contents

Preface xxiii Supplements and Media xxxii

part | Introduction

Chapter 1 The Science of Macroeconomics 1

1-1	What Macroeconomists Study 1	
	> CASE STUDY The Historical Performance of the U.S. Economy	3

- 1-2 How Economists Think 5 Theory as Model Building 6
 FYI Using Functions to Express Relationships Among Variables 9 The Use of Multiple Models 10 Prices: Flexible Versus Sticky 10 Microeconomic Thinking and Macroeconomic Models 11
 FYI Nobel Macroeconomists 12
- 1-3 How This Book Proceeds 13

Chapter 2 The Data of Macroeconomics 15

2-1	Measuring the Value of Economic Activity:
	Gross Domestic Product 16
	Income, Expenditure, and the Circular Flow 16
	► FYI Stocks and Flows 18
	Rules for Computing GDP 18
	Real GDP Versus Nominal GDP 21
	The GDP Deflator 23
	Chain-Weighted Measures of Real GDP 23
	► FYI Two Arithmetic Tricks for Working With Percentage Changes 24
	The Components of Expenditure 25
	► FYI What Is Investment? 26
	► CASE STUDY GDP and its Components 26
	Other Measures of Income 27
	Seasonal Adjustment 29
2-2	Measuring the Cost of Living: The Consumer Price Index 30
	The Price of a Basket of Goods 30
	The CPI Versus the GDP Deflator 31
	Does the CPI Overstate Inflation? 33
	► CASE STUDY The Billion Prices Project 34

- 2-3 Measuring Joblessness: The Unemployment Rate 34
 The Household Survey 35
 CASE STUDY Trends in Labor-Force Participation 36
 The Establishment Survey 38
- 2-4 Conclusion: From Economic Statistics to Economic Models 39

part II Classical Theory: The Economy in the Long Run

Chapter 3 National Income: Where It Comes From and Where It Goes 45

3-1 What Determines the Total Production of Goods and Services? 47
 The Factors of Production 47
 The Production Function 48
 The Supply of Goods and Services 48

3-2 How Is National Income Distributed to the Factors of Production? 49

- Factor Prices 49
- The Decisions Facing a Competitive Firm 50
- The Firm's Demand for Factors 51
- The Division of National Income 54
- **CASE STUDY** The Black Death and Factor Prices 56
- The Cobb-Douglas Production Function 56
- ► FYI The Growing Gap Between Rich and Poor 60
- CASE STUDY Labor Productivity as the Key Determinant of Real Wages 60
- 3-3 What Determines the Demand for Goods and Services? 61

Consumption 62

Investment 63

► FYI The Many Different Interest Rates 65

Government Purchases 65

3-4 What Brings the Supply and Demand for Goods and Services Into Equilibrium? 66

Equilibrium in the Market for Goods and Services: The Supply and Demand for the Economy's Output 67

Equilibrium in the Financial Markets: The Supply and Demand for Loanable Funds 68

Changes in Saving: The Effects of Fiscal Policy 70

- ► CASE STUDY Wars and Interest Rates in the United Kingdom, 1730–1920 71 Changes in Investment Demand 72
- 3-5 Conclusion 74

