

PART ONE Fundamentals of Environmental Geology

- Chapter 1 Humans and the Geologic Environment 3
- Chapter 2 Earth from a Larger Perspective 35
- Chapter 3 Earth Materials 65
- Chapter 4 Earth's Structure and Plate Tectonics 91

PART TWO Hazardous Earth Processes

- Chapter 5 Earthquakes and Related Hazards 119
- Chapter 6 Volcanoes and Related Hazards 157
- Chapter 7 Mass Wasting and Related Hazards 193
- Chapter 8 Streams and Flooding 223
- Chapter 9 Coastal Hazards 257

PART THREE Earth Resources

- Chapter 10 Soil Resources 291
- Chapter 11 Water Resources 325
- Chapter 12 Mineral and Rock Resources 359
- Chapter 13 Conventional Fossil Fuel Resources 397
- Chapter 14 Alternative Energy Resources 435

PART FOUR The Health of Our Environment

- Chapter 15 Pollution and Waste Disposal 473
- Chapter 16 Global Climate Change 509
