**Laudatio** **1**

---

*Kurt A. Heller*

---

**Chapter 1: What Kind of Learning Environment Supports Learning of Gifted Students in Science?** **13**

---

*Kirsi Tirri*

- |  |    |
|--|----|
| 1. Introduction                        | 14 |
| 2. Research on Learning in Mathematics | 14 |
| 3. Data Collection                     | 15 |
| 4. Results                             | 16 |
| 5. Concluding Remarks                  | 22 |
| 6. References                          | 23 |

---

**Chapter 2: Professor F.J. Mönks, the Greatest Mentor, Facilitator of Talent Nurture in Hungary** **25**

---

*Laszlo Balogh*

- |  |    |
|--|----|
| 1. Further Development of Talent-Nurture Programs in Schools                 | 27 |
| 2. Creating the Forms of Teachers' Further Training in the Context of Talent | 29 |
| 3. Boosting Talent Research in Hungary                                       | 34 |
| 4. References  | 40 |

---

**Chapter 3: "Passion of Growth": Giftedness and Creativity in the Theory of Positive Disintegration** **43**

---

*Wieslawa Limont*

- |   |    |
|---|----|
| 1. Eminent Creators and Psychological Disturbances  | 44 |
| 2. Theory of Positive Disintegration in Brief       | 45 |
| 3. Theory of Positive Disintegration and Creativity | 46 |
| 4. Developmental Potential and Giftedness           | 48 |
| 5. Overexcitability and Giftedness                  | 50 |
| 6. Conclusions                                      | 52 |
| 7. References                                       | 53 |

---

**Chapter 4: Gifted Adolescents' Adjustment Problems: A Universal with Special Characteristics Perspective** **57**

---

*Sal Mendaglio*

- |   |    |
|---|----|
| 1. Introduction                                 | 58 |
| 2. Model of Adolescent Psychosocial Development | 58 |
| 3. Conclusion                                   | 67 |
| 4. References                                   | 67 |

---

**Chapter 5: Student-Centered Approaches to Gifted Education: Supporting and Creating Giftedness** **69**

---

*Marion Porath*

- |                              |    |
|------------------------------|----|
| 1. The Legacy of Franz Mönks | 70 |
| 2. References                | 77 |

---

**Chapter 6: Identification: An Integral Part of Gifted Education** **81**

---

*Kurt A. Heller*

- |  |    |
|--|----|
| 1. Historical Background of the "KUN/LMU-Connection"                             | 82 |
| 2. Multidimensional Conceptions of Giftedness as Suitable Identifying Procedures | 83 |
| 3. Main Functions of Identification in the Field of Gifted Education             | 85 |
| 4. Methodological Problems of Identification                                     | 85 |
| 5. Some Practical Recommendations  | 90 |
| 6. Conclusions   | 91 |
| 7. References  | 92 |

---

**Chapter 7: Talent Support as a Network Phenomenon** **97**

---

*Peter Csermely*

- |  |     |
|--|-----|
| 1. Growing Importance of Talented People in a Century Full of Challenges | 98  |
| 2. Networking Strategies of Talents                                      | 100 |
| 3. Talent Support Networks   | 103 |
| 4. References  | 109 |

---

**Chapter 8: Inspiration: Some Issues Concerning the Potential-Achievement Gap** **111**

---

*Peter G. Heymans*

1. Some Empirical Results on Inspiration Obtained in Own Collaborative Research 115
2. Concluding Comments: Tying the Issues Raised Together 117
3. References 117

---

**Chapter 9: Wisdom and Giftedness: Perspectives from Arabic Thought** **119**

---

*Abdullah Aljughaiman & Matthew Berki*

1. Introduction 120
2. The Concept of Wisdom in Arabic Thought 121
3. Historical Figures in the Arab World 123
4. The Characteristics of the Wise Person in Arab World View 124
5. Nurturing Wisdom 127
6. Conclusion 135
7. References 136

---

**Chapter 10: Natural Differentiation to Challenge High Ability Students in the Regular Classroom** **141**

---

*Marion Rogalla*

1. Introduction 142
2. Natural Differentiation 143
3. Curricula that Allow for Natural Differentiation 145
4. The Act of Learning 150
5. Discussion 151
6. References 151

---

**Chapter 11: Individual Antecedents of Academic Boredom and the Mediating Role of Appraisals** **155**

---

*Robert Grassinger & Xiaoju Duan*

1. Introduction	156
2. Research Question and Hypothesis	158
3. Method	159
4. Results	161
5. Discussion	162
6. References	165

---

**Chapter 12: Intelligences Outside the Normal Curve: Co-Cognitive Factors that Contribute to the Creation of Social Capital and Leadership Skills in Young People** **171**