Chapter 4 The Monetary System: What It is and How It Works 79

4-1 What Is Money? 79

	The Functions of Money 80
	The Types of Money 80
	CASE STUDY Money in a POW Camp 81
	The Development of Fiat Money 82
	CASE STUDY Money and Social Conventions on the Island of Yap 82
	How the Quantity of Money Is Controlled 83
	How the Quantity of Money Is Measured 83
	► FYI How Do Credit Cards and Debit Cards Fit Into the Monetary System? 85
4-2	The Role of Banks in the Monetary System 85
	100-Percent-Reserve Banking 86
	Fractional-Reserve Banking 86
	Bank Capital, Leverage, and Capital Requirements 88
4-3	How Central Banks Influence the Money Supply 90
	A Model of the Money Supply 90
	The Instruments of Monetary Policy 92
	CASE STUDY Quantitative Easing and the Exploding Monetary Base 93
	Problems in Monetary Control 94
	CASE STUDY Bank Failures and the Money Supply in the 1930s 95
4-4	Conclusion 96
Cha	pter 5 Inflation: Its Causes, Effects, and Social Costs 99
Cha _l 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100
Cha 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100
Cha _l 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101
Cha 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102
Cha 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs99The Quantity Theory of Money100Transactions and the Quantity Equation100From Transactions to Income101The Money Demand Function and the Quantity Equation102The Assumption of Constant Velocity103
Cha ₁ 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs99The Quantity Theory of Money100Transactions and the Quantity Equation100From Transactions to Income101The Money Demand Function and the Quantity Equation102The Assumption of Constant Velocity103Money, Prices, and Inflation104
Cha 5-1	pter 5 Inflation: Its Causes, Effects, and Social Costs99The Quantity Theory of Money100Transactions and the Quantity Equation100From Transactions to Income101The Money Demand Function and the Quantity Equation102The Assumption of Constant Velocity103Money, Prices, and Inflation104► CASE STUDY Inflation and Money Growth104
Cha 5-1 5-2	pter 5 Inflation: Its Causes, Effects, and Social Costs99The Quantity Theory of Money100Transactions and the Quantity Equation100From Transactions to Income101The Money Demand Function and the Quantity Equation102The Assumption of Constant Velocity103Money, Prices, and Inflation104► CASE STUDY Inflation and Money Growth104Seigniorage: The Revenue From Printing Money107
Cha 5-1 5-2	 Pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 ► CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 ► CASE STUDY Paying for the American Revolution 107
Chaj 5-1 5-2 5-3	 pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108
Cha 5-1 5-2 5-3	 Pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 ► CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 ► CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108
Chaj 5-1 5-2 5-3	 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108
Chaj 5-1 5-2 5-3	 Pter 5 Inflation: Its Causes, Effects, and Social Costs 99 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 ► CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 ► CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108 ► CASE STUDY Inflation and Nominal Interest Rates 109
Chaj 5-1 5-2 5-3	 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108 CASE STUDY Inflation and Nominal Interest Rates 109 Two Real Interest Rates: Ex Ante and Ex Post 110
Chaj 5-1 5-2 5-3	 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108 CASE STUDY Inflation and Nominal Interest Rates 109 Two Real Interest Rates: Ex Ante and Ex Post 110 CASE STUDY Nominal Interest Rates in the Nineteenth Century 111
Chaj 5-1 5-2 5-3 5-4	 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108 CASE STUDY Inflation and Nominal Interest Rates 109 Two Real Interest Rates: Ex Ante and Ex Post 110 CASE STUDY Nominal Interest Rates in the Nineteenth Century 111 The Nominal Interest Rate and the Demand for Money 112
Chaj 5-1 5-2 5-3 5-4	 The Quantity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108 CASE STUDY Inflation and Nominal Interest Rates 109 Two Real Interest Rates: Ex Ante and Ex Post 110 CASE STUDY Nominal Interest Rates in the Nineteenth Century 111 The Nominal Interest Rate and the Demand for Money 112 The Cost of Holding Money 112
Chaj 5-1 5-2 5-3 5-4	 The Juntity Theory of Money 100 Transactions and the Quantity Equation 100 From Transactions to Income 101 The Money Demand Function and the Quantity Equation 102 The Assumption of Constant Velocity 103 Money, Prices, and Inflation 104 CASE STUDY Inflation and Money Growth 104 Seigniorage: The Revenue From Printing Money 107 CASE STUDY Paying for the American Revolution 107 Inflation and Interest Rates 108 Two Interest Rates: Real and Nominal 108 The Fisher Effect 108 CASE STUDY Inflation and Kominal Interest Rates 109 Two Real Interest Rates: Ex Ante and Ex Post 110 CASE STUDY Nominal Interest Rates in the Nineteenth Century 111 The Nominal Interest Rate and the Demand for Money 112 The Cost of Holding Money 112 Future Money and Current Prices 112

5-5	The Social Costs of Inflation 114
	The Layman's View and the Classical Response 114
	CASE STUDY What Economists and the Public Say About Inflation 115
	The Costs of Expected Inflation 115
	The Costs of Unexpected Inflation 117
	CASE STUDY The Free Silver Movement, the Election of 1896, and The Wizard of Oz 118
	One Benefit of Inflation 119
5-6	Hyperinflation 119
	The Costs of Hyperinflation 120
	The Causes of Hyperinflation 120
	CASE STUDY Hyperinflation in Interwar Germany 121
	CASE STUDY Hyperinflation in Zimbabwe 123
5-7	Conclusion: The Classical Dichotomy 124
	Appendix: The Cagan Model: How Current and Future Money Affect
	the Price Level 128
Cha	pter 6 The Open Economy 131
<i>с</i> 1	The first straight flows a Constrained Grander 122
0-1	The International Flows of Capital and Goods 132
	The Role of Net Exports 132
	International Capital Flows and the Trade Balance 134
	International Flows of Goods and Capital: An Example 130
6.0	FIT The Irrelevance of Bilateral Trade Balances 137
6-2	Saving and Investment in a Small Open Economy 137
	Capital Mobility and the World Interest Rate 137
	Why Assume a Small Open Economy? 138
	The Model 139
	How Policies Influence the Trade Balance 140
	Evaluating Economic Policy 142
	CASE STUDY The U.S. Trade Deficit 144
	CASE STUDY Why Doesn't Capital Flow to Poor Countries? 146
6-3	Exchange Rates 147
	Nominal and Real Exchange Rates 147
	The Real Exchange Rate and the Trade Balance 149
	The Determinants of the Real Exchange Rate 149
	How Policies Influence the Real Exchange Rate 151
	The Effects of Trade Policies 152
	The Determinants of the Nominal Exchange Rate 154
	► CASE STUDY Inflation and Nominal Exchange Rates 155
	The Special Case of Purchasing-Power Parity 157
	► CASE STUDY The Big Mac Around the World 158
6-4	Conclusion: The United States as a Large Open Economy 160
	Appendix: The Large Open Economy 164

