

# Chapter Listing

<b>Preface</b>	<b>xi</b>
<b>0 Introduction</b>	<b>1</b>
<b>Part I Basic Probability</b>	<b>7</b>
1 Combinatorics	9
2 Probability spaces and counting	43
3 Symmetric spaces and conditioning	73
<b>Part II Discrete Random Variables</b>	<b>111</b>
4 Univariate random variables	113
5 Multivariate random variables	165
6 Sums of random variables	197
<b>Part III Continuous Random Variables</b>	<b>237</b>
7 Continuous univariate random variables	239
8 Joint and conditional random variables	285
9 Multivariate transformations	323
<b>Appendices</b>	<b>343</b>
A Calculus review	343
B Notation tables	435
C Distribution tables	441
<b>References</b>	<b>451</b>
<b>Index</b>	<b>461</b>
