## **PART ONE**

### Overview

<b>1 FOREIGN EXCHANGE MARKET STRUCTURE, PLAYERS, AND EVOLUTION</b>	<b>3</b>
1.1 Introduction, 3	
1.2 Geography and Composition of Currency Trading, 4	
1.2.1 Which Currencies are Traded? 6	
1.2.2 What Instruments are Traded? 9	
1.2.3 How is Trading Regulated? 9	
1.3 Players and Information in FX Markets, 11	
1.3.1 Who Needs Liquidity? 12	
1.3.2 Who Provides Liquidity? 15	
1.3.3 Asymmetric Information and Exchange Rate Determination, 19	
1.4 Electronic Trading Revolution in FX Markets, 21	
1.4.1 The Telephone Era, 22	
1.4.2 The Rise of the Computer, 22	
1.4.3 Recent Developments in Electronic Trading, 30	
1.5 Survey of Multibank FX Platforms, 35	
1.6 Summary, 38	
Glossary, 39	
Acknowledgments, 41	
References, 42	

<b>2</b>	<b>MACRO APPROACHES TO FOREIGN EXCHANGE DETERMINATION</b>	<b>45</b>
2.1	Introduction, 45	
2.2	Models of the Nominal Exchange Rate, 46	
2.2.1	The Monetary Model, 46	
2.2.2	Portfolio Balance Models, 49	
2.2.3	Empirical Evidence, 51	
2.3	Real Models of the Real Exchange Rate, 54	
2.3.1	Purchasing Power Parity, 55	
2.3.2	Balassa–Samuelson and Productivity-Based Models, 56	
2.3.3	Two-Good Models, 59	
2.4	New Directions in Exchange-Rate Modeling, 60	
2.4.1	Taking Reaction Functions Seriously, 60	
2.4.2	The Impact of Financial Globalization, 63	
2.4.3	The Risk Premium and Order Flow, 64	
2.5	Conclusions, 65	
	Acknowledgments, 65	
	References, 66	
<b>3</b>	<b>MICRO APPROACHES TO FOREIGN EXCHANGE DETERMINATION</b>	<b>73</b>
3.1	Introduction, 73	
3.2	Perspectives on Spot-Rate Dynamics, 74	
3.2.1	Decomposition of Depreciation Rates, 74	
3.2.2	Macro- and Microperspectives, 77	
3.3	Currency Trading Models and their Implications, 80	
3.3.1	The Portfolio Shifts Model, 81	
3.3.2	Empirical Implications, 88	
3.4	Exchange Rates, Order Flows, and the Macro Economy, 95	
3.4.1	A Micro-Based Macro model, 96	
3.4.2	Empirical Implications, 100	
3.5	Conclusion, 105	
	Appendix, 105	
3.6	Acknowledgment, 108	
	References, 108	
<b>4</b>	<b>THE EXCHANGE RATE IN A BEHAVIORAL FINANCE FRAMEWORK</b>	<b>111</b>
4.1	Introduction, 111	
4.1.1	Mainstream Exchange Rate Models, 111	
4.1.2	Away from the Mainstream, 113	

- 4.2 Exchange Rate Puzzles, 114
  - 4.2.1 Disconnect Puzzle and Excess Volatility Puzzle, 114
  - 4.2.2 Unit Root Property, 115
  - 4.2.3 Volatility Clustering, 118
  - 4.2.4 Fat-Tailed Distributed Exchange Rate Returns, 119
- 4.3 A Prototype Behavioral Model of the Foreign Exchange Market, 122
- 4.4 Conclusion, 127  
References, 129

## **5 THE EVOLUTION OF EXCHANGE RATE REGIMES AND SOME FUTURE PERSPECTIVES 133**

- 5.1 Introduction, 133
- 5.2 A Brief History of Currency Regimes, 135
- 5.3 Performance of the *Laisser-Faire* Exchange Rate System, 1973–2010, 138
  - 5.3.1 Market Discipline, 139
  - 5.3.2 Economic Policy Coordination, 140
  - 5.3.3 Integration of Emerging Market Countries into the Global Economy, 140
- 5.4 Trends in Currency Use, 141
  - 5.4.1 Global Imbalances and the Financial Crisis of 2007–2009, 143
- 5.5 Prospects for the Future, 144
  - 5.5.1 The Current System, 144
  - 5.5.2 Toward a more Managed International Monetary System? 146
  - 5.5.3 How and When Will Reform Occur? 150
  - 5.5.4 A Global Nominal Anchor? 151
- 5.6 Concluding Comments, 153  
Appendix A: A Formal Test of Hollowing Out, 154  
References, 156