Net Capital Outflow 164 The Model 166 Policies in the Large Open Economy 168 Conclusion 172

Chapter 7 Unemployment 175

7-1	Job Loss, Job Finding, and the Natural Rate of Unemployment 176
7-2	Job Search and Frictional Unemployment 178
	Causes of Frictional Unemployment 179
	Public Policy and Frictional Unemployment 179
	CASE STUDY Unemployment Insurance and the Rate of Job Finding 180
7-3	Real-Wage Rigidity and Structural Unemployment 181
	Minimum-Wage Laws 182
	CASE STUDY The Characteristics of Minimum-Wage Workers 183
	Unions and Collective Bargaining 184
	Efficiency Wages 185
	CASE STUDY Henry Ford's \$5 Workday 186
7-4	Labor-Market Experience: The United States 187
	The Duration of Unemployment 187
	CASE STUDY The Increase in U.S. Long-Term Unemployment and the Debate Over Unemployment Insurance 188
	Variation in the Unemployment Rate Across Demographic Groups 190
	Transitions Into and Out of the Labor Force 191
7-5	Labor-Market Experience: Europe 192
	The Rise in European Unemployment 192
	Unemployment Variation Within Europe 194
	► CASE STUDY The Secrets to Happiness 195
	The Rise of European Leisure 196

7-6 Conclusion 198

part III Growth Theory: The Economy in the Very Long Run

Chapter 8 Economic Growth I: Capital Accumulation and Population Growth 203

8-1 The Accumulation of Capital 204
The Supply and Demand for Goods 204
Growth in the Capital Stock and the Steady State 207
Approaching the Steady State: A Numerical Example 209
CASE STUDY The Miracle of Japanese and German Growth 211
How Saving Affects Growth 212
CASE STUDY Saving and Investment Around the World 213

The Golden Rule Level of Capital 215 8-2 Comparing Steady States 215 Finding the Golden Rule Steady State: A Numerical Example 218 The Transition to the Golden Rule Steady State 220 Population Growth 222 8-3 The Steady State With Population Growth 223 The Effects of Population Growth 224 CASE STUDY Population Growth Around the World 226 Alternative Perspectives on Population Growth 227 8-4 Conclusion 229 Chapter 9 Economic Growth II: Technology, Empirics, and Policy 233 Technological Progress in the Solow Model 234 9-1 The Efficiency of Labor 234 The Steady State With Technological Progress 235 The Effects of Technological Progress 236 9-2 From Growth Theory to Growth Empirics 237 Balanced Growth 237 Convergence 238 Factor Accumulation Versus Production Efficiency 239 ► CASE STUDY Is Free Trade Good for Economic Growth? 240 9-3 Policies to Promote Growth 241 Evaluating the Rate of Saving 242 Changing the Rate of Saving 243 Allocating the Economy's Investment 244 CASE STUDY Industrial Policy in Practice 245 Establishing the Right Institutions 246 CASE STUDY The Colonial Origins of Modern Institutions 247 Encouraging Technological Progress 248 ► CASE STUDY The Worldwide Slowdown in Economic Growth 249 9-4 Beyond the Solow Model: Endogenous Growth Theory 251 The Basic Model 252 A Two-Sector Model 253 The Microeconomics of Research and Development 254 The Process of Creative Destruction 255 9-5 Conclusion 256 Appendix: Accounting for the Sources of Economic Growth 260 Increases in the Factors of Production 260 Technological Progress 262 The Sources of Growth in the United States 263 ► CASE STUDY Growth in the East Asian Tigers 264 The Solow Residual in the Short Run 265

