency Measures	421
Opening of Banks	422

CONTENTS

Effect on Number and Deposits of Banks	422
Fate of Unlicensed Banks	427
Effects on Money Stock Measures	428
Reform Measures Affecting the Banking Structure	434
Federal Insurance of Bank Deposits	434
Other Changes	442
Changes in the Structure and Powers of the Federal Reserve System	445
Policies of Banks	449
2. Changes in the Monetary Standard	462
Gold Policy	462
The Silver-Purchase Program	483
Composition of the Currency	491
9. CYCLICAL CHANGES, 1933-41	493
1. Changes in Money, Income, Prices, and Velocity	493
2. Factors Accounting for Changes in the Money Stock	499
3. Changes in High-Powered Money	506
4. Federal Reserve Policy	511
5. Changes in the Deposit-Reserve Ratio	534
6. Role of Monetary Factors in the 1937 Contraction and Subsequent Recovery	543
10. WORLD WAR II INFLATION, SEPTEMBER 1939-AUGUST 1948	546
1. U.S. Neutrality, September 1939-November 1941	550
2. Period of Wartime Deficits, December 1941-January 1946	556
Price Movements	557
Behavior of Velocity	558
Proximate Determinants of the Rise in the Money Stock	561
Basic Determinants of the Rise in the Money Stock	567
Effect of War Loan Drives	571
3. From the End of the War to the Price Peak, August 1945-August 1948	574
4. The Balance of Payments	585
11. REVIVAL OF MONETARY POLICY, 1948-60	592
1. Behavior of Money, Income, Prices, and Velocity	596
2. Factors Accounting for Changes in the Money Stock	601
Decline in the Money Stock, January 1948-November 1949	604
The Korean War Period	610
The Crisis in Early 1953	612
The Period from 1954 to 1960	614

CONTENTS

3. Developments in Monetary Policy	620
The Treasury—Federal Reserve Accord	623
Policy Criteria to Replace Support of Government Bond Prices	627
“Bills Only” or “Bills Preferably”	632
4. Why the Stable Rate of Growth of the Money Stock?	637
 12. THE POSTWAR RISE IN VELOCITY	 639
1. Changes in the Return on Alternative Assets	645
Interest Rates	648
Rates of Change in Prices	657
2. Development of Money Substitutes	659
3. Combined Effect of Factors So Far Considered	672
4. Expectations About Stability	673
 13. A SUMMING UP	 676
1. Relation Between the Stock of Money and Other Eco- nomic Variables	676
2. Stability of Monetary Relations	678
3. Independence of Monetary Changes	686
4. Deceptiveness of Appearances	695
 APPENDIXES	 701
A. BASIC TABLES	703
B. PROXIMATE DETERMINANTS OF THE NOMINAL STOCK OF MONEY	776
1. Classification of Types of Money, by Holders	776
2. Simplified Cross-Classification	780
3. Specie Standard with No Money Issued by Monetary Au- thorities	784
4. A Pure Fiduciary Standard	789
5. A Mixed Specie and Fiduciary Standard: A Special Case	790
6. A More General Case of a Mixed Specie and Fiduciary Standard	793
7. Contribution of the Determinants to Changes in the Stock of Money	794
8. Contribution of Components to Changes in High-Powered Money	796