## **PART TWO**

### Exchange Rate Models and Methods

- ## **6 PURCHASING POWER PARITY IN ECONOMIC HISTORY 161**
- 6.1 Introduction, 161

- 6.2 Categorization of Purchasing-Power-Parity Theories, 162
- 6.3 Historical Application of PPP: Premodern Periods, 163
  - 6.3.1 Ancient Period, 163
  - 6.3.2 Medieval Period, 164
  - 6.3.3 Sixteenth-Century Spain, 165
- 6.4 Techniques of Testing PPP Theory in Economic-History Literature, 165
  - 6.4.1 Comparative-Static Computation, 165
  - 6.4.2 Regression Analysis, 165
  - 6.4.3 Testing for Causality, 165
  - 6.4.4 Nonstationarity and Spurious Regression, 166
  - 6.4.5 Testing for Stationarity, 167
  - 6.4.6 Cointegration Analysis, 167
- 6.5 Price Variable in PPP Computations, 168
- 6.6 Modern Period: Testing of PPP, 169
  - 6.6.1 Early North America, 169
  - 6.6.2 Bullionist Periods, 170
  - 6.6.3 Floating Rates—Second-Half of Nineteenth Century, 171
  - 6.6.4 Classic Metallic Standards, 172
  - 6.6.5 World War I, 172
  - 6.6.6 Floating Rates—1920s, 173
  - 6.6.7 1930s, 175
  - 6.6.8 Interwar Period, 175
  - 6.6.9 Spain—Long Term, 176
  - 6.6.10 Guatemala—Long Term, 176
- 6.7 Analysis of U.S. Return to Gold Standard in 1879, 177
- 6.8 Establishment and Assessment of a Fixed Exchange Rate in Interwar Period, 177
  - 6.8.1 United Kingdom, 177
  - 6.8.2 France, 179
- 6.9 Conclusions, 180
  - References, 181

## **7 PURCHASING POWER PARITY IN TRADABLE GOODS**

189

- 7.1 Introduction, 189
- 7.2 The LOP and Price Indices, 190
- 7.3 Empirical Evidence on the LOP, 194
  - 7.3.1 Early Tests of the LOP, 194
  - 7.3.2 The Border Effect, 194
  - 7.3.3 Barriers to Arbitrage and Nonlinearities, 195

- 7.3.4 The Tradable Versus Nontradable Goods Dichotomy, 198
- 7.3.5 The Aggregation Bias and Micro Price Studies, 199
- 7.4 Purchasing Power Parity, 200
  - 7.4.1 Transitory and Structural Disparities from Parity, 203
- 7.5 Aggregating from the LOP to PPP: What Can We Infer? 205
  - 7.5.1 An Eyeball Analysis of PPP, 207
- 7.6 Conclusion and Implications, 213
  - Appendix: TAR Modeling, 214
  - Acknowledgments, 215
  - References, 215

## **8 STATISTICAL AND ECONOMIC METHODS FOR EVALUATING EXCHANGE RATE PREDICTABILITY 221**

- 8.1 Introduction, 221
- 8.2 Models for Exchange Rate Predictability, 224
  - 8.2.1 A Present Value Model for Exchange Rates, 224
  - 8.2.2 Predictive Regressions, 226
- 8.3 Statistical Evaluation of Exchange Rate Predictability, 228
- 8.4 Economic Evaluation of Exchange Rate Predictability, 231
  - 8.4.1 The Dynamic FX Strategy, 231
  - 8.4.2 Mean-Variance Dynamic Asset Allocation, 231
  - 8.4.3 Performance Measures, 232
  - 8.4.4 Transaction Costs, 234
- 8.5 Combined Forecasts, 235
- 8.6 Empirical Results, 237
  - 8.6.1 Data on Exchange Rates and Economic Fundamentals, 237
  - 8.6.2 Predictive Regressions, 242
  - 8.6.3 Statistical Evaluation, 244
  - 8.6.4 Economic Evaluation, 249
- 8.7 Conclusion, 256
  - Appendix A: The Bootstrap Algorithm, 259
  - Acknowledgments, 260
  - References, 260