part IV Business Cycle Theory: The Economy in the Short Run

Chap	oter 10 Introduction to Economic Fluctuations 271
10-1	The Facts About the Business Cycle 272
	GDP and Its Components 272
	Unemployment and Okun's Law 275
	Leading Economic Indicators 277
10-2	Time Horizons in Macroeconomics 279
	How the Short Run and Long Run Differ 279
	CASE STUDY If You Want to Know Why Firms Have Sticky Prices, Ask Them 280
	The Model of Aggregate Supply and Aggregate Demand 282
10-3	Aggregate Demand 283
	The Quantity Equation as Aggregate Demand 283
	Why the Aggregate Demand Curve Slopes Downward 284
	Shifts in the Aggregate Demand Curve 285
10-4	Aggregate Supply 286
	The Long Run: The Vertical Aggregate Supply Curve 286
	The Short Run: The Horizontal Aggregate Supply Curve 288
	From the Short Run to the Long Run 289
	CASE STUDY A Monetary Lesson From French History 291
	FYI David Hume on the Real Effects of Money 292
10-5	Stabilization Policy 292
	Shocks to Aggregate Demand 293
	Shocks to Aggregate Supply 294
	CASE STUDY How OPEC Helped Cause Stagflation in the 1970s and Euphoria in the 1980s 296
10-6	Conclusion 297
Chap	oter 11 Aggregate Demand I: Building the <i>IS-LM</i> Model 301
11-1	The Goods Market and the <i>IS</i> Curve 303
	The Keynesian Cross 303
	 CASE STUDY Cutting Taxes to Stimulate the Economy: The Kennedy and Bush Tax Cuts 310
	 CASE STUDY Increasing Government Purchases to Stimulate the Economy: The Obama Spending Plan 311
	The Interest Rate, Investment, and the IS Curve 312
	How Fiscal Policy Shifts the IS Curve 314
11-2	The Money Market and the LM Curve 315
	The Theory of Liquidity Preference 315
	► CASE STUDY Does a Monetary Tightening Raise or Lower Interest Rates? 317
	Income, Money Demand, and the LM Curve 318
	How Monetary Policy Shifts the <i>LM</i> Curve 319

11-3 Conclusion: The Short-Run Equilibrium 320

Chapter 12 Aggregate Demand II: Applying the IS-LM Model 325

12-1 Explaining Fluctuations With the IS-LM Model 326 How Fiscal Policy Shifts the IS Curve and Changes the Short-Run Equilibrium 326 How Monetary Policy Shifts the LM Curve and Changes the Short-Run Equilibrium 327 The Interaction Between Monetary and Fiscal Policy 329 CASE STUDY Policy Analysis With Macroeconometric Models 331 Shocks in the IS-LM Model 332 ▶ CASE STUDY The U.S. Recession of 2001 333 What Is the Fed's Policy Instrument-The Money Supply or the Interest Rate? 334 12-2 IS-LM as a Theory of Aggregate Demand 335 From the IS-LM Model to the Aggregate Demand Curve 335 The IS-LM Model in the Short Run and Long Run 338 12-3 The Great Depression 340 The Spending Hypothesis: Shocks to the *IS* Curve 341 The Money Hypothesis: A Shock to the LM Curve 342 The Money Hypothesis Again: The Effects of Falling Prices 343 Could the Depression Happen Again? 345 CASE STUDY The Financial Crisis and Economic Downturn of 2008 and 2009 346 ► FYI The Liquidity Trap (Also Known as the Zero Lower Bound) 348 12-4 Conclusion 349 Chapter 13 The Open Economy Revisited: The Mundell-Fleming Model and the Exchange-Rate Regime 353 13-1 The Mundell-Fleming Model 355 The Key Assumption: Small Open Economy With Perfect Capital Mobility 355 The Goods Market and the IS* Curve 356 The Money Market and the LM* Curve 356 Putting the Pieces Together 358 13-2 The Small Open Economy Under Floating Exchange Rates 359 Fiscal Policy 360 Monetary Policy 361 Trade Policy 362 13-3 The Small Open Economy Under Fixed Exchange Rates 363 How a Fixed-Exchange-Rate System Works 364

