

## Preliminaries

Abstract iii - iv

Acknowledgements iv - v

Abbreviations vi - vii

List of Figures viii - ix

List of tables ix - x

### **Chapter I: Introduction.....1 - 10**

I.1. Setting the scene for the study of Aegean Thrace

I.2. Landscape and geomorphology

I.3. Routes of communication in the Aegean and the Balkans

I.4. What this study will do and how it will proceed

### **Chapter II. Theory and Methodology. ....10 -24**

II. 1. The study of material culture and cultural identity.

II. 1i. The study of material culture

II. 1ii. The study of technology and science based archaeology

II. 1iii. The archaeology and anthropology of technology

II. 1iv. Theoretical model: putting ancient technology in context

II. 2. The process of iron making.

II. 2i. Bloomery iron

II. 2ii. The structure of iron and iron alloys

II. 2iii. Heat treatment of iron and steel

II. 3. Aims and Methodology.

II. 3i. Type of evidence and data used in this research

II. 3ii. Data collection and sampling strategy

### **Chapter III: Texts and iconography.....24 - 30**

### **Chapter IV. Archaeological data.....30 - 55**

IV.1. Iron working in North Greece

IV.2. Messemvria-Zone (5<sup>th</sup> and 4<sup>th</sup> centuries BC).

Typology and distribution of industrial waste and iron artefacts

IV.2i. The archaeology of iron in Messemvria-Zone: conclusions

IV.3. Avdera (5<sup>th</sup> century B. C. to 2<sup>nd</sup> century AD).

Typology and distribution of industrial waste and iron artefacts

IV.3i. The archaeology of iron in Avdera: conclusions

IV.4. Kalyva – Kastro (2<sup>nd</sup> and 3<sup>rd</sup> centuries A. D.)

Typology and distribution of industrial waste and iron artefacts

IV.4i. The archaeology of iron in Kalyva-Kastro: conclusions

IV.5. Discussion and interpretation: economic and social patterns of iron production in Aegean Thrace

**Chapter V. Analytical data.....56 - 77**

V.1. Iron working in North Greece

V.2i. Messemvria-Zone (5<sup>th</sup> and 4<sup>th</sup> centuries BC).

Metallography and SEM analyses of industrial waste

V2ii. Messemvria-Zone (5<sup>th</sup> and 4<sup>th</sup> centuries BC).

Metallography of artefacts

V.2iii. Conclusions: iron technology in Messemvria-Zone

V.3i. Avdera (5<sup>th</sup> century BC to 2<sup>nd</sup> century AD).

Metallography and SEM analyses of industrial waste

V.3ii. Avdera (5<sup>th</sup> century BC to 2<sup>nd</sup> century AD).

Metallography of artefacts

V.3iii. Conclusions: iron technology of in Avdera

V.4i. Kalyva – Kastro (2<sup>nd</sup> and 3<sup>rd</sup> centuries AD).

Metallography and SEM analyses of industrial waste

V.4ii. Kalyva – Kastro (2<sup>nd</sup> and 3<sup>rd</sup> centuries AD).

Metallography of artefacts

V.4iii. Conclusions: iron technology of in Kalyva-Kastro

V.5. Discussion: the metallurgy of iron in Aegean Thrace

**Chapter VI. Synthesis and conclusions.....77 - 80**

**Glossary of technical terms used in the text.....81 - 84**

**Bibliography..... 85 - 95**

**Appendix A.....96 - 177**

**Appendix B.....178 - 226**