<b>9</b>	<b>WHEN ARE POOLED PANEL-DATA REGRESSION FORECASTS OF EXCHANGE RATES MORE ACCURATE THAN THE TIME-SERIES REGRESSION FORECASTS?</b>	<b>265</b>
9.1	Introduction, 265	
9.2	Panel Data Exchange Rate Determination Studies, 267	
9.3	Asymptotic Consequences of Pooling, 268	
9.3.1	Predictive Regression Estimated on Full Sample, 268	
9.3.2	Out-of-Sample Prediction, 271	
9.4	Monte Carlo Study, 272	
9.5	An Illustration with Data, 275	
9.6	Conclusions, 278	
	References, 279	
<b>10</b>	<b>CARRY TRADES AND RISK</b>	<b>283</b>
10.1	Introduction, 283	
10.2	The Carry Trade: Basic Facts, 285	
10.2.1	What is a Carry Trade? 285	
10.2.2	Measuring the Returns to the Carry Trade, 286	
10.3	Pricing the Returns to the Carry Trade, 290	
10.4	Empirical Findings, 293	
10.4.1	Traditional Risk Factors, 293	
10.4.2	Factors Derived from Currency Returns, 299	
10.5	Time-Varying Risk and Rare Events, 308	
10.6	Conclusion, 311	
	Acknowledgments, 311	
	References, 311	
<b>11</b>	<b>CURRENCY FAIR VALUE MODELS</b>	<b>313</b>
11.1	Introduction, 313	
11.2	Models/Taxonomy, 315	
11.2.1	“Adjusted PPP”: Harrod-Balassa-Samuelson and Penn Effects, 315	
11.2.2	The Behavioral Equilibrium Exchange Rate Family of Models, 316	
11.2.3	The Underlying Balance (UB) Approach, 320	
11.2.4	External Sustainability (ES) Approach, 324	
11.2.5	The Natural Real Exchange Rate (NATREX), 325	
11.2.6	The Indirect Fair Value (IFV), 325	
11.3	Implementation Choices and Model Characteristics, 328	
11.3.1	Horizon/Frequency, 329	

- 11.3.2 Direct Econometric Estimation Versus “Methods of Calculation”, 331
- 11.3.3 Treatment of External Imbalances , 332
- 11.3.4 Real Versus Nominal Exchange Rates, 333
- 11.3.5 Bilateral Versus Effective Exchange Rate, 333
- 11.3.6 Time Series Versus Cross Section or Panel, 336
- 11.3.7 Model Maintenance, 336
- 11.4 Conclusion, 337
  - Acknowledgments, 338
  - References, 339

## **12 TECHNICAL ANALYSIS IN THE FOREIGN EXCHANGE MARKET 343**

- 12.1 Introduction, 343
- 12.2 The Practice of Technical Analysis, 345
  - 12.2.1 The Philosophy of Technical Analysis, 345
  - 12.2.2 Types of Technical Analysis, 346
- 12.3 Studies of Technical Analysis in the Foreign Exchange Market, 350
  - 12.3.1 Why Study Technical Analysis? 350
  - 12.3.2 Survey Evidence on the Practice of Technical Analysis, 350
  - 12.3.3 Computing Signals and Returns, 351
  - 12.3.4 Early Studies: Skepticism before the Tide Turns, 353
  - 12.3.5 Pattern Recognition, Intraday Data, and Other Exchange Rates, 353
- 12.4 Explaining The Success of Technical Analysis, 355
  - 12.4.1 Data Snooping, Publication Bias, and Data Mining, 355
  - 12.4.2 Temporal Variation in Trading Rule Returns, 357
  - 12.4.3 Do Technical Trading Returns Compensate Investors for Bearing Risk? 359
  - 12.4.4 Does Foreign Exchange Intervention Create Trading Rule Profits? 361
  - 12.4.5 Do Cognitive Biases Create Trading Rule Profits? 363
  - 12.4.6 Do Markets Adapt to Arbitrage Away Trading Rule Profits? 365
- 12.5 The Future of Research on Technical Analysis, 366
- 12.6 Conclusion, 367
  - Acknowledgments, 368
  - References, 368

<b>13</b>	<b>MODELING EXCHANGE RATES WITH INCOMPLETE INFORMATION</b>	<b>375</b>
13.1	Introduction, 375	
13.2	Basic Monetary Model, 376	
13.3	Information Heterogeneity, 379	
13.4	Model Uncertainty, 381	
13.5	Infrequent Decision Making, 385	
13.6	Conclusion, 388	
	Acknowledgments, 388	
	References, 389	
<b>14</b>	<b>EXCHANGE RATES IN A STOCHASTIC DISCOUNT FACTOR FRAMEWORK</b>	<b>391</b>
14.1	Introduction, 391	
14.2	Exchange Rates and Stochastic Discount Factors, 392	
	14.2.1 Stochastic Discount Factors, 392	
	14.2.2 Real Exchange Rates and Currency Risk Premia, 395	
14.3	Empirical Evidence, 398	
	14.3.1 From UIP Regressions to Currency Portfolios, 398	
	14.3.2 Annual Currency Excess Returns and Aggregate Risk, 399	
	14.3.3 Monthly Currency Excess Returns, 403	
	14.3.4 Implications for Stochastic Discount Factors, 403	
	14.3.5 Predictability of Currency Excess Returns, 405	
14.4	Models, 407	
	14.4.1 Habits, 407	
	14.4.2 Long-Run Risk, 411	
	14.4.3 Disaster Risk, 414	
14.5	Conclusion, 417	
	References, 417	
<b>15</b>	<b>VOLATILITY AND CORRELATION TIMING IN ACTIVE CURRENCY MANAGEMENT</b>	<b>421</b>
15.1	Introduction, 421	
15.2	Dynamic Models for Volatility and Correlation, 424	
	15.2.1 The Set of Multivariate Models, 425	
	15.2.2 The Set of Univariate Models for Volatility Timing, 427	
	15.2.3 Pairwise Model Comparisons, 427	
	15.2.4 Estimation and Forecasting, 427	

