<i>Foreword</i>	xviii
<b>1 Introduction</b>	<b>1</b>
<i>Think again! 1</i>	
<i>Economics in a liberating economy 4</i>	
<i>The idea of Critical Political Economy 6</i>	
<i>A self-undermining orthodoxy 8</i>	
<i>The new aims of political economy 10</i>	
<i>The mainstream use of economic models 12</i>	
<i>Economic knowledge as a tool for action 15</i>	
<i>Plan of the book 17</i>	
<b>PART I</b>	
<b>Uncritical complexity</b>	<b>21</b>
<b>2 Uncritical atoms: the limits of standard economics</b>	<b>23</b>
<i>Two basic questions 24</i>	
<i>A tradition of social criticism 26</i>	
<i>The anti-emancipatory inversion of standard economics 31</i>	
<i>Homo economicus and reflexive social change: study of a constitutive impossibility 39</i>	
<i>Looking for homo criticus 54</i>	
<b>3 Uncritical mass: the limits of complexity economics</b>	<b>56</b>
<i>The bottom-up irrelevance of standard economics 57</i>	

*Post-Walrasian approaches* 61  
*The structure of complexity economics* 63  
*The suicide of the critical subject* 74

- 4 The use of uncritical knowledge in society 82  
*The Hayekian heritage of complexity economics* 82  
*Theorist's ignorance, agents' ignorance* 84  
*The competitive process as a real-time "theory"* 89  
*Competition and "spontaneous consciousness"* 92  
*From co-evolution to co-reflection* 96

**PART II**

**Bottom-up Critical Theory: the logic of self-criticizing complexity** 103

- 5 The use of critical knowledge about society 105  
*Creating a potential for social emancipation* 105  
*"Superstition" and the control of social forces* 113  
*Critically oriented interaction and "conscious spontaneity"* 129  
*The unavoidable necessity of critical rationality* 133
- 6 Bottom-up Critical Theory: what does economics describe? 139  
*Toward a bottom-up Critical Theory* 139  
*End-state versus process* 151  
*"Critical descriptiveness": what does economics describe?* 154
- 7 A self-criticizing economic system 162  
*Emancipation in complex systems* 164  
*From "spontaneous consciousness" to "conscious spontaneity"* 174  
*Toward a theory of self-criticizing systems* 181  
*To what real economy do we aspire?* 193

**PART III**

**Toward a critical mainstream?** 195

- 8 A formal approach to critically rational action 197  
*Why normative economics needs other foundations* 197  
*The spread of critical ideas in complex economic systems* 201  
*Can normative economics become emancipation-oriented?* 217  
*Which characteristic emergents do we want?* 220  
*Breaching the positive/normative divide* 224

## PART IV

<b>Critical Political Economy: the logic of “post-orthodox” pluralism</b>	229
9 The use of economics in a complex economy	231
<i>The economist as participant observer</i>	231
<i>A self-criticizing economics in a self-criticizing economy</i>	235
<i>The individual use of economic theories</i>	239
<i>Path dependence, variety, and ignorance</i>	240
<i>Opportunistic consultants</i>	247
<i>The dynamics of theory diffusion and the Hayek–Fukuyama theorem</i>	249
<i>Critical consultants and the Horkheimer–Marcuse theorem</i>	251
10 Free-economy economics	256
<i>An economics that reflects on itself</i>	256
<i>Economics as an intrinsically political discipline</i>	258
<i>Another “Purple Rose of Cairo”?</i>	267
11 Post-orthodox pluralism in economics	275
<i>Economic theory and local knowledge</i>	275
<i>The thorny issue of “economic literacy”</i>	278
<i>Critical Political Economy: an ideal curriculum</i>	281
<i>Knowledge institutions in a genuinely liberating economy</i>	285
<i>Dominant paradigm or neutral language?</i>	288
<i>The most lucid way ahead</i>	289
<i>Taking the “CPE test”</i>	291
<i>Notes</i>	293
<i>Bibliography</i>	295
<i>Index</i>	306