---

*Joseph S. Renzulli & Stephanie D'Souza*

1. Overview	172
2. Summary of Underlying Sub-Theories	173
3. Overview of Sub-theory on Gifted Education and Social Capital (Operation Houndstooth)	176
4. Overview of Sub-theory on Gifted Education and Executive Functions - Leadership for a Changing World	177
5. Co-Cognitive Factors Intervention Theory	180
6. Summary	187
7. References	188

---

**Chapter 13: Gifted Education within the Regular School System and in Special Schools: Franz Mönks' Engagement in Teacher Training in Austria** **193**

---

*Friedrich Oswald & Sieglinde Weyringer*

1. Franz Mönks and the Initiatives in Gifted Education in Austria	194
2. ECHA-Austria, ECHA-Austrian Days, Platon Youth Forum	196
3. ECHA-Diploma Course	198
4. Models of Gifted Education in the Regular Austrian School System	200
5. Models of Gifted Education in "Out-of-School" Programs	206
6. Synthesis	208
7. References	208

---

**Chapter 14: How to Improve Young Children' Creative Ability from a Systemic Perspective on Creativity** **211**

---

*Jiannong Shi, Ning Chen, & Xiangyun Du*

1. References 215

---

**Chapter 15: MINT Talent Support in School Labs - New Perspectives for Gifted Youth and for Teachers of the Gifted** **219**

---

*Dieter Hausamann*

1. Introduction 220  
2. The MINT Gap 220  
3. The DLR\_School\_Lab Oberpfaffenhofen and its Major Cooperation Partners Hector Seminar and ICBF 221  
4. Curricular and extracurricular MINT talent support in Germany 225  
5. Assessment and Evaluation of Extracurricular Science Labs 228  
6. Teacher Education at the DLR\_School\_Lab Oberpfaffenhofen 229  
7. Summary and future prospects 231  
8. References 231

---

**Chapter 16: In Search of Knowledge and Wisdom** **237**

---

*George T. Betts*

1. In Search of Knowledge 239  
2. In Search of Wisdom 239  
3. Meeting Franz Mönks 239  
4. Impact of Franz Mönks on the Autonomous Learner Model In Europe 241  
5. The Autonomous Learner Model: Optimizing Potential 242  
6. References 250

---

**Chapter 17: Gifted Education as a Life-Long Challenge - Challenges for Gifted Education in an Ethno-Linguistic Diverse and Multicultural Society of the Andes** **251**

---

*Sheyla Blumen*

1. Introduction	252
2. Gifted Education in Peru	253
3. Provisions for the gifted and talented	257
4. Talent for the future	258
5. Concluding remarks	260
6. References	261

**Chapter 18: The Role of School Counsellors in Fostering Giftedness: The Australian Experience** **265**

---

*Wilma Vialle*

1. Introduction	266
2. Giftedness in Australia	266
3. Why School Counsellors?	268
4. School Counsellors' Views on Giftedness	271
5. Conclusion	274
6. References	275

**Chapter 19: Gifted Children in the Netherlands** **279**

---

*Lianne Hoogeveen, Willy Peters, & Els Schrover*

1. Center for the Study of Giftedness (CBO)	280
2. Intelligence	282
3. Parents	282
4. School	288
5. Peers	291
6. References	296

---

**Chapter 20: Self-Regulated Learning Strategies in Gifted Education and Teacher Training** **303**

---

*Christian Fischer & Christiane Fischer-Ontrup*

1. Introduction	304
2. Concepts of Gifted Education	304
3. Concepts of SRL Strategies	306
4. Promotion of SRL Strategies	307
5. Qualifying for SRL Strategies	309
6. Perspectives	310
7. References	311

**Chapter 21: How Gifted Students Learn: A Literature Review** **315**

---

*Heidrun Stoeger & Christine Sontag*

1. Defining Self-Regulated Learning	316
2. Concepts of Giftedness in Studies of Self-Regulated Learning	318
3. Do Gifted and Non-Gifted Pupils Differ with Respect to Self-Regulated Learning?	318
4. Differences in Cognitive Learning Strategies	320
5. Differences in Metacognitive Regulation	324
6. Differences in External and Internal Resource Use	328
7. Summary	329
8. Studies of the Promotion of Self-Regulated Learning for the Gifted	329
9. References	332

**Chapter 22: The Impact of Beliefs on Intelligence, Achievement and Creativity** **337**

---

*Albert Ziegler*

1. The One-Sigma Problem	338
2. Beliefs that Influence Achievement, Intelligence and Creativity	338
3. Theoretical Classification	343
4. The Actiotope Model of Giftedness	343
5. Classification of Achievement-, Intelligence- and Creativity-Lessening Beliefs Within the Actiotope Model, and the Intervention Options it Offers	345
6. References	347

**Chapter 23: Possibilities of School-Based Mentoring** **351**

---

*Marold Reutlinger*

1. Introduction	352
2. Is mentoring successful?	353
3. Why is mentoring successful?	353
4. School-based mentoring possibilities	355
5 Conclusion	360
6. References	360