- 15.3 The Economic Value of Volatility and Correlation
  - Timing, 428
  - 15.3.1 The Dynamic Strategy, 428
  - 15.3.2 Dynamic Asset Allocation with CRRA Utility, 428
  - 15.3.3 Performance Measures, 429
  - 15.3.4 Transaction Costs, 430
- 15.4 Parameter Uncertainty in Bayesian Asset Allocation, 430
- 15.5 Model Uncertainty, 431
  - 15.5.1 The BMA Strategy, 432
  - 15.5.2 The BMW Strategy, 432
- 15.6 Empirical Results, 432
  - 15.6.1 Data and Descriptive Statistics, 432
  - 15.6.2 Bayesian Estimation, 433
  - 15.6.3 Evaluating Volatility and Correlation Timing, 434
- 15.7 Conclusion, 440
  - Appendix A: Univariate Models for Volatility Timing, 442
  - Appendix B: Parameter Uncertainty and the Predictive Density, 443
  - Acknowledgments, 444
  - References, 444

**PART THREE****FX Markets and Products**

- 16 ACTIVE CURRENCY MANAGEMENT PART I:  
IS THERE A PREMIUM FOR CURRENCY  
INVESTING (BETA) 451**
- 16.1 Introduction, 451
- 16.2 Beta in the Foreign Exchange Markets, 453
  - 16.2.1 Understanding the FX Carry Trade, 453
  - 16.2.2 FX Carry as a Broader Strategy, 454
  - 16.2.3 FX Trend-Based Strategies, 456
  - 16.2.4 Value-Based Strategies Within FX, 458
  - 16.2.5 USD Directional Trade, 459
  - 16.2.6 Correlation between these FX Strategies and Other Forms of Beta, 460
  - 16.2.7 Weighted Portfolio of FX Strategies, 461
- 16.3 Multiple Forms of FX Beta, 463
- 16.4 Carry FX Indices from Banks, 463
- 16.5 Trend-Following FX Indices from Banks, 465

16.6	Conclusion, 466 References, 467	
<b>17</b>	<b>ACTIVE CURRENCY MANAGEMENT PART II: IS THERE SKILL OR ALPHA IN CURRENCY INVESTING?</b>	<b>469</b>
17.1	Introduction, 469	
17.2	Alternative Currency Management Mandates, 471	
17.2.1	Features of a Currency Mandate, 471	
17.2.2	Structural and Operational Choices, 474	
17.2.3	The Alpha Continuum and Implications of Active Currency Mandates, 475	
17.3	Benchmarks for Currency Fund Management, 475	
17.3.1	A Basic Factor Model for Currency Returns, 477	
17.4	Empirical Evidence with the Barclay Currency Traders Index and Individual Fund Managers, 479	
17.4.1	Empirical Evidence with the Barclay Currency Traders Index, 479	
17.4.2	Individual Currency Manager Returns, 483	
17.4.3	Alternative Information Ratio, 491	
17.5	Empirical Evidence: Fund Managers on the DB FX Select Platform, 494	
17.5.1	Grouping Managers into a Fund of Funds, 494	
17.6	Conclusions and Investment Implications, 496 References, 497	
<b>18</b>	<b>CURRENCY HEDGING FOR INTERNATIONAL BOND AND EQUITY INVESTORS</b>	<b>501</b>
18.1	Introduction, 501	
18.2	Overview of Empirical Hedging Studies, 502	
18.3	Return and Volatility Impact of Currency Hedging, 504	
18.3.1	Theoretical Background, 504	
18.3.2	Methodology, 506	
18.3.3	Summary of Findings on the Return and Volatility Impact of Currency Hedging, 523	
18.4	Hedge Instruments—Currency Forwards versus Options, 524	
18.4.1	Why Do Hedge Cash Flows Matter? 524	
18.4.2	Historical Performance of Hedging with Options, 525	
18.4.3	Summary of Findings on Hedging with Options Versus Forwards, 530	

