

Contents

1	The Unified Learning Model	1
	Working Memory	2
	Knowledge	2
	Motivation	3
	Three Principles of Learning	3
	Notes	4
Part I Developing the Unified Learning Model		
2	Learning	7
	The Neurobiology of Learning	7
	The Operation of the Neuron	8
	The Architecture of the Brain	9
	What Is Knowledge?	10
	How Learning Works	10
	Meaningful Learning	11
	The Centrality of Working Memory	13
	Motivation	13
	General Rules of Learning	14
	1. New Learning Requires Attention	14
	2. Learning Requires Repetition	14
	3. Learning Is About Connections	14
	4. Some Learning Is Effortless; Some Requires Effort	15
	5. Learning Is Learning	15
	Our Last Words on the Neurobiology of Learning	16
	Notes	16
3	Working Memory	19
	Working Memory Capacity	19
	How Working Memory Functions	20
	Learning Principle 1: Working Memory Allocation	22
	Rule 1: New Learning Requires Attention	23
	Rule 2: Learning Requires Repetition	24
	Rule 3: Learning Is About Connections	25

Expanding Working Memory Capacity	27
Working Memory as Consciousness	29
Basic Rules of Working Memory	29
Storage Rules	29
Retrieval Rule	30
Notes	30
4 Knowledge	33
Long-Term Memory in the Brain	33
Storage in Long-Term Memory	34
Retrieval from Long-Term Memory	34
Connection in Long-Term Memory	35
The Location of Knowledge in the Brain	36
Episodic Memory	36
Semantic Knowledge	38
Declarative and Procedural Knowledge	39
Declarative Knowledge	39
Building a Chunk	40
Procedural Knowledge	43
Building a Procedure: Proceduralization	45
Automaticity	47
Building Larger Knowledge Networks	49
Declarative Networks	49
Procedural Networks	50
Situated Knowledge and Transfer	51
Problem Solving and Critical Thinking	53
Incidental Learning	54
Knowledge and Working Memory Interaction: Expanding Capacity	56
ULM Learning Principle 2: The Prior Knowledge Effect	58
Basic Knowledge Processes	61
Notes	62
5 Motivation	65
Learning Principle 3: Working Memory and Motivation	66
The Neurobiology of “Biological” Motivation; Drives	67
Extensions of Drive Theories	68
Beyond Drive	68
Goals	69
Goal Value	70
Contingencies: The Experienced Past; The Expected Future	71
Specific Motivational Expectancies	73
Self-Efficacy	74
Emotion	76
Emotional Content of Knowledge	77
Emotions as Goals	78
The ULM and Emotion	78

- Interest 78
 - Situational Interest 79
 - Personal Interest 79
 - Interest Is Idiosyncratic 80
- The Hierarchical Structure of Motivation 81
- Motivating Working Memory Allocation 82
- Notes 83
- 6 How the ULM Fits In 85**
 - Ability 85
 - Heredity 86
 - Cognitive Development and Stages 89
 - Vygotsky – ZPD; Social Construction 92
 - Short-Term Memory 94
 - Cognitive Load 95
 - “Ah, Ha ” Moments Involve Special Marking for Later Retrieval 96
 - Ordinary Learning Moments Require No Special Marking 97
 - Savants: Prodigies 98
 - Special Memory 99
 - Multiple Intelligences 99
 - Learning Styles 101
 - The Executive 101
 - Gender Differences 102
 - Primary Versus Secondary Learning 102
 - History and Background 104
 - Our Purpose in This Chapter 105
 - Notes 106

Part II Applying the Unified Learning Model

- 7 Classroom Applications Overview 115**
 - Notes 116
- 8 Supporting Motivation 117**
 - Learning Goals 118
 - Belief in Effort 121
 - Goal Value and Outcome Expectancies 124
 - Self-Efficacy 126
 - Interest 129
 - Discouraged Terms 131
 - Summary Thoughts on Motivation 131
 - Notes 131
- 9 Efficient Instruction 135**
 - Cognitive Load 135
 - The CORE Lesson Model* 135
 - Explicit Knowledge Is Teachable; Implicit Knowledge Isn't 136

Optimal “Difficulty” for New Content	138
Storage and Retrieval	139
Notes	140
10 Feedback and Assessment	141
Assessment	142
Feedback	143
New Learning Requires Attention	143
<i>Learning Requires Repetition</i>	144
Learning Is About Connections	144
Teaching to the Test	145
High-Stakes Testing Versus Feedback	146
Praise Versus Encouragement	147
Scaffold Learning by Responding to Outputs	148
Notes	149
11 A Focus on Thinking	151
Content-Specific Thinking	152
Have Students Anticipate (Expectancy-Driven Methods)	153
Teachers Create Sub-goals (Parse the Intrinsic Load)	153
Remove the Scaffolding	154
Have Students <i>Imagine Outcomes</i>	154
Accommodate Cognitive Artifacts	155
Experts Practice Deliberately	156
Conceptual Change	157
Notes	158
12 Encouraging Self-regulation	161
Five Students	161
Five Profiles of Student Motivation and Self-regulation	162
What Can Teachers Do?	165
Final Thoughts on Self-Regulation	166
Notes	167
13 Managing the Classroom Environment	169
Structure – Based on Goals	169
Contingency	170
Outcome Expectancy	171
Classroom Deportment	171
Teach Expected Behaviors	172
Dealing with Inappropriate Behavior	172
Breaking Up Is Hard to Do	173
Notes	175
14 Improving as a Teacher	177
Teachers’ Prior Knowledge	178
Methods Courses Versus Professional Meetings	179
Video Clubs	180

- Attention: New Learning Requires Working Memory 180
- Repetition 181
- Connections 181
- Effortless Versus Requiring Effort 182
- Connections Are Connections 183
- Closing Thoughts 184
- Notes 184
- 15 Policy 187**
 - Pre-school 187
 - Schools 188
 - School: Discourage Words Suggesting Innate Abilities 188
 - District, State: Organize Based upon Knowledge 189
 - Gifted Students, Skipping Grades, and Advanced Placement 190
 - State, National: Large Pre- and Primary School Impacts 192
 - Early-Career Teacher Mentoring 192
 - Policy Summary 193
 - Notes 194
- 16 Frontiers 197**
 - Declarative Versus Procedural 197
 - Where Is Working Memory? 198
 - Parental Involvement; Rote Memorization 198
 - Laboratory Teaching 198
 - The Science Demonstration 199
 - Informal Education 200
 - Evaluating Teachers 201
 - College Teacher Evaluation 201
 - K-12 Teacher Evaluation 201
 - Quantitative Modeling 202
 - Notes 203
- 17 Epilogue 205**
 - Notes 207
- Index 209**
