Introduction xi

Christopher Mole, Declan Smithies, and Wayne Wu

- 1 A Systems-Neuroscience View of Attention 1
Christian C. Ruff
- 2 Attention and Integration 24
Alan Allport
- 3 The Metaphysics of Attention 60
Christopher Mole
- 4 Covert Spatial Attention and Saccade Planning 78
Katherine M. Armstrong
- 5 Attention as Selection for Action 97
Wayne Wu
- 6 Multiple-Object Tracking: A Serial Attentional Process? 117
Srimant P. Tripathy, Haluk Ogmen, and Sathyasri Narasimhan
- 7 Attention as Structuring of the Stream of Consciousness 145
Sebastian Watzl
- 8 Is Attention Necessary and Sufficient for Consciousness? 174
Jesse J. Prinz
- 9 Attention and Iconic Memory 204
Ian Phillips
- 10 Attention Without Awareness: A Brief Review 228
Robert W. Kentridge
- 11 Attention Is Rational-Access Consciousness 247
Declan Smithies

- 12** Perceptual Attention and the Space of Reasons 274
Johannes Roessler
- 13** Visual Attention Fixes Demonstrative Reference by Eliminating
Referential Luck 292
Imogen Dickie
- 14** Visual Attention and the Epistemic Role of Consciousness 323
John Campbell
- Index 343