---

18.5	Managing Tracking Error in Forward Hedges, 531	
18.5.1	How Often to Rebalance? 531	
18.5.2	Trigger-Based Versus Regular Rebalancing, 537	
18.5.3	Summary of Findings on Hedge Rebalancing, 537	
18.6	Conclusions, 539	
	References, 541	
<b>19</b>	<b>FX RESERVE MANAGEMENT</b>	<b>543</b>
19.1	FX Reserve Management, 543	
19.2	FX Reserve Uses, 543	
19.3	FX Reserve Sources, 544	
19.4	Objectives of Reserves Management, 545	
19.5	Techniques of Reserve Management, 545	
19.6	Historical Perspective, 546	
19.7	What Assets Do Central Banks Hold? 547	
19.8	Constraints, 548	
19.9	External Managers, 549	
19.10	Costs of Accumulation and Holding of Reserves, 549	
19.11	Diversification, 550	
19.12	Challenges to Diversification and Size of Reserves, 550	
19.13	Changing Role of the Dollar as the International Reserve Currency, 552	
19.14	Reserve Management if the Dollar is Replaced as the Reserve Currency, 555	
19.15	Conclusion, 557	
	Acknowledgments, 557	
	References, 557	
<b>20</b>	<b>HIGH FREQUENCY FINANCE: USING SCALING LAWS TO BUILD TRADING MODELS</b>	<b>561</b>
20.1	Introduction, 561	
20.2	The Intrinsic Time Framework, 563	
20.3	Scaling Laws, 565	
20.3.1	The New Scaling Laws, 566	
20.3.2	The Coastline, 571	
20.4	The Scale of Market Quakes, 572	
20.5	Trading Models, 575	
20.5.1	Overview, 575	
20.5.2	Coastline Trader, 576	
20.5.3	Monthly Statistics, 578	
20.6	Conclusion, 580	

	Acknowledgments, 580	
	References, 580	
<b>21</b>	<b>ALGORITHMIC EXECUTION IN FOREIGN EXCHANGE</b>	<b>583</b>
21.1	Introduction, 583	
21.1.1	Drawing from the Equity Market, 584	
21.1.2	What is Going to Work for Foreign Exchange? 585	
21.2	Key Components of an Algorithmic Execution Framework, 587	
21.2.1	Smart Order Routing (SOR), 587	
21.2.2	Intelligence, 588	
21.2.3	Speed, 589	
21.3	Types of Algorithms, 590	
21.3.1	Time Slicers, 590	
21.3.2	Sweeper, 590	
21.3.3	Iceberg, 590	
21.3.4	Opportunistic, 590	
21.3.5	Participators, 592	
21.3.6	Internalization Strategies, 592	
21.3.7	Dynamic Algorithms, 593	
21.4	What Execution Strategies are Most Effective? 593	
21.4.1	Measuring Performance, 594	
21.5	Looking Forward, 594	
	Appendix A, 594	
	References, 595	
<b>22</b>	<b>FOREIGN EXCHANGE STRATEGY BASED PRODUCTS</b>	<b>597</b>
22.1	Introduction, 597	
22.2	Evolution of the Foreign Exchange Market, 598	
22.2.1	Disappointing Early Years, 598	
22.2.2	Emergence of “Puzzles” in FX, 599	
22.2.3	Growth of FX Market Turnover and Currency Managers, 600	
22.3	Foreign Exchange Investable Indices and Strategy-Based Products, 604	
22.3.1	Why Profit Opportunities Exist? 604	
22.3.2	Beta and Alpha in Foreign Exchange, 605	
22.3.3	Why is FX Attractive? 611	
22.3.4	Why use Strategy-Based FX Products? 617	

22.4	Conclusion, 618	
	References, 618	
<b>23</b>	<b>FOREIGN EXCHANGE FUTURES, FORWARDS, AND SWAPS</b>	<b>621</b>
23.1	Introduction, 621	
23.2	Market Basics and Size, 623	
	23.2.1 FX Outright Forwards and Futures, 623	
	23.2.2 FX Swaps and Cross-Currency Swaps, 626	
	23.2.3 Market Size, 633	
23.3	Dislocations of the FX and Cross-Currency Swap Markets under Financial Crises, 635	
	23.3.1 Japan Premium Case in the Late 1990s, 635	
	23.3.2 The Global Financial Crisis from 2007, 637	
23.4	Conclusion, 641
