CHAPTER 1	The Study of Welfare Economics	1
1	The Scope and Purpose of Welfare Economics	1
2	The Welfare of the Household	8
3	Pareto Optimality and Market Equilibrium	11
4	Social Welfare Functions	16
5	Welfare Change for a Single Household	19
6	Welfare Change in a Many-Household Economy	23
7	Cost-Benefit Analysis	26
PART I THE PURE THEORY OF WELFARE ECONOMICS		
CHAPTER 2	The Welfare of the Household	31
1	Introduction	31
2	Household Choice in a Static, Certain Environment	32
3	Household Welfare in a Static, Certain Environment	39
4	Household Welfare with Quantity Constraints	43
5	Household Welfare in an Intertemporal Setting	46
6	Household Welfare under Uncertainty	50
7	The Measurement of Household Utility	56
8	Summary	59
CHAPTER 3	Welfare in a Many-Household Economy: The Pareto Criterion	61
1	Introduction	61
2	Economic Efficiency in an Exchange Economy	63
3	Economic Efficiency in a Production Economy	71
4	The Relevance of Pareto Optimality in Welfare Economics	82
5	Extending the Fundamental Theorems	84
6	The Compensation Principle and the Efficiency Criterion	96
7	Summary	101

CHAPTER 4	Market Failure and the Theory of the Second Best	103
1	Introduction	103
2	Market Failure: Causes and Cases	103
3	Market Failure and the Role of the Public Sector	129
4	The Theory of the Second Best	131
5	Conclusions	135
CHAPTER 5	Social Welfare Orderings: Requirements and Possibilities	137
1	Introduction	137
2	The Framework of Normative Social Choice Theory	139
3	Informational Restrictions and the Social Welfare Orderings	143
4	Non-comparability and Dictatorship Possibilities	147
5	SWO Possibilities with Full Comparability	152
6	SWO Possibilities with Partial Comparability	161
7	Summary and Interpretation	166
CHAPTER 6	Fairness, Equity and Distributive Justice	170
1	Introduction	170
2	Fairness as Absence of Envy	171
3	The Theory of Justice	175
4	Interhousehold Utility Comparability and Moral Preferences	184
5	Conclusions	189
 PART II APPLIED WELFARE ECONOMICS: THE THEORY OF WELFARE CHANGE MEASUREMENT		
CHAPTER 7	The Measurement of Welfare Change for an Individual	195
1	Introduction	195
2	The Problem Defined	196
3	The Compensating Variation (CV)	201
4	The Equivalent Variation (EV)	205
5	An Example – The Deadweight Loss of Excise Taxation	206
6	Approximate Measures of Welfare Change	211
7	Producer's Surplus or Rent	220
8	Intertemporal Welfare Change Measures	223
9	Measurement of Welfare Change under Uncertainty	226

CHAPTER 8	Welfare Change Measurement in Single-Consumer Economies	235
1	The Interpretation of Single-Consumer Economies	235
2	The Welfare Cost of Taxation in a Single-Consumer Economy	237
3	Welfare Change Measures in a Distorted Economy	241
4	Project Evaluation Criteria	243
5	The Social Cost of Public Funds	246
6	An Alternative Way to Express Welfare Change Measures	250
7	An Algebraic Demonstration	255
8	The Theory of Optimal Economic Policy	257
CHAPTER 9	Measuring Welfare Changes in a Many-Consumer Economy	262
1	Introduction	262
2	What Does the Aggregate CV Actually Measure?	263
3	The Aggregate CV and the Strong Test	265
4	The Aggregate CV and the Weak Test	267
5	Other Tests and Other Measures	269
6	Measuring Welfare Change Using a Social Welfare Function	271
7	The Use of Aggregate Income Distribution Statistics	281
CHAPTER 10	Cost-Benefit Analysis	292
1	Introduction	292
2	The Appropriate Decision Rule	294
3	Evaluating the Net Benefits of a Project	297
4	Choice of a Social Discount Rate	314
5	The Treatment of Risk	322
	References	329
	Author Index	337
	Subject Index	339
