Keynote and Invited Talk Abstracts	12
Roland Schwaiger KEYNOTE: Research drives Innovation	12
Leendert W. M. Wienhofen Challenges in Health Informatics and their Relevance to Internet Communities	13
Marc Drüner Understanding the Power of Social Media.....	14
Chapter 1: Social Networks	15
Coskun Akinalp, Herwig Unger Simulating Individual and Cooperation Node Behavior within a Ring Network.....	16
Murat Ahat, Omar Bennani, Marc Bui, Soufian Ben Amor Consensus and Relation Networks.....	26
Patrick Jähnichen Predicting Social Networks in Weblogs	38
Gilbert Babin, Denis Larocque, Abdessamad Dine Identifying Good Connections in an Unstructured Peer-to-Peer Network: The Case of Gnutella	48
Chapter 2: eHealth and Information Retrieval.....	60
Leendert Wienhofen, Pieter Toussaint Challenges in Designing Technology for Reducing the Need for Synchronous Communication in the Perioperative Environment.....	61
Nathalie Dessart, Hacène Fouchal, Philippe Hunel, Nicolas Vidot On Using a Distributed Approach for Help in Medical Diagnosis with Wireless Sensor Networks	70
Patharawut Saengsiri, Sageemas Na Wichian, Phayung Meesad, Unger Herwig Integrating Feature Selection Methods for Gene Feature Selection.....	82
Chapter 3: Recommender Solutions.....	92
Andreas Rederer, Gerald Eichler, Thomas Kury, Roland Schwaiger Spree - Trial-based Improvements: Transferring an Enterprise 2.0 into a Web 2.0 Expert Community Application	93
Andreas Lommatzsch, Till Plumbaum, Sahin Albayrak An Architecture for Smart Semantic Recommender Applications	105

Lior Rokach, Karl-Heinz Lüke, Aykan Aydin, Roland Schwaiger Recommenders Benchmark Framework	115
Chapter 4: Recommender Solutions.....	127
Akram Alkouz, Ernesto William De Luca, Sahin Albayrak Latent Semantic Social Graph Model for Expert Discovery in Facebook	128
Mario Kubek, Herwig Unger Topic Detection Based on the PageRank's Clustering Property.....	139
Sajida Kalsoom, Sheikh Ziauddin, Muhammad Tahir SportsFaces: A Graphical Password System based on Images of Sports Celebrities.....	149
Cécile Bothorel, Mohamed Bouklit An Algorithm for Detecting Communities in Folksonomy Hypergraphs	159
Chapter 5: Protocols, Models and Testing.....	169
Benjamin Vetter, Dirk Westhoff Code Attestation with Compressed Instruction Code	170
Marwane Ayaida, Haytem El Mehraz, Lissan Afilal, Hacène Fouchal Modeling Interoperability Channel using UPPAAL.....	182
Phuong Nguyen, Volkmar Schau, Wilhelm Rossak Performance Comparison of some Message Transport Protocol Implementations for Agent Community Communication	193
Vincent Levorato, Marc Bui Data Structures and Algorithms for Pretopology: the Java-based Software Library PretopoLib	205
Sébastien Salva, Antoine Rollet Automatic Web Service Testing from WSDL Descriptions	217
Chapter 6: Application Enabler	227
Jörg Roth Moving Geo Databases to Smart Phones - An Approach for Offline Location-based Applications.....	228
Akmal Saeed Khattak, Gerhard Heyer Significance of Low Frequent Terms in Patent Classification using IPC Hierarchy	239
Osman Ugus, Dirk Westhoff An MTM based Watchdog for Malware Famishment in Smartphones.....	251
Index of Authors	263