► CASE STUDY The International Gold Standard 365

Fiscal Policy 366

Monetary Policy 366

► CASE STUDY Devaluation and the Recovery From the Great Depression 368

Trade Policy 368

Policy in the Mundell-Fleming Model: A Summary 369

13-4	Interest Rate Differentials 370
	Country Risk and Exchange-Rate Expectations 370
	Differentials in the Mundell-Fleming Model 371
	CASE STUDY International Financial Crisis: Mexico 1994–1995 373
	CASE STUDY International Financial Crisis: Asia 1997-1998 374
13-5	Should Exchange Rates Be Floating or Fixed? 375
	Pros and Cons of Different Exchange-Rate Systems 375
	CASE STUDY The Debate Over the Euro 376
	Speculative Attacks, Currency Boards, and Dollarization 378
	The Impossible Trinity 379
	CASE STUDY The Chinese Currency Controversy 380
13-6	From the Short Run to the Long Run: The Mundell–Fleming Model With a Changing Price Level 381

13-7 A Concluding Reminder 384

Appendix: A Short-Run Model of the Large Open Economy 388 Fiscal Policy 390 Monetary Policy 391 A Rule of Thumb 392

Chapter 14 Aggregate Supply and the Short-Run Tradeoff Between Inflation and Unemployment 395

14-1 The Basic Theory of Aggregate Supply 396 The Sticky-Price Model 397 An Alternative Theory: The Imperfect-Information Model 399
CASE STUDY International Differences in the Aggregate Supply Curve 401 Implications 402
14-2 Inflation, Unemployment, and the Phillips Curve 404 Deriving the Phillips Curve From the Aggregate Supply Curve 404
FYI The History of the Modern Phillips Curve 406

Adaptive Expectations and Inflation Inertia 406

Two Causes of Rising and Falling Inflation 407

► CASE STUDY Inflation and Unemployment in the United States 407

The Short-Run Tradeoff Between Inflation and Unemployment 410

► FYI How Precise Are Estimates of the Natural Rate of Unemployment? 411 Disinflation and the Sacrifice Ratio 412

Rational Expectations and the Possibility of Painless Disinflation 412

► CASE STUDY The Sacrifice Ratio in Practice 414

Hysteresis and the Challenge to the Natural-Rate Hypothesis 415

14-3 Conclusion 417

Appendix: The Mother of All Models 420

part V Topics in Macroeconomic Theory

Chapter 15 A Dynamic Model of Aggregate Demand and Aggregate Supply 427

15-1	Elements of the Model 428 Output: The Demand for Goods and Services 428 The Real Interest Rate: The Fisher Equation 429 Inflation: The Phillips Curve 430 Expected Inflation: Adaptive Expectations 431 The Nominal Interest Rate: The Monetary-Policy Rule 432
	► CASE STUDY The Taylor Rule 433
15-2	Solving the Model 435
	The Long-Run Equilibrium 435
	The Dynamic Aggregate Supply Curve 437
	The Dynamic Aggregate Demand Curve 438
	The Short-Run Equilibrium 440
15-3	Using the Model 441
	Long-Run Growth 442
	A Shock to Aggregate Supply 442
	FYI The Numerical Calibration and Simulation 445
	A Shock to Aggregate Demand 446
	A Shift in Monetary Policy 447
15-4	Two Applications: Lessons for Monetary Policy 451
	The Tradeoff Between Output Variability and Inflation Variability 451
	► CASE STUDY The Fed Versus the European Central Bank 453
	The Taylor Principle 454
	► CASE STUDY What Caused the Great Inflation? 457
15-5	Conclusion: Toward DSGE Models 458
Chap	oter 16 Understanding Consumer Behavior 463
16-1	John Maynard Keynes and the Consumption Function 464
	Keynes's Conjectures 464
	The Early Empirical Successes 465
	Secular Stagnation, Simon Kuznets, and the Consumption Puzzle 466
16-2	Irving Fisher and Intertemporal Choice 468
	The Intertemporal Budget Constraint 468

► FYI Present Value, or Why a \$1,000,000 Prize Is Worth Only \$623,000 470 Consumer Preferences 471 Optimization 472

20-3 Conclusion 586

Epilogue What We Know, What We Don't 591

The Four Most Important Lessons of Macroeconomics 591
Lesson 1: In the long run, a country's capacity to produce goods and services determines the standard of living of its citizens. 592
Lesson 2: In the short run, aggregate demand influences the amount of goods and services that a country produces. 592
Lesson 3: In the long run, the rate of money growth determines the rate of inflation, but it does not affect the rate of unemployment. 593
Lesson 4: In the short run, policymakers who control monetary and fiscal policy face a tradeoff between inflation and unemployment. 593
The Four Most Important Unresolved Questions of Macroeconomics 594
Question 1: How should policymakers try to promote growth in the economy's natural level of output? 594
Question 2: Should policymakers try to stabilize the economy? If so, how? 595
Question 3: How costly is inflation, and how costly is reducing inflation? 596
Question 4: How big a problem are government budget deficits? 597
Conclusion 598
